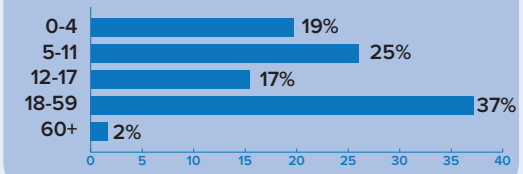
Rural Damascus	6%
Other areas	40%

AGE BREAKDOWN



Trends, Highlights and Challenges

- UNHCR and SRAD are leading the inter-agency winter preparedness planning, including shelter, flood mitigation, water supply, waste management, desludging, and drainage maintenance.
- Neonatal mortality rate reduced to 14.3 per 1000 live births in the 2nd quarter of 2023, compared to 22.5 that was in the 2nd quarter 2022, attributed to enhanced neonatal care.
- Around 75 scholarship applications were received from Azraq camp after the Tawjihi (high school) results, with only 3 students selected under DAFI scholarship for Bachelor's degrees at the Jordanian universities.

Key Facts and Figures

- Around 12,000 children are currently enrolled in education; this represents 69% of children in the camp.
  - Around 11,800 children from kindergarten 2 to Grade 12 (50% female) are enrolled in formal education.
  - Around 200 children (52% female) enrolled in the Ministry of Education accredited non-formal education.
  - 15 schools and 5 standalone kindergarten 2 centres
- As of the end of September, around 1,200 active work permits holders, including 10% female, are registered in the database; this represents around 8% of Azraq's working-age population.
- Around 1,800 refugees, including 43% female, are engaged in the Incentive-Based Volunteer scheme, which allows refugees to work with organisations in the camp as paid volunteers.
