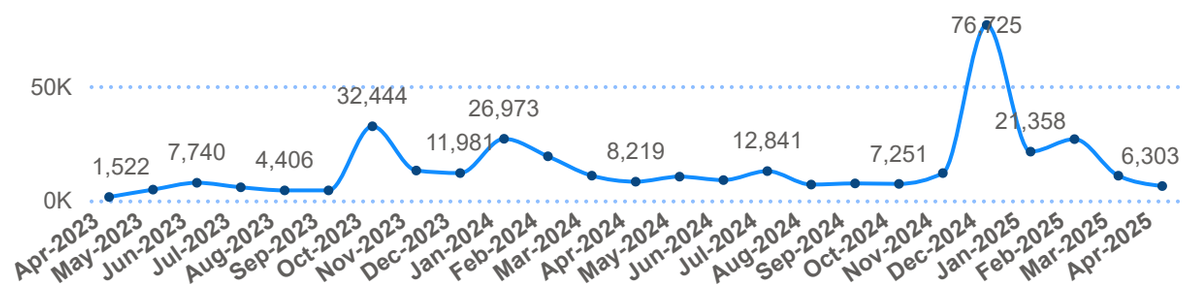
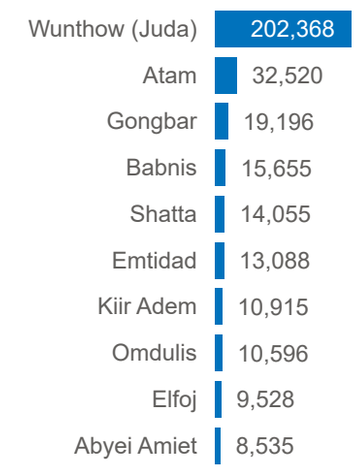
Arrival Trends

6,303 refugees and asylum-seekers arrived in March 2025



Individuals arrived by top ten border points

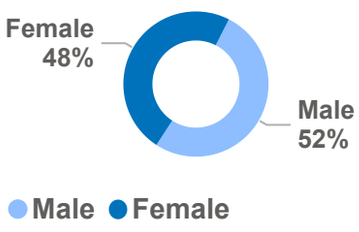


The refugees and asylum-seekers arrival data is based on the joint border monitoring of RRC, UNHCR and IOM collected at official border points. The data does not include refugees/asylum-seekers who crossed through un-official border points or at night, when the monitors are not present. This data set excludes South Sudanese returnees and third-country nationals.

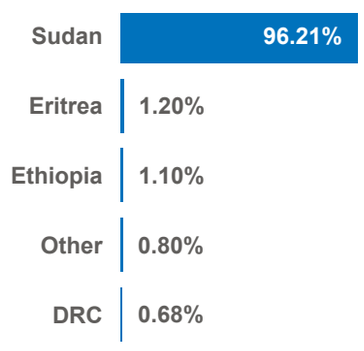
Refugees and asylum-seekers presence at camps and transit centres

229,837

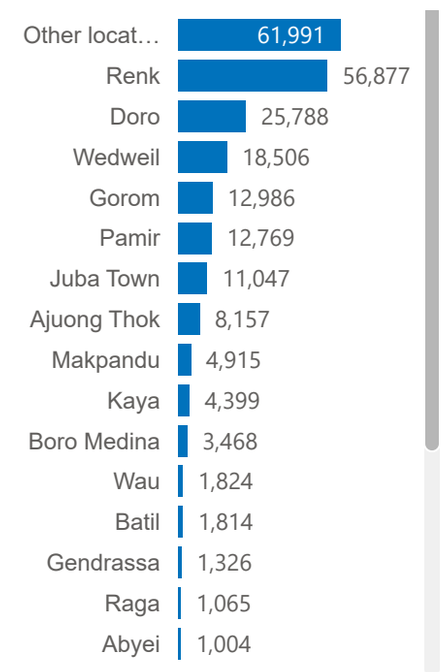
Individuals registered



Registered individuals by nationality



Registered individuals by camps/settlements



The refugees and asylum-seekers data is comprised of people officially registered at refugee camps/settlements in UNHCR's proGres database. Data on arrivals at border points and presence in camps/settlements may vary due to people crossing at unofficial border points or finding their own way to these sites for registration.
