Khazer M1 - December 2024

CAMP BACKGROUND INFORMATION

As one of the East Mosul Camps (EMCs), Khazir M1 opened on 25 October 2016, in response to the humanitarian crisis that originated from the military offensive on Mosul City and surrounding areas. The camp hosts Internally Displaced Persons (IDPs) from the 13 villages surrounding the EMCs, including families with unresolved tribal and security issues that prevent their return. IDPs in Khazer M1 live in dire conditions, facing severe restrictions on their freedom of movement due to their sensitive profiles. Access to basic services, including education, health, and WASH are inadequate, posing significant protection risks and public health challenges. In Khazer M1, UNHCR provides IDPs with civil documentation support through its partner INTERSOS.

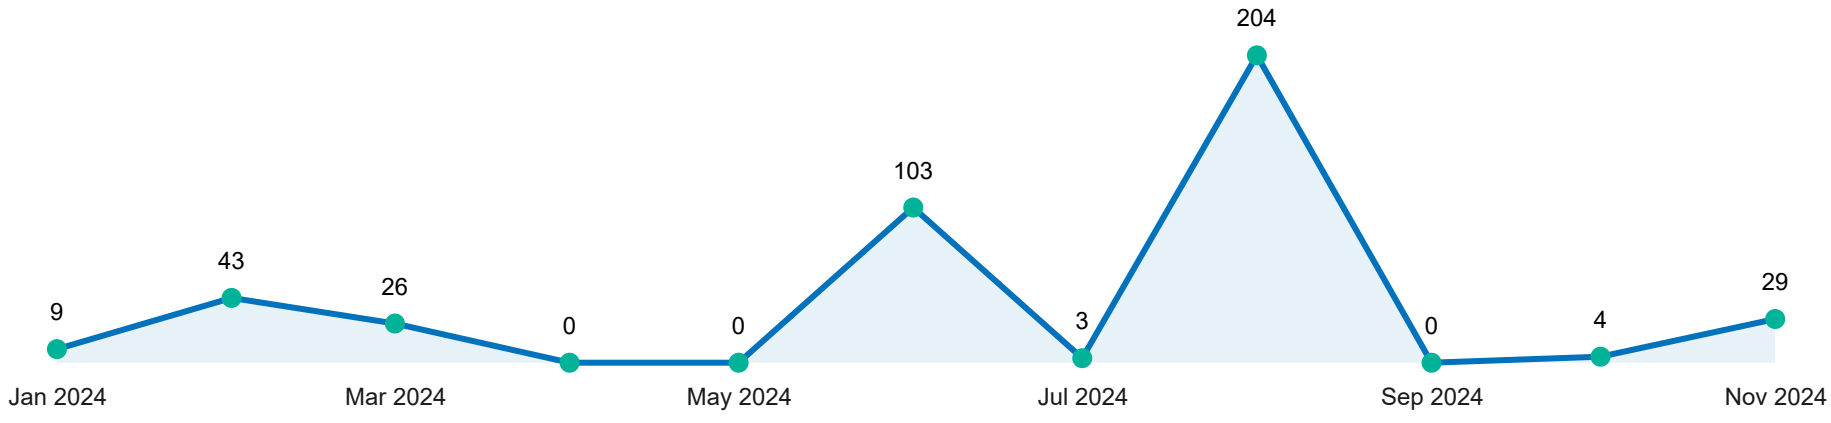
KEY MESSAGES

- Advocate with the Government of Iraq (GoI) and the Kurdistan Regional Government (KRG) to ensure that the provision of services, including quality education and in-kind (food, fuel, generator maintenance, kerosene) support, is maintained until all residents have achieved a durable solution.
- The Federal Ministry of Interior (MoI) and KRG MoI should facilitate access to civil documentation (including through the newly established Unified National ID office in Erbil) facilitating return to their areas of origin or relocation to other locations of their choice in Iraq.
- KRG MoI to provide security clearances to the 62 families from the villages surrounding the EMCs to facilitate their return to their villages.
- About the consolidation of the EMCs: i) living conditions and access to services should remain at least at current levels, ii) camp consolidation should not further restrict the already limited freedom of movement in the camps and iii) the IDP community should be consulted in this process, and their intentions and preferences should support and influence the decision-making process.

Khazer M1 - December 2024

POPULATION DEPARTURE TREND (2024) - Number of families

In 2024, a total of 421 families (2,176 individuals) departed the camp, primarily through IOM and MoMD organized movements. This represents approximately 60% of the population registered as living in the camp as of January 2024. IDPs primarily departed to Ninewa (Al Ba'aj, Mosul, Hamdaniyeh, Tel Afar) and Salah Al-Din (Beygee).



SHELTER

MoMD Tent
Shelter type

447
Occupied plots

150
Shelters with over 7 residents
