

135

Individuals repatriated

Since 2002, UNHCR Iran has supported nearly 1 million refugees to voluntary repatriate in safety and dignity to Afghanistan and Iraq, taking into account the UNHCR Non-Return Advisory¹ and UNHCR Global Guidance Note on the International Protection Needs of People Fleeing Afghanistan². However, as the situation in Afghanistan remains fragile, only a small number of Afghan refugees in Iran have shown willingness to return to their home country. Repatriation of Afghan students to obtain visas to continue their studies in Iran has significantly declined from 38% of the repatriates in the first four months of 2022 to 10% of the repatriates in the same period of 2023. UNHCR supports the Iranian Government in providing Afghans with health, education and livelihoods opportunities.

Individuals who are healthy, educated and have marketable-skills are typically more likely to return and feel capable of rebuilding their lives. Nonetheless, ultimately, a longer-term, political solution for Afghanistan's protracted crisis is the only way to ensure safe, sustainable and voluntarily return of refugees.

Top 5 reason of return to Afghanistan by month (% of individuals)

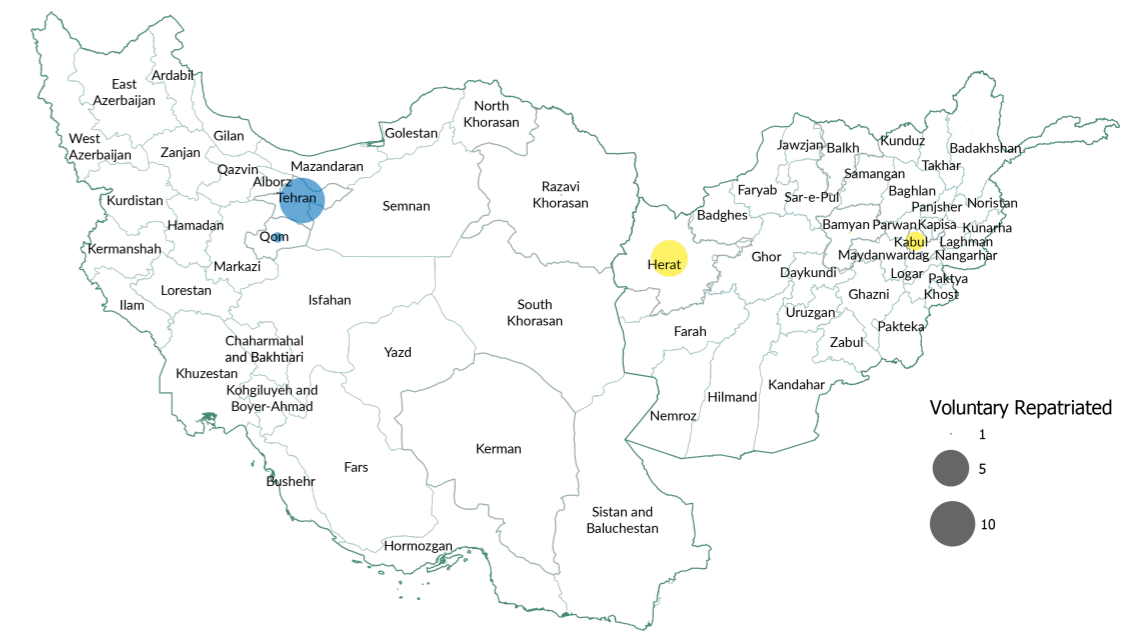

Trend over the years (2016-2023)

As of end of April 2023, UNHCR facilitated the repatriation of 135 individuals to Afghanistan – 38 individuals only in the month of April 2023. This represents a 48% increase compared to the same period in 2022. Amongst the main reasons, returnees expressed facing financial difficulties in Iran and willingness to join relatives and start a new life.
