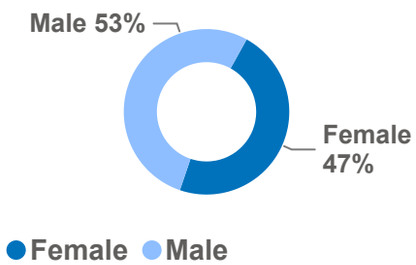
Sudan Situation

Refugees and Asylum-seekers Movement and Presence

Refugees and asylum-seekers recorded at the border points



456,479

 # Individuals arrived

Sudanese	99.0%
Eritrean	0.7%
Other	0.3%

The refugees and asylum-seekers arrival data is based on the joint border monitoring of RRC, UNHCR and IOM collected at official border points. The data does not include refugees/asylum-seekers who crossed through un-official border points or at night, when the monitors are not present. This data set excludes South Sudanese returnees and third-country nationals.

Children 0 - 5 Years	Children 6 - 17 Years	Adult 18 - 59 Years	Elder 60 + Years
17%	30%	50%	3%

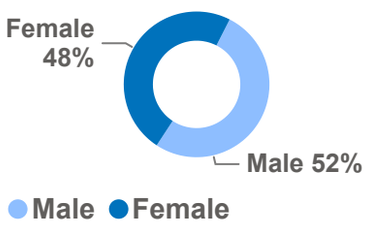
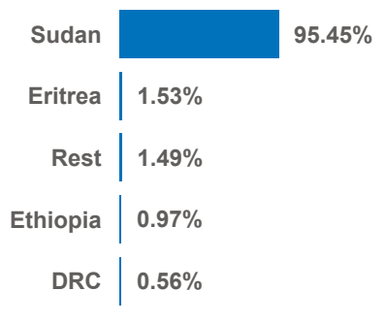
Refugees and asylum-seekers presence at camps and transit centres - proGres

307,418

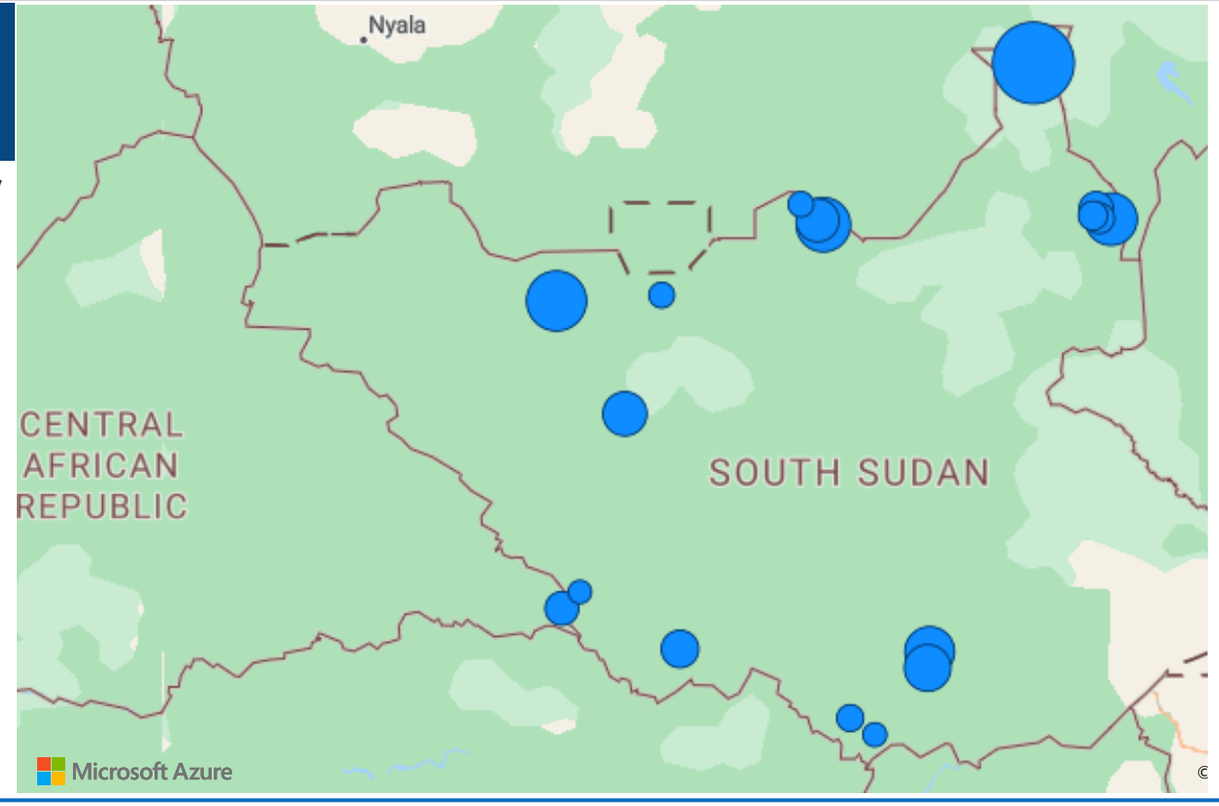
Individuals Registered



Registered individuals by nationality



The refugees and asylum-seekers data is comprised of people officially registered at refugee camps/settlements in UNHCR's proGres database. Data on arrivals at border points and presence in camps/settlements may vary due to people crossing at unofficial border points or finding their own way to these sites for registration.



Registered individuals by camps/settlements
