  - Ali Mansoor (NORCAP/TRC)
  - Ahmet Ünver (UNHCR)
  - Burak Akar (IFRC)

Update: Partners' Capacity Building Updates

- Plans for future CVA capacity building activities

GIZ CLIP-2 EARTHQUAKE RESPONSE

Provision of Multi-Purpose Cash Assistance and Education Focused Cash Support to the Earthquake Affected Population

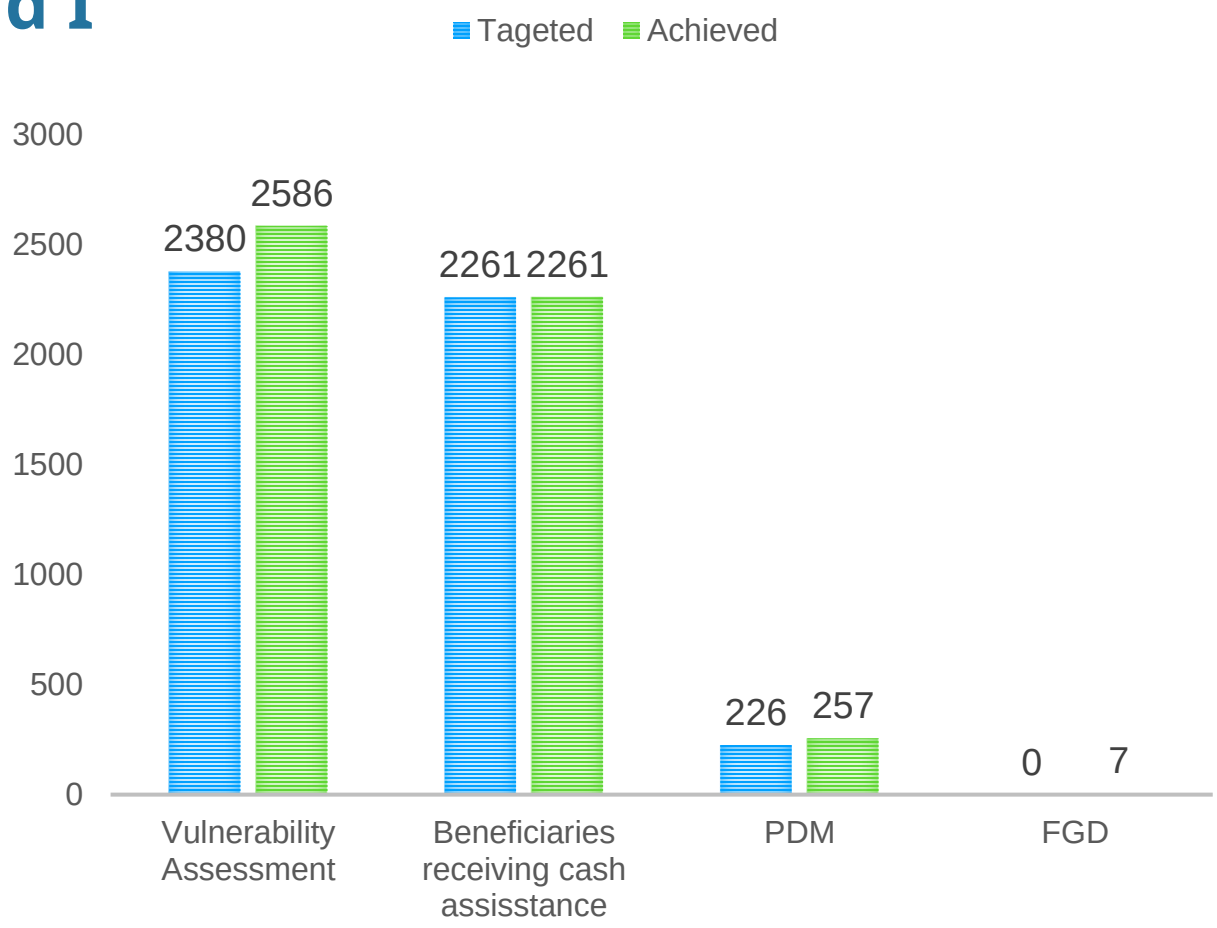
Round I & II

Agenda

- CLIP 2 Earthquake Response Round I & II
- Round II Focus Group Discussion Results
- Q&A

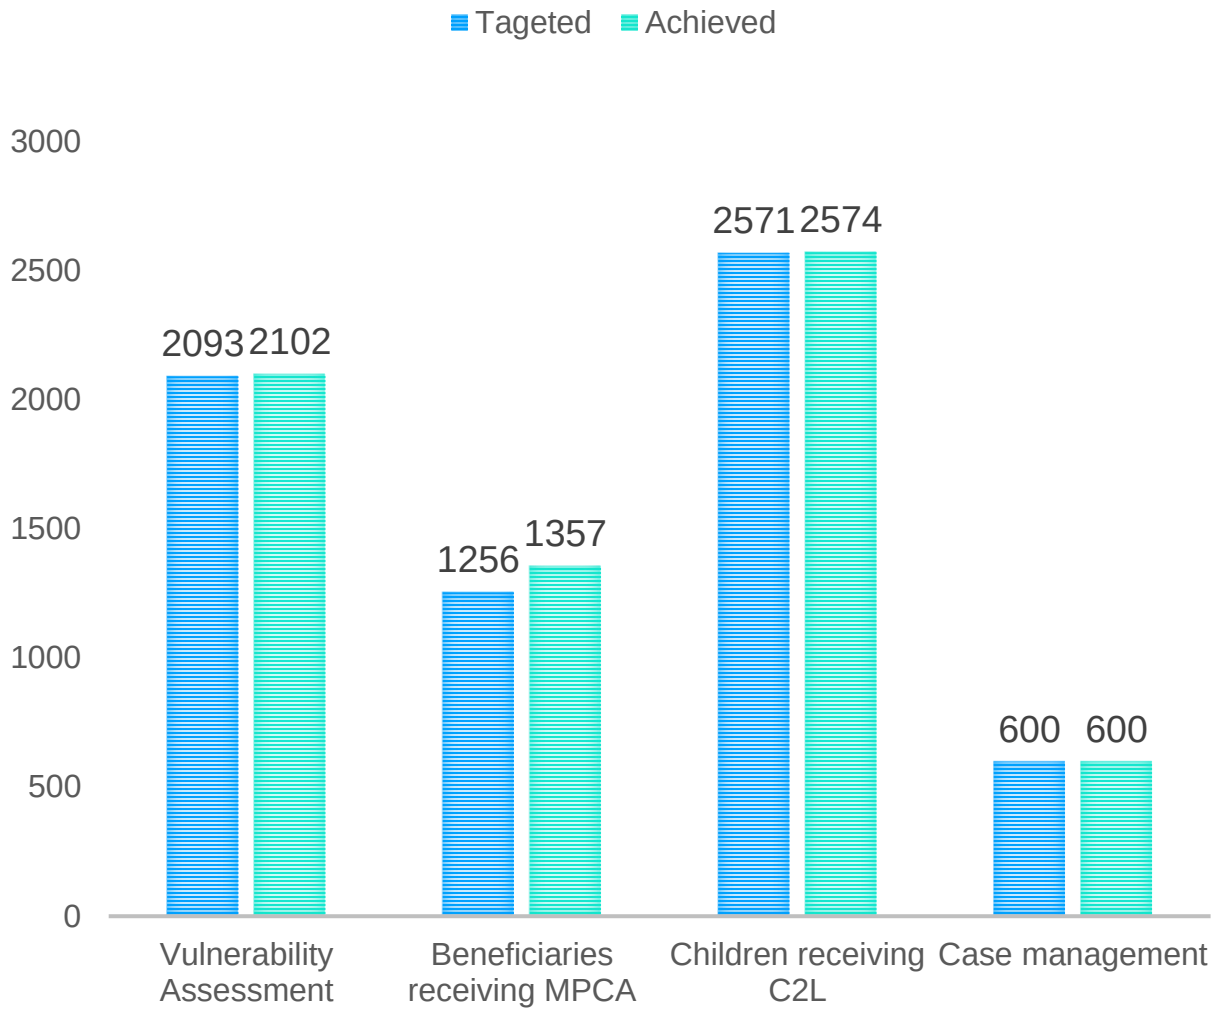
The Achievements of the Cash Round I

- November 2023 - April 2024
- Project region: Ankara, Hatay, Kahramanmaraş, Malatya
- Methodology: vulnerability assessment and prioritization based on vulnerability score
- Targeted 2261 beneficiaries: 20% host community + 80% refugees
- Per household: 8265 TL



The Achievments of the Cash Round II

- July 2024 - March 2025
- The project provinces: Hatay and Malatya,
- Methodology: vulnerability assessment and prioritization based on vulnerability score,
- Vulnerability assessment: questions on health and disability, livelihood, shelter, access to WASH, education status of children, negative coping mechanisms, etc.,
- Reached 1357 households for MPCA (25.080 TL),
- Reached 2574 children for education-focused cash support (140 Euros),
- Reached 600 children for case management. 150 Euros in-kind assistance per child.



Round II - Focus Group Discussion (FGD) Findings

- 4 FGDs (2 in Hatay and 2 in Malatya) were conducted between January 20 – 24, 2025, involving both Turkish and Syrian beneficiaries.
- The FGDs aimed to assess the challenges faced by children in accessing education, the effectiveness of education-focused case management support, and the impact of in-kind assistance.

Key Findings

- Families found the provided guidance and support beneficial, particularly assistance with school registration, uniforms, and transportation, which improved school attendance.
- Distribution of uniforms, school supplies, and winter clothing helped increase children's motivation to attend school, ***but parents suggested voucher-based assistance for better flexibility.***

Round II - Focus Group Discussion (FGD) Findings

Limited Long-Term Impact on Academic Performance: While assistance helped with attendance and motivation, families reported no significant improvement in children's academic success, highlighting the need for tutoring and structured study spaces especially for the container cities.

Transportation Barriers: Participants in both Hatay and Malatya reported challenges in accessing schools due to high transportation costs and lack of school transportation services, particularly in container cities. While the project provided transportation support in Hatay, the transportation issue in Malatya remained unresolved due to restriction on the entry of school transportation services into Beydağı Elemendik Temporary Accommodation Center.

Q&A

Thank you!

SGDD-ASAM

AoB

- Revised Terms of Reference of CBI TWG
- Draft 2025 Work Plan of CBI TWG

- Suggestions for coming meeting
- Other issues

- **THANK YOU !**
