Regional Refugee Response for the Ukraine Situation

SLOVAKIA | REFUGEE RESPONSE PLAN 2024
QUARTER 1 INTERAGENCY ACHIEVEMENTS REPORT

Within the framework of the inter-agency Regional Refugee Response Plan (RRP), 25 partners in Slovakia have joined efforts to provide protection services and multi-sectoral humanitarian assistance to refugees from Ukraine, third country nationals and other persons in need, and also support the host communities. The current number of the RRP partners is only indicative and not exhaustive of the operational number of humanitarian partners in Slovakia. The RRP in Slovakia complements the Government-led efforts and it builds on the collective and coordinated work already being done in the country, including with the support of volunteer groups and other local responders, and promotes an area- and needs-based approach. The figures below represent a non-exhaustive list of achievements by partners. Reporting on implementation of activities, collection and analysis of data are ongoing and the fullest possible set of regularly updated information will be made available, accordingly.
