- Ex. Unit/ CCCM Cluster & Partners challenges and updates
- AoB

Review of previous Action Points:

NO. م.	ACTION POINT النقاط المخرجة	Status الحالة
1	ExU to convene a dedicated Task Force to design and implement an IDP tracking mechanism. DTM, Protection cluster, and CCCM should participate. ExU will lead the initiative.	**Pending,** ExU is awaiting to have a baseline data which they will get following the implementation of the IDPs profiling exercises.
2	ExU Main Office to support in advocating for the cleaning fund's commitment and on securing necessary resources for the solid waste disposal initiative in Alrebat IDP site.	Meeting was conducted, cleaning fund complaint about the existence of human excrement among the solid waste which they cannot dispose. It was agreed on conducting awareness sessions and cleaning camping prior to securing necessary resources for the solid waste disposal initiative in Alrebat IDP site. Tayabah foundation is committed to do the cleaning camping, however awaiting confirmation from their donor, UNICEF.
3	NRC to reach out to Dr. Ahmed Al Ansari, ExU IM, to cross-check new arrivals to NRC managed sites in Abyan against the existing records of IDPs within the governorate.	**Pending**, CCCM to facilitate a meeting between ExU IM and NRC.

4	CCCM Cluster will contact FSAC coordinator to address this documentation issue and ensure all eligible IDPs receive the food support.	**Done,** WFP confirmed the process is aimed at mapping the beneficiaries lacking Identification Cards, and advocate for solutions to address it. WFP is not allowed to use the biometric data and through such process they are trying to mitigate the risk of redundant data and duplications. There will also be a follow-up round where IDPs can report missing IDs to ensure no one is excluded due to verification. WFP confirmed they are not aiming to exclude any IDP as a result of this verification process.
5	CCCM cluster will provide a one-pager guide on establishing the flood reporting committees.	**Pending**
6	CCCM partners to provide feedback to the flood severity matrix shared by the cluster partners	**Done**
7	ExU will follow up with their FPs on HLP issues in Shabwah IDP sites.	**Done**, local authority confirmation was shared with SHS to proceed with the implementation.
8	CCCM cluster to request the health cluster to provide the CTC/DTC mapping.	**Done**, data shared with CCCM Cluster Partners

Flood/outbreaks; tracking, referrals, and response in the IDP sites

The CCCM cluster presented their flooding dashboard and highlighted a critical gap i.e. a lack of reported responses for flood incidents. This creates a blind spot – it's unclear if no interventions are planned, or if a response is simply not being reported. To address this, the cluster highlighted the need to close the loop, to enable for escalating the unmeet gaps.

CCCM cluster partners advocated for adding a "Planned" status in the incidents form for planned interventions currently listed as "Pending" while in reality it is "Planned". This distinction clarifies that action is planned, not neglected by CCCM partners.

AP: CCCM partners and the ExU will collaborate to update response data on the ActivityInfo platform, particularly regarding response status. To ensure timely updates, the CCCM cluster will implement calendar reminders for partners.

No significant increase in the cholera cases, week 22 showed a decrease in the cholera cases, based Early Warning System (EWS) report issued by the ministry of health and health cluster.

CCCM cluster mentioned a slight modification for the cholera tracker form to include more outbreaks. This comes based on a request from UNICEF to CCCM cluster, as UNICEF referred that they can provide more support and advocacy to health units that they are funding to target IDPs. CCCM cluster highlighted that UNICEF is looking to more collaboration with CCCM, though providing awareness sessions and trainings to site community committees to role out future compaingsn, but also to receive information and updates for the CCs.

Ex. Unit/ CCCM Cluster & Partners challenges and updates

ExU highlighted there is a threat from the landowner, ExU identified a new land for IDPs to move, and requested CCCM cluster to carry out a MCLSA. CCCM should some constraints on the resources of establishing a new camp. CCCM also highlighted that cluster referred the case to HLP working group, CCCM cluster will follow up with HLP WG coordinator to understand the status of the MCLSA request.

For Aden, two buildings in Aden were emptied from IDPs, and delivered to authorities and local administration in the districts, i.e. Ammar Bin Yasser School, and مبنى الاحداث, however there is some damages in the bukdings which requires some fixations and rehabilitation. CCCM cluster mentioned there is a an activity under CCCM which is the decommissioning, however there is no clear guidelines on how to conduct the decommissioning and which parties are involved on the decommissioning. There was a perlirminary discussion took place between the SNFI, WaSH and CCCM cluster on the decommission but there is no further follow up took place.

AP: CCCM cluster will follow up with the national CCCM cluster on the decommissioning guidelines and will feedback the group.

ExU referred to some issues took place because of the CaSH Assitance under the CCY. The IDPs who wasn't targeted, complaint against ExU FPs in the sites to districts managers, where ExU received letter to change these FPs. ACTED mentioned that there was a clear process which explains criteira for IDPs to release in miss understanding.

ACTED highlighted that the CaSH team differs from the CCCM team, and that CCCM team is stopped from accessing Al Buriqah and the CCCM team is stopped from accessing the IDPs sites in Al Buriqah.

CCCM cluster suggested that ACTED CCY should do further sensitization for the criteria. ExU highlighted that they are reaching the head of the district to address both ExU and ACTED access issues.

AP: ACTED to give updates from the CCY, and ExU to advocate on higher levels to allow the access for ACTED and ExU FPs.

In Marib ExU identified big lands for IDPs as donation, on the conditions that there should be permanent shelters. ExU build 16 village benefiting 3500 HHs, ExU has more lands and wants support from humanitarian partners to support building more villages.

CCCM cluster mentioned that this fell under the development fund, and that humanitarian funding is humanitarian funding cannot afford permanent units to IDPs.

NRC have plans to conduct simi permanent buldings for IDPs, but also BCHR.

IDSF kickoff meeting was done yesterday, 29th of May.

ExU mentioned that donors, united nations is looking forward to DS, but also neglecting the humanitarian situation. ExU requests to understand what the strategy on deleveirng CCCM services for the coming years with the reduction of funding on CCCM and humanitarian funding will be.

The cluster referred to coming consultation with partners, on the transition strategy for the CCCM with the reduction of funding, there will be bilateral discussions with CCCM partners, and ExU which will draw the strategy for the coming period for the cluster.

CCCM is going to restructure the CCCM Master List, where the sites under 20 HHs, will be separated in separate sheet or when feasible will be merged with neares sites.

CCCM cluster mentioned there will be coming standard allocation on June, the nature of funding is still not clear, and is likely to be an ABA interventions, without specifying the amount allocated for each sector.

Al Haimah, Alhudaidah WC, the project was stopped and closed by the OAOWC refused the project and the activities on the project as it will not contribute to relocating IDPs from Al Haimah to Al Khoukha.

CBWG there is a process of contextualizing the global CCCM backage, ExU also highlighted that the pervious package was a treasure and explain the modules and topics in more detailsm in contrast to what
