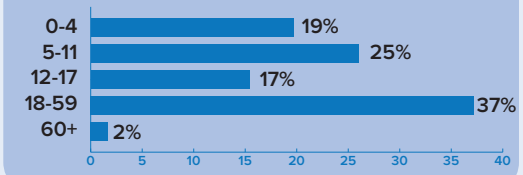
AGE BREAKDOWN



Trends, Highlights and Challenges

- An average of 4,730 medical consultations and 19 deliveries per week. In June, 53 patients were referred outside the camp.
- High neonatal mortality rate of 18 out of 1,000 births compared to the national rate of 11 out of 1,000 births continues to be a concern.
- Limited shelter reconstruction capacity continues to be a challenge. In June, UNHCR identified around 120 families for a project which provides training to enhance their ability to repair and maintain shelters themselves.
- In-kind donations (e.g. food parcels and meat) received for Eid al-Adha were distributed to around 8,800 refugees.

Key Facts and Figures

- Around 12,000 children are currently enrolled in education; this represents 69% of children in the camp.
  - Around 11,800 children from kindergarten 2 to Grade 12 (50% female) are enrolled in formal education.
  - Around 200 children (52% female) enrolled in the Ministry of Education accredited non-formal education.
  - 15 schools and 5 standalone kindergarten 2 centres
- As of the end of June, around 1,300 active work permits holders, including 10% female, are registered in the database; this represents around 8% of Azraq's working-age population.
- Around 1,800 refugees, including 46% female, are engaged in the Incentive-Based Volunteer scheme, which allows refugees to work with organisations in the camp as paid volunteers.

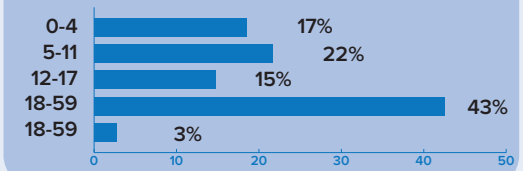
AGE BREAKDOWN



Trends, Highlights and Challenges

- Over 190 newborn babies were registered since the beginning of the month.
- More than 6,500 cases were processed by UNHCR for different registration issues including documentation renewals.
- Electricity consumption remains one of the biggest challenges as the refugees' needs outstripped the solar power production. UNHCR covered the cost of additional electricity provided through the national grid system which added up to US$ 275,000 in June.

Key Facts and Figures

- More than 22,000 children are currently enrolled in education; this represents 74% of children in the camp.
  - More than 22,000 children from kindergarten 2 to grade 12 (50% female) are enrolled in formal education.
  - Around 300 children (47% female) are enrolled in Ministry of Education accredited non-formal education.
  - Around 8,200 children benefitting from integrated learning support offered by UNICEF Makani centres.
  - 32 schools, 13 kindergartens and 58 community centres
- As of end of June, around 3,000 active work permits, including 10% female, are registered in the database; this represents around 7% of Zaatari's working-age population.
- Around 2,400 refugees, including 35% female, engaged in the Incentive-Based Volunteer scheme, which allows refugees to work with organisations in the camp as paid volunteers.
