MALI

Displacement from Burkina Faso

as of 30 Nov 2025

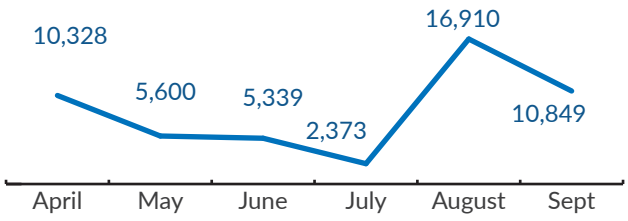
Context

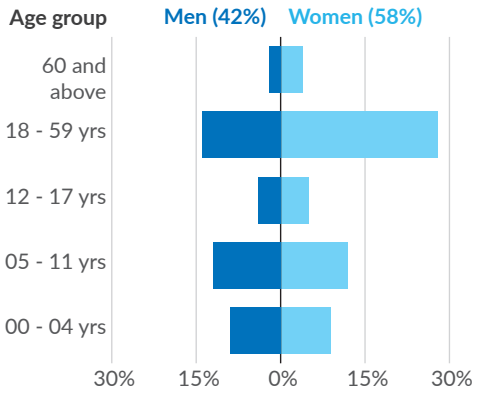
From April to September 2025, UNHCR Sub-office of Mopti witnessed a sharp increase in the number of refugees from Burkina Faso. These people fled following attacks on the outskirts of their localities. Some 51,000 individuals arrived between April and September 2025. This recent influx has nearly doubled the number of Burkinabe refugees in Koro. UNHCR is working alongside the authorities and the humanitarian community to mobilize a joint and coordinated emergency response which will require additional resources to meet the urgent needs of the refugees and reduce the pressure on generous host communities and fragile public services.

51K New arrivals since April 2025

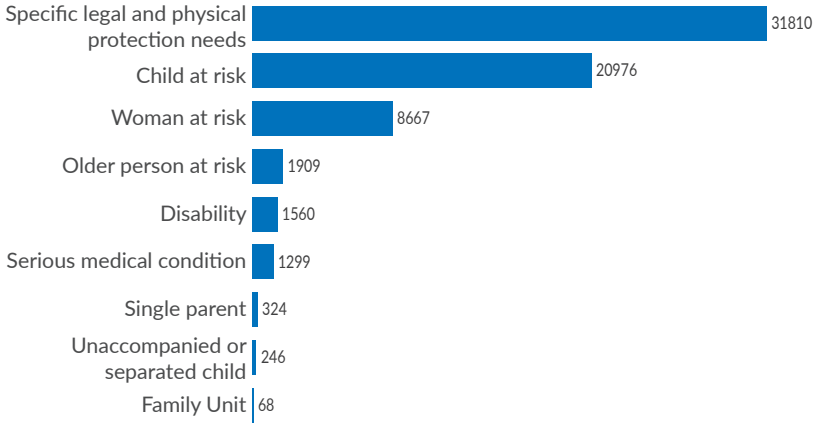
103K Total Burkinabe refugees in Koro *from January 2024 - Oct 2025*

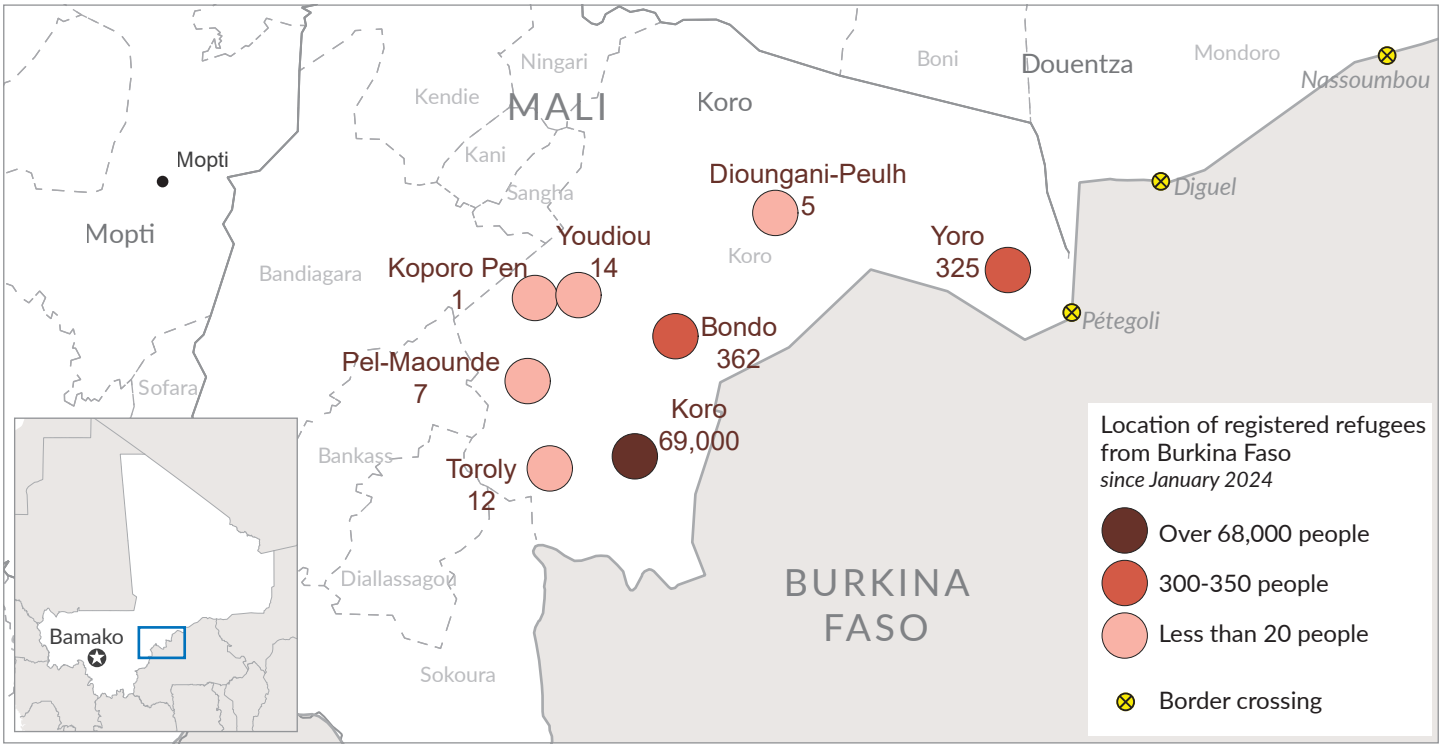
72K Burkinabe refugees registered





People with special needs





Who is doing What, Where
