The Project 21 is a regional protection monitoring system, launched in 2020 to address gaps in data collection and analysis on protection in West and Central Africa. 555 households interviewed from 06 to 12 feb. 2026,following the various influxes registered, mainly at the entry points of Tiné, Kulbus, Birak (Wadi Fira), Bahai and Kariari (Ennedi East) and Adré (Ouaddai).
