UNHCR-IOM FLASH UPDATE #101

UNHCR The UN Refugee Agency | IOM UN MIGRATION

ARREST AND DETENTION | FLOW MONITORING (15 September 2023 – 4 July 2026)

INTRODUCTION

In response to the Ministry of Interior's (MoI) decision of 26 September 2023 to enact an "Illegal Foreigners' Repatriation Plan", UNHCR, the UN Refugee Agency and IOM, the UN Migration Agency, have collated their data on the arrest, detention, and deportation of Proof of Registration (PoR) holders, Afghan Citizen Card (ACC) holders, and undocumented Afghan nationals as well as on the outflows of Afghan nationals at the Torkham, Ghulam Khan, Chaman, Badini and Bahramcha border crossing points, to better understand the protection environment and movements of Afghan nationals returning to Afghanistan from Pakistan.

In 2025, the Government of Pakistan (GoP) issued several directives impacting Afghan nationals. In January, the GoP announced that Afghan nationals should relocate from Islamabad Capital Territory (ICT) and Rawalpindi, or else face deportation. In April, further announcements indicated the implementation of the second phase of the "IFRP", targeting ACC holders, in addition to undocumented Afghans. In July, the GoP issued a Statutory Regulation Order (SRO) directing the repatriation/deportation of PoR card holders following the expiry of PoR card validity on 30 June. The GoP later indicated a deadline of 1 September for PoR holders to leave Pakistan, before the start of the repatriation/deportation process. UNHCR issued a press briefing expressing concern regarding the decision and urging the GoP to exempt Afghans with international protection needs, as well as those with particular circumstances or vulnerabilities, from involuntary return.

KEY FINDINGS AND LIMITATIONS

Prior to 2023, there was no data collected on the arrest and detention of ACC holders or undocumented Afghan nationals. Since January 2023, IOM has started to collect this data. The figures, particularly of undocumented Afghan nationals, should be considered underreported.

- During the reporting period (28 June – 4 July) a total of 1,646 Afghan nationals were arrested and detained, representing a 298% increase compared to the previous week (21 – 27 June). The reopening of border crossing points after the Ashura holiday, as well as the circulation of a notification mandating the immediate arrest of Afghan nationals residing in Pakistan without a valid visa, contributed to the increase in arrest numbers.
- Out of all arrests and detentions during the reporting period (28 June – 4 July), ACC holders and undocumented Afghans represented 97% of the total rate of arrest and detentions, and PoR holders represented 3%.
- During the reporting period (28 June – 4 July), 57% of the total reported arrests and detentions took place in Balochistan, 15% in KP, 13% in Sindh, 10% in Punjab, and 5% in ICT.
- Across Pakistan, the top three districts for arrest and detention between 1 January and 4 July 2026 remained Chaghi (Balochistan), Peshawar (KP), and Islamabad (ICT).

KEY FINDINGS

- Cumulatively, from 15 September 2023 to 4 July 2026, 2,557,179 individuals have returned.
- During the period 28 June – 4 July 2026, UNHCR and IOM estimate 19,130 Afghans returned through the Torkham, Ghulam Khan (located in Khyber Pakhtunkhwa), Chaman, Badini and Bahramcha (located in Balochistan) border crossing points to Afghanistan.
- Between 28 June – 4 July 2026, the number of returns increased by 59% and deportations increased by 299% — compared to the previous week of 21 – 27 June 2026 (12,022 returns including 411 deportations). During 28 June – 4 July 2026, a total of 19,130 returns were reported, including 1,638 deportations. The increase in returns and deportations is primarily linked to heightened fears around a potential renewed 10 July deadline, alongside an increase in arrest operations during the reporting period. Temporary border closures during the previous reporting period also contributed to the observed increase.
- For the returns from 28 June – 4 July 2026, most of the returnees were undocumented (49%) followed by PoR holders (40%) and ACC holders (11%). Majority of the PoR returns were processed by UNHCR through the Voluntary Repatriation Centers (VRCs).
- For the deportees from 28 June – 4 July 2026, most were undocumented (95%) followed by ACC holders (3%) and PoR holders (2%).
- Since 1 April 2025, 1,703,146 Afghan nationals returned, of which 214,634 (13%) were deported.
- During the period, fear of arrest remained the main reason for return among undocumented individuals and ACC holders (95%) as well as for PoR holders (64%).
- During the same time period, returnees were most likely to return from Quetta (17%), Nowshera (13%) and Haripur (11%) in Pakistan and intend to go to Nangarhar (29%), Kabul (22%) and Kunduz (14%) in Afghanistan.
