WHO EMTCC in the Republic of Moldova

WHO EMTCC

- EMTCC (Emergency Medical Teams Coordination Cell) has been established to coordinate EMT’s under local MoH
- WHO EMT initiative was established after heart quake in Haiti in 2010
- Main topic is to reduce pressure to local health authorities and coordinate together with them EMT’s work on ground
- Establish regular data collection system for EMT’s and give back daily based information to MoH

“

EMTs are groups of health professionals providing direct clinical care to populations affected by disasters, outbreaks and other emergencies as surge capacity to support the local health system

EMT

World Health Organization

WHO EMT Initiative

- Principles, standards and quality count, even in “emergencies”
- Timely responses nationally first, then with regional and international support as needed
- Coordinated with national systems
- Predictability in response quality, standards and resources
- Self-sufficient
- No individuals or small groups without equipment, medications or means of self-care
- Principled actions as local as possible and as international as necessary
- Adaptable – must adjust to the context

WHO EMT Initiative

Vision: Save lives, preserve health, alleviate suffering.

Mission: To enhance the surge capacity of countries through the promotion of rapid mobilization and efficient coordination of both national and international medical teams and healthcare workforce to reduce loss of life and prevent long term disability because of disasters, outbreaks and other emergencies.

Current situation

- EMTCC in Moldova
  - On ground there are 9 International teams
  - EMTCC is strength by manpower with support from Japanese Government and JICA
  - Minimum data set (MDS) is established and regular collection of data ongoing
  - Established data sharing system with MoH
  - Continuous monitoring of current situation and if needed supporting MoH to implement additional national and international EMT’s regarding current needs and request
  - Was established regular meeting system with all EMT’s on ground

International EMT’s map

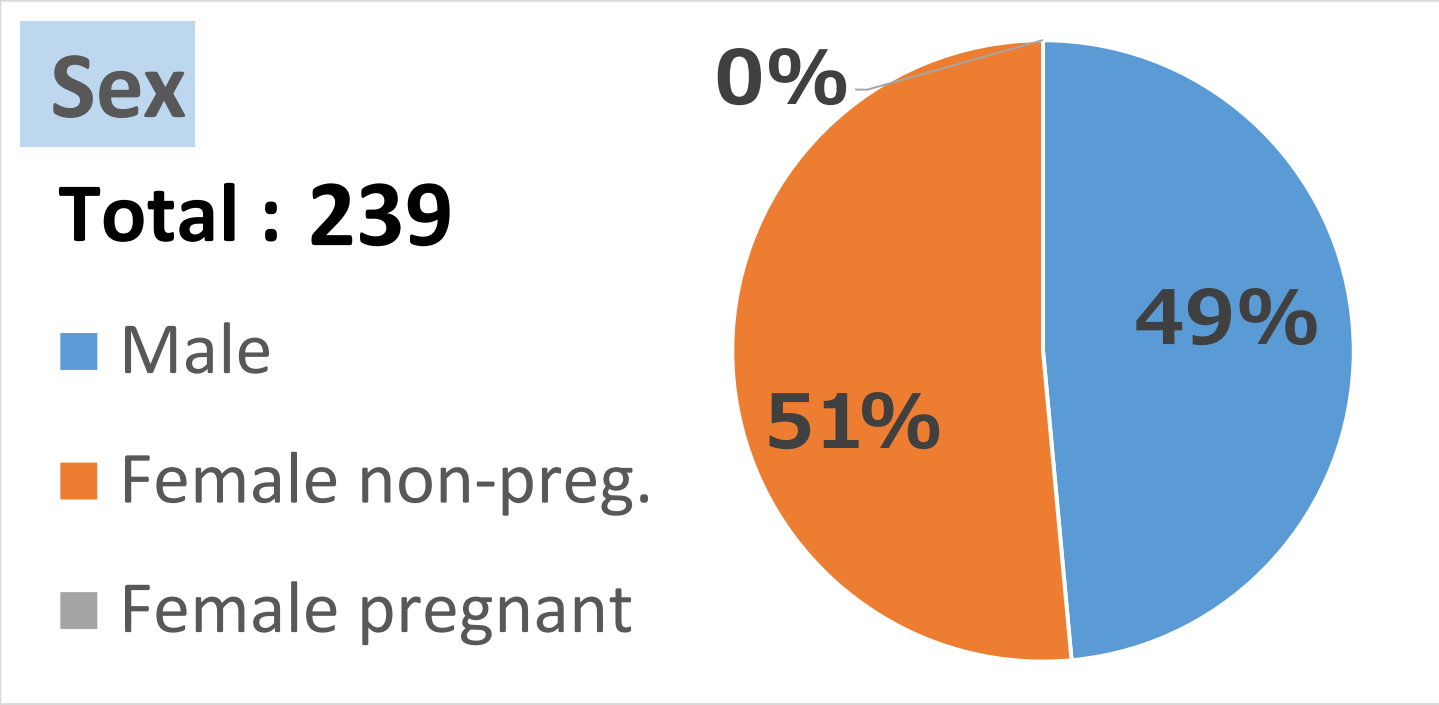
Samaritan's Purse, SAMU EMT(Fundacion SAMU)

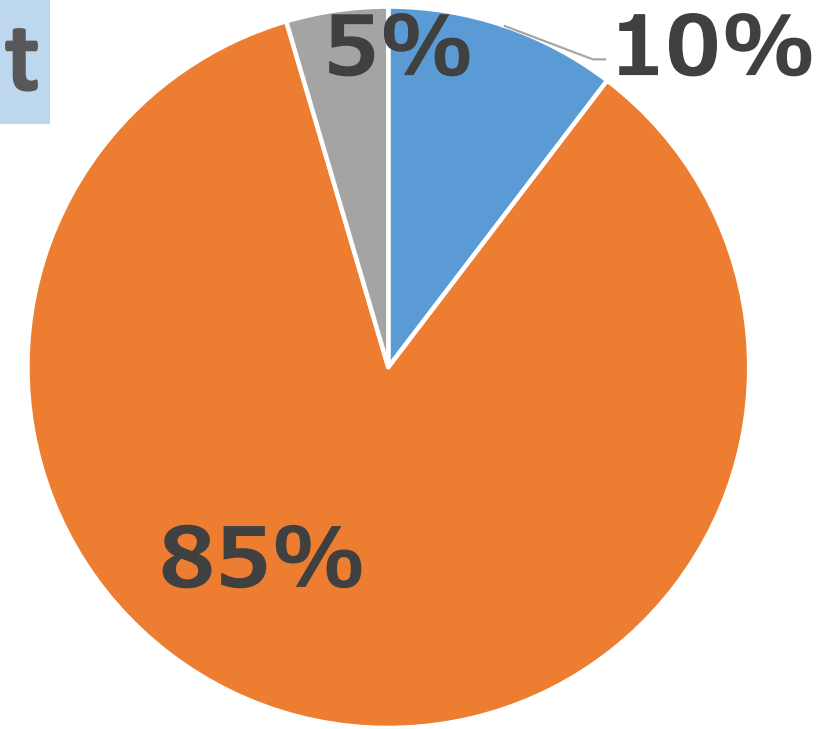
Swiss SCT RMNCH (Swiss Humanitarian Aid)



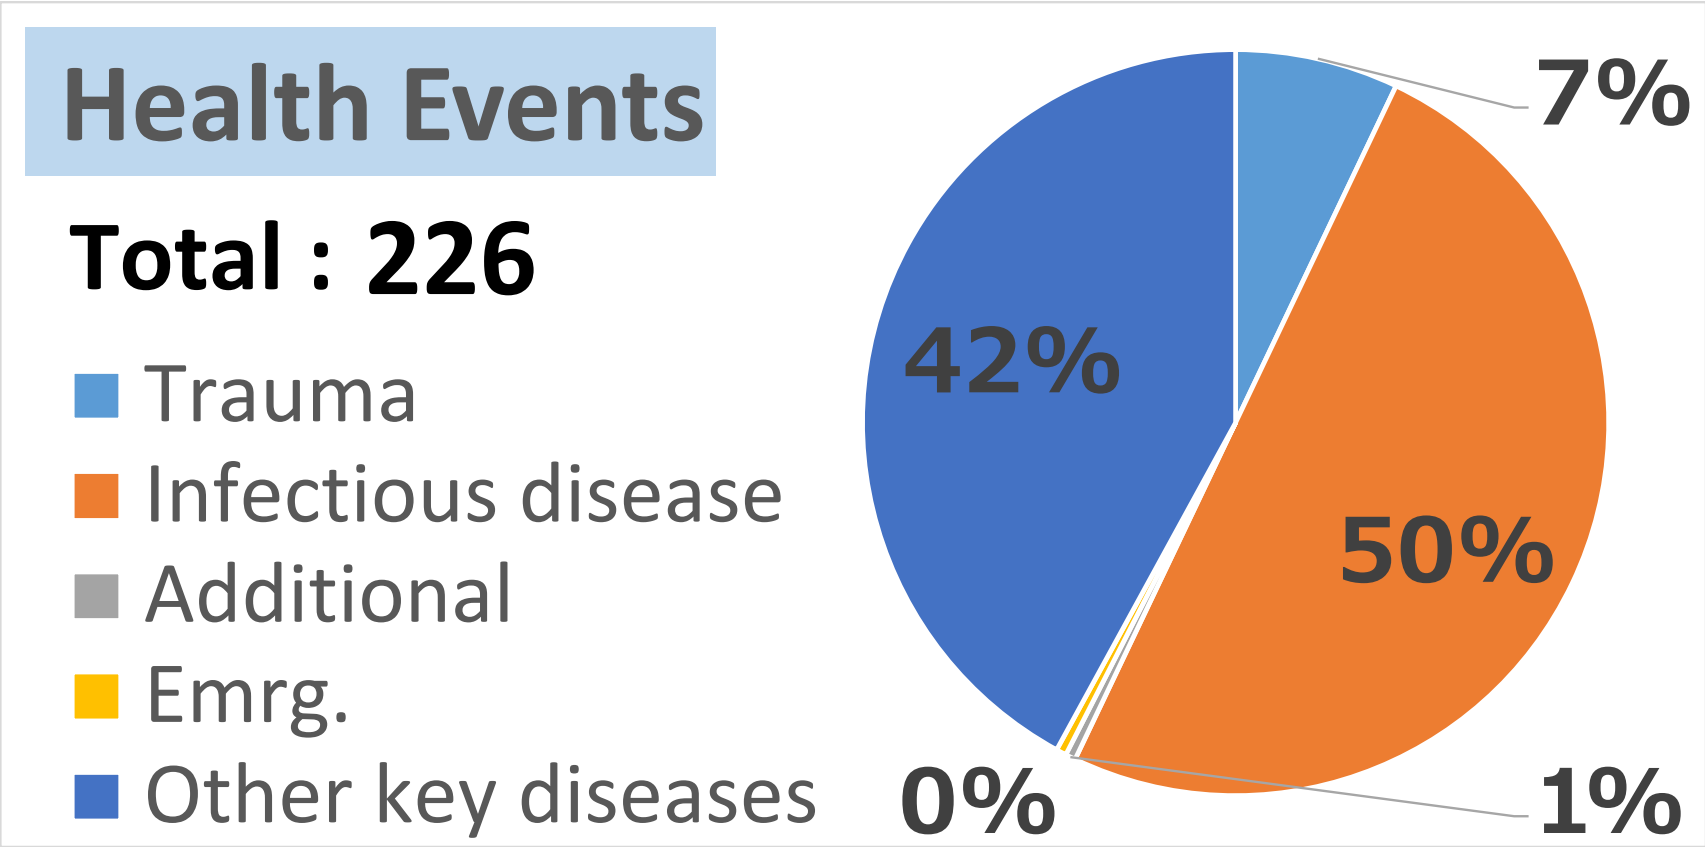
MDS statistics	No	Age Categories		<1 y.o.	1-4 y.o.	5-17 y.o.	18-64 y.o.	65- y.o.	Total
	1	Sex & Age	Male	8	20	56	31	1	116
	2		Female non-preg.	8	13	39	56	7	123
	3		Female pregnant			0	0	0	0

Relation to Event

Total : 241



Classification by the EMT MDS.		
MDS44	Directly	Patient visit with injury or illness directly caused by an emergency event.
MDS45	Indirectly	Patient visit caused or worsened by situational change after an emergency event. e.g.) Environmental exposure
MDS46	Not related	Patient visit not caused by the event. e.g.) NCD



- *Other key diseases include skin disease, and other diagnosis not specified by the MDS such as chronic pain and so on.*

Trauma cases.

No		Health Events	<5 y.o.	>=5 y.o.	Total
4	Trauma	Major head / spine injury	0	0	0
5		Major torso injury	0	0	0
6		Major extremity injury	0	0	0
7		Moderate injury	0	3	3
8		Minor injury	5	8	13

*Until 23rd March 2022.

- *Majorities are minor injuries.*

Number of Infectious diseases.

No		Health Events	<5 y.o.	>=5 y.o.	Total
9	Infectious disease	Acute respiratory infection	31	74	106
10		Acute watery diarrhea	1	6	7
11		Acute bloody diarrhea	0	0	0
12		Acute jaundice syndrome	0	0	0
13		Suspected measles	0	0	0
14		Suspected meningitis	0	0	0
15		Suspected tetanus	0	0	0
16		Acute flaccid paralysis	0	0	0
17		Tuberculous Bronchitis (susp/confirmed)	0	0	0
18		Fever of unknown origin	0	0	0

*Until 23rd March 2022.
