Joint Market Assessment Round 2 – Key Findings

- **Cash is widely accepted (99.4%),** satisfactory acceptance of card modalities are noted, while there is still a need to mainstream voucher (2.23%) and e-voucher (2.51%) acceptance.
- **Increase of item prices** are observed to be above the national average due to impact of the Earthquake.
- **Cash assistance will help hasouholds access the items day need. Certain sectors** should consider in-kind for specific items.
- **Winterisation Support (waterproofing, heating)** is acutely needed by vendors to continue their functions under harsh winter conditions.
- Distributing **national chain market vouchers** hurt vendors' capacity and revenue.
- **In-kind assistance have negative effects on the market,** causing lower demand for distributed items and reselling the unused kits (especially for food and hygiene) by beneficiaries is observed.
- **Market-based programming** is needed to boost vendors' fast recovery.
