UNHCR-IOM FLASH UPDATE #89

UNHCR The UN Refugee Agency | IOM UN MIGRATION

ARREST AND DETENTION | FLOW MONITORING (15 September 2023 – 4 April 2026)

INTRODUCTION

In response to the Ministry of Interior's (MoI) decision of 26 September 2023 to enact an "Illegal Foreigners' Repatriation Plan", UNHCR, the UN Refugee Agency and IOM, the UN Migration Agency, have collated their data on the arrest, detention, and deportation of Proof of Registration (PoR) holders, Afghan Citizen Card (ACC) holders, and undocumented Afghan nationals as well as on the outflows of Afghan nationals at the Torkham, Ghulam Khan, Chaman, Badini and Bahramcha border crossing points, to better understand the protection environment and movements of Afghan nationals returning to Afghanistan from Pakistan.

In 2025, the Government of Pakistan (GoP) issued several directives impacting Afghan nationals. In January, the GoP announced that Afghan nationals should relocate from Islamabad Capital Territory (ICT) and Rawalpindi, or else face deportation. In April, further announcements indicated the implementation of the second phase of the "IFRP", targeting ACC holders, in addition to undocumented Afghans. In July, the GoP issued a Statutory Regulation Order (SRO) directing the repatriation/deportation of PoR card holders following the expiry of PoR card validity on 30 June. The GoP later indicated a deadline of 1 September for PoR holders to leave Pakistan, before the start of the repatriation/deportation process. UNHCR issued a press briefing expressing concern regarding the decision and urging the GoP to exempt Afghans with international protection needs, as well as those with particular circumstances or vulnerabilities, from involuntary return.

KEY FINDINGS AND LIMITATIONS

Prior to 2023, there was no data collected on the arrest and detention of ACC holders or undocumented Afghan nationals. Since January 2023, IOM has started to collect this data. The figures, particularly of undocumented Afghan nationals, should be considered underreported.

- During the reporting period (29 March – 4 April) a total of 2,941 Afghan nationals were arrested and detained, marking a 277% increase compared to the previous week. The reopening of border crossings and end of the Ramadan period likely contributed to the increase in arrests reported during the period.
- Out of all arrests and detentions during the reporting period (29 March – 4 April), ACC holders and undocumented Afghans represented 93% of the total rate of arrest and detentions, and PoR holders represented 7%.
- During the reporting period (29 March – 4 April), 35% of the total reported arrests and detentions took place in Balochistan, 30% in Punjab, 28% in KP, and 5% in ICT.
- Across Pakistan, the top three districts for arrest and detention between 1 January and 4 April March 2026 are Chaghi (Balochistan), Islamabad (ICT), and Peshawar (Khyber Pakhtunkhwa).

KEY FINDINGS

- Cumulatively, from 15 September 2023 to 4 April 2026, 2,117, 218 individuals have returned.
- During the period 29 March – 4 April 2026, UNHCR and IOM estimate 12,739 Afghans returned through the Torkham, Ghulam Khan (located in Khyber Pakhtunkhwa), Chaman, Badini and Bahramcha (located in Balochistan) border crossing points to Afghanistan.
- Between 29 March – 4 April 2026, the number of returns increased by 727% and deportations by 294% — compared to the previous week of 22 – 28 March 2026 (1,540 returns including 775 deportations). During 29 March – 4 April March 2026, a total of 12,739 returns were reported, including 3,053 deportations. The significant increase in returns and deportations is likely due to the reopening of the border crossings with Afghanistan and the end of the Eid holidays.
- For the returns from 29 March – 4 April 2026, most of the returnees were undocumented (72%) followed by PoR holders (19%). Majority of the POR returns were processed by UNHCR through the Voluntary Repatriation Centers (VRCs).
- For the deportees from 29 March – 4 April 2026, most were undocumented (95%) followed by PoR holders (5%).
- Since 1 April 2025, 1,263,185 Afghan nationals returned, of which 173,113 (14%) were deported.
- During the period, fear of arrest remained the main reason for return among undocumented individuals and ACC holders (95%) while strict border entry requirements were the primary driver for PoR holders (61%).
- During the same time period, returnees were most likely to return from Quetta (19%), Haripur (11%) and Attock (9%) in Pakistan and intend to go to Nangarhar (27%), Kabul (20%) and Kunduz (15%) in Afghanistan.
