Service Mapping in Azraq Camp

UNHCR The UN Refugee Agency

10 November 2025

The scope of camp service mapping includes both partners with direct program implementation and physical presence in the camp, as well as those providing financial support to implementing partners without maintaining a regular on-site presence.

Disclaimer: This service mapping infographic has been developed to illustrate partners operating in Azraq camp in Jordan. The number of partners in each sector should not be interpreted as an indicator of the scope of services provided or the level of funding available.

Please note that the accurate 'mapping' is represented by service mapping master excel sheet, not the infographic. However, the infographic will be updated regularly to reflect, as accurately as possible, the actual engagement of partners in the camp.
