CENTRAL ASIA #IBELONG CAMPAIGN ACHIEVEMENTS

UNHCR REPRESENTATION TO CENTRAL ASIA

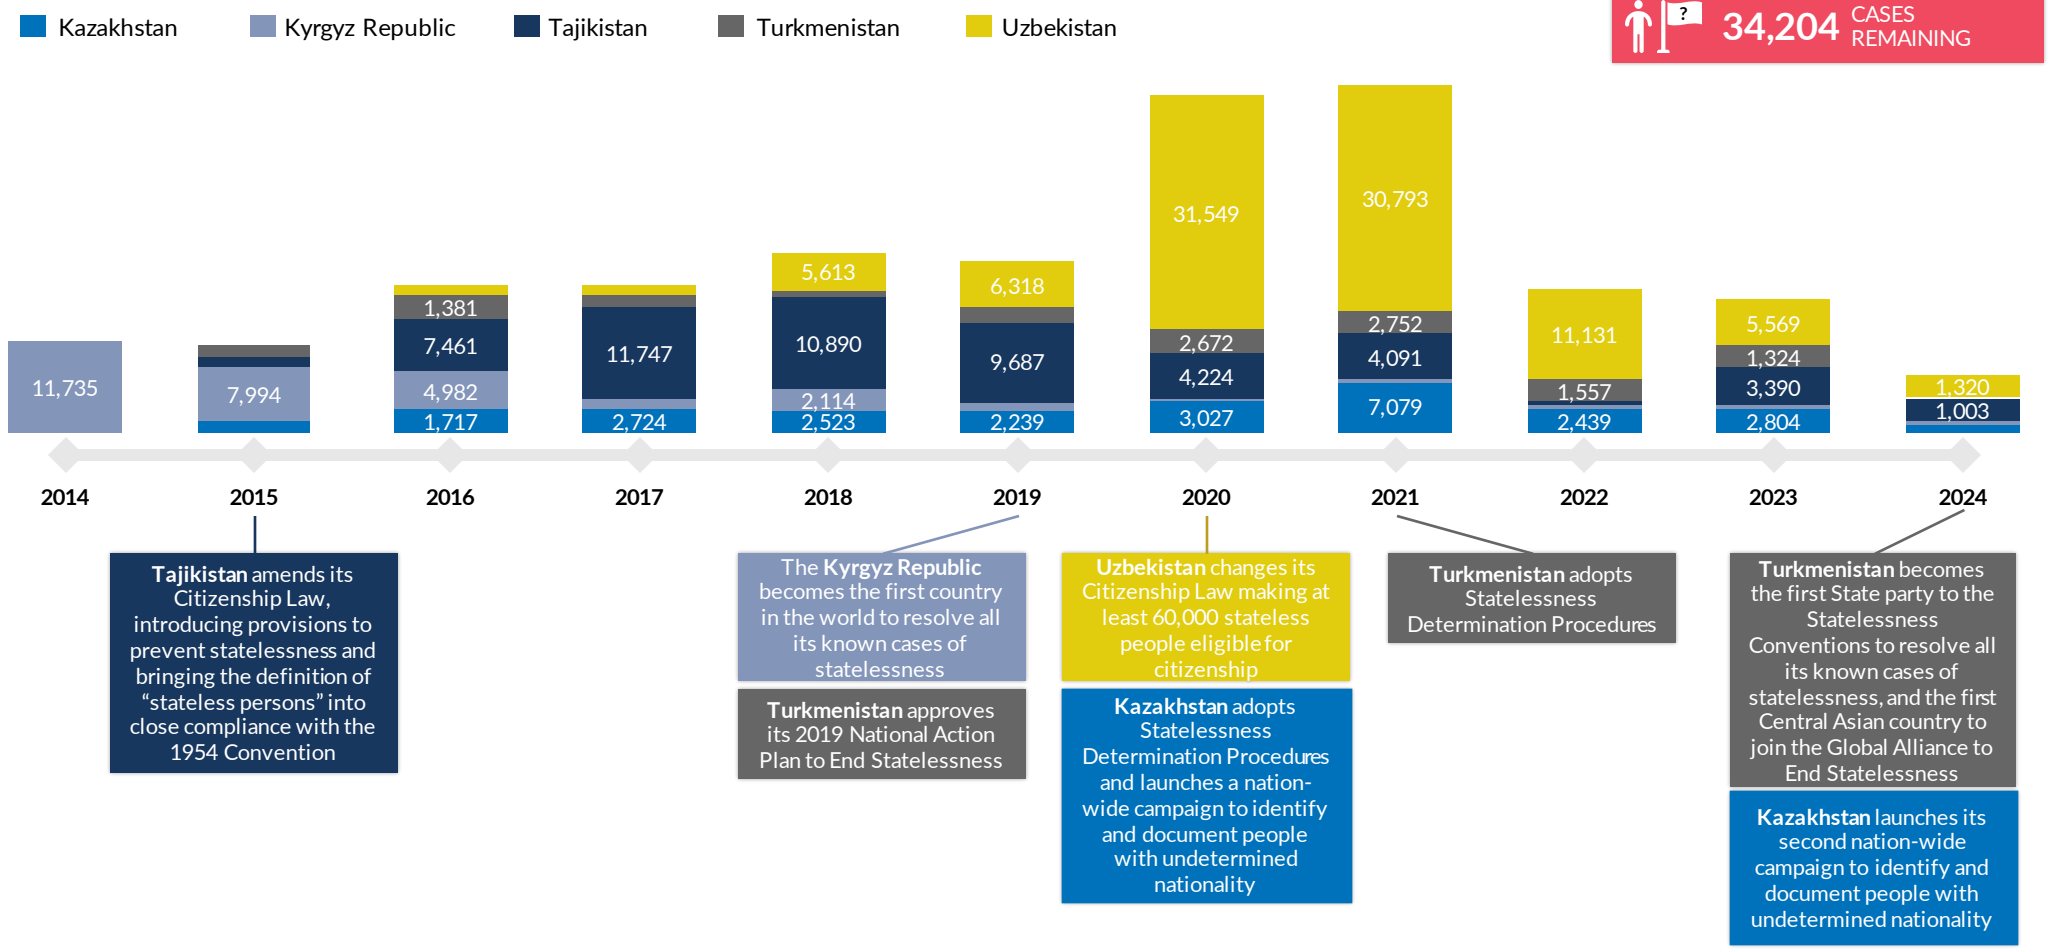
UNHCR The UN Refugee Agency | #IBELONG

Launched in 2014, the global #IBelong Campaign aimed to end statelessness within ten years by identifying and protecting stateless people, resolving existing situations of statelessness, and preventing new cases from emerging. Through legal advocacy and awareness-raising, UNHCR worked with governments and partners around the globe to achieve the campaign goals. Central Asian States have significantly contributed to global efforts to end statelessness, focusing on establishing statelessness determination procedures and significantly reducing the number of stateless people, making the region a model for others. This graphic highlights some of Central Asia's achievements as of November 2024.

Cases resolved by country

218,012 CASES RESOLVED SINCE 2014

34,204 CASES REMAINING



WHAT'S NEXT? The Global Alliance to End Statelessness is a new multistakeholder initiative to advance solutions through a collective approach, centering on the experience of those who are stateless and formerly stateless. The Global Alliance will serve as a platform to increase advocacy efforts, catalyse political commitments, and support implementation of solutions to end statelessness
