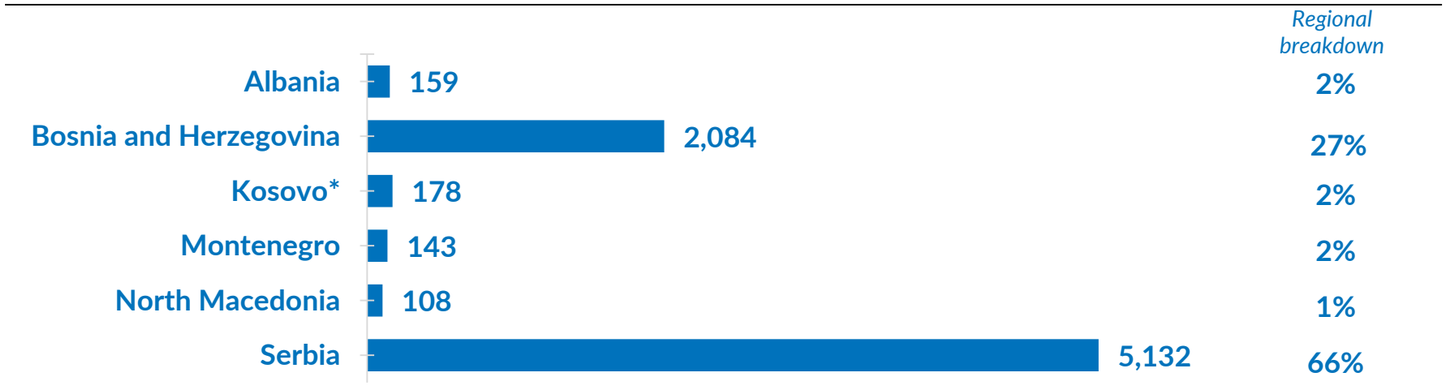
Western Balkans - *Refugees, asylum-seekers and other people in mixed movements*

as of end April 2022

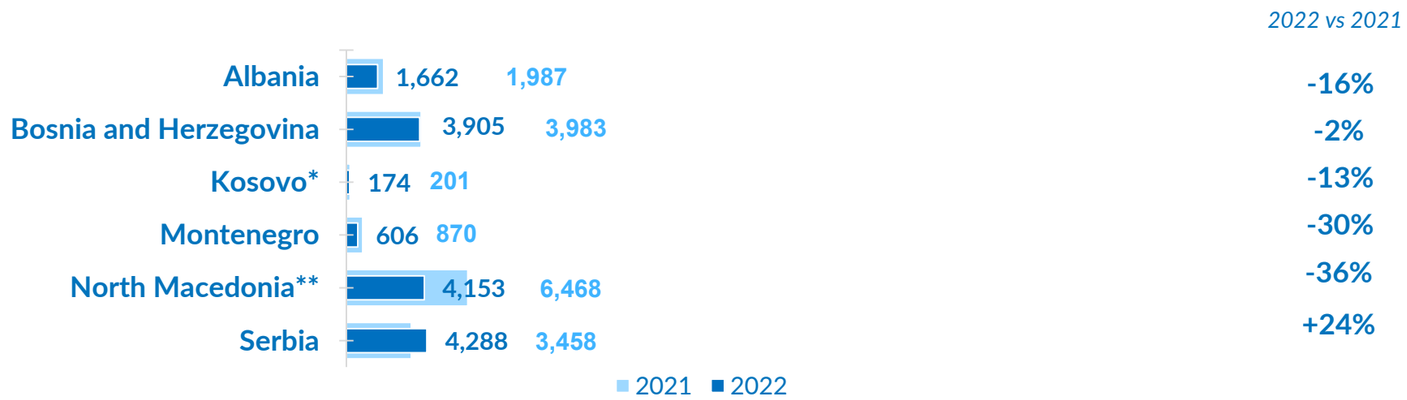
Key figures at Regional level

Asylum-seekers, refugees and other mixed movements at the end of reporting period in each country

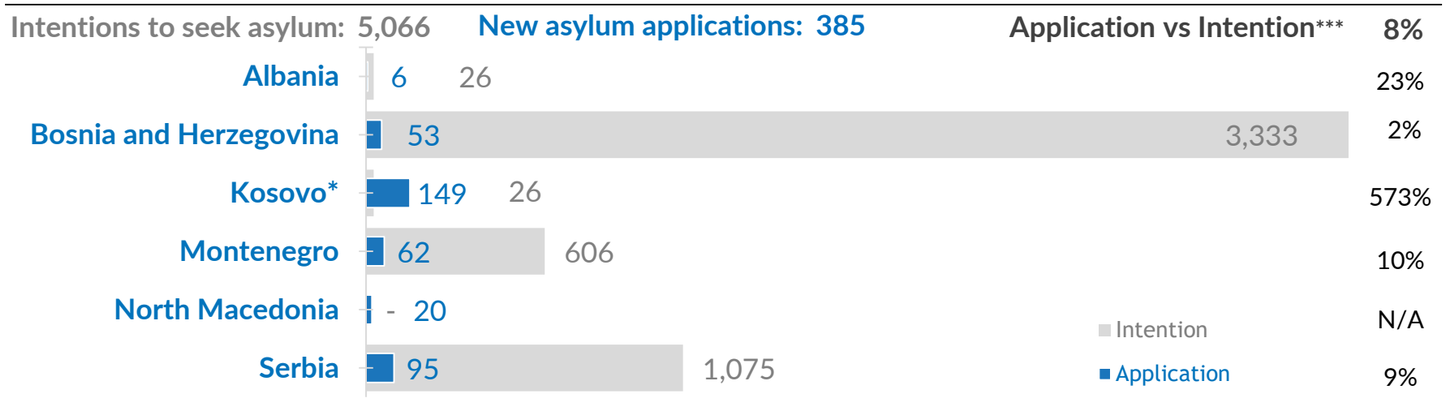
7,804



New arrivals of mixed movements (2022 vs 2021) at the same period

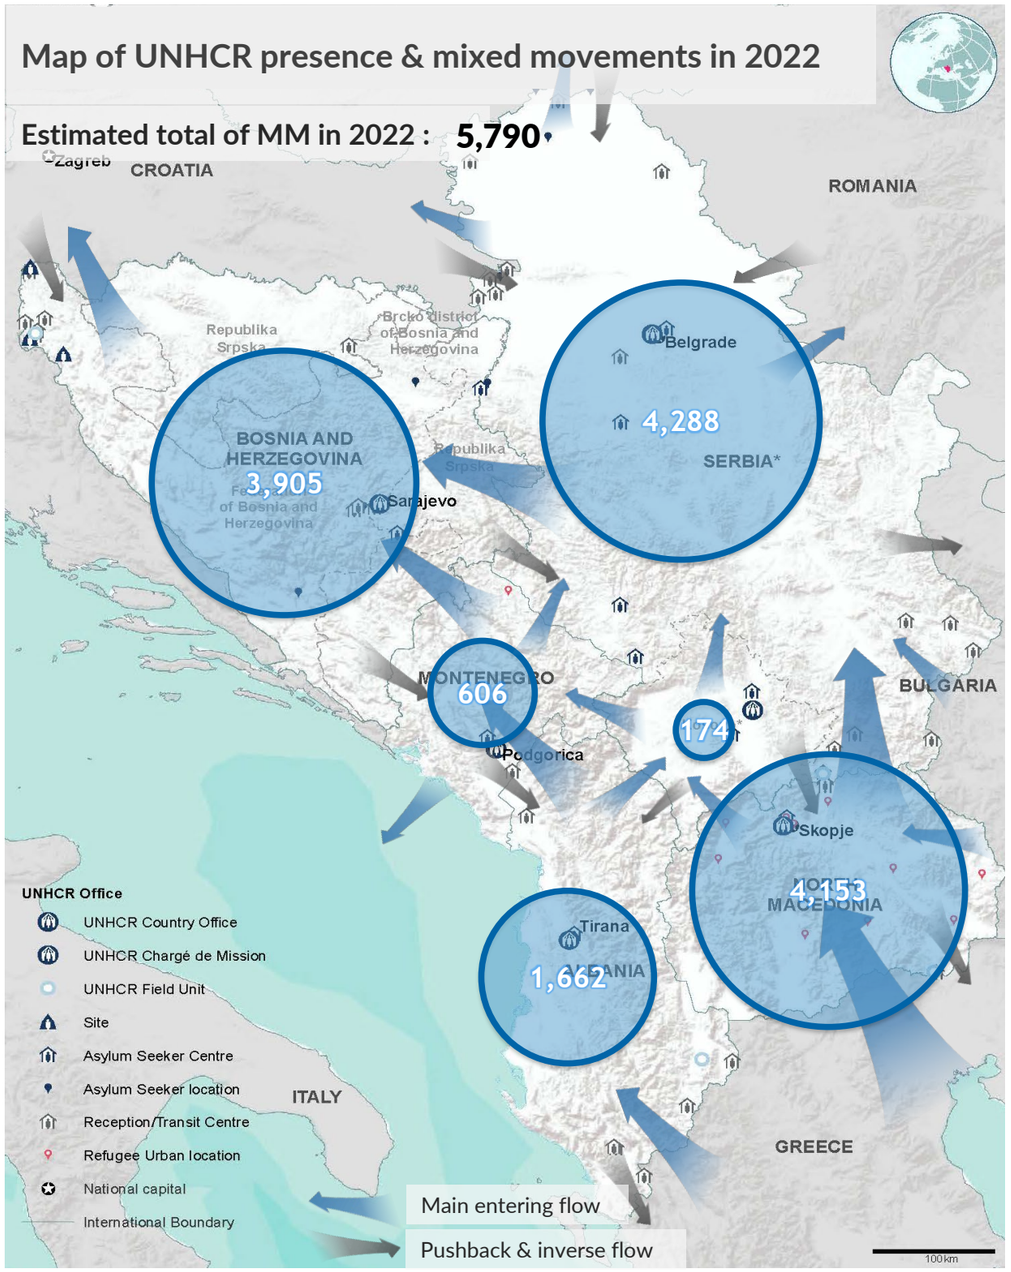


Asylum statistics in the S.E.E. in 2022



*** 4 countries are having an asylum policy with a procedure including Intention before the application to asylum (Albania, Bosnia and Herzegovina, Montenegro, and Serbia).

Map of UNHCR presence & mixed movements in 2022

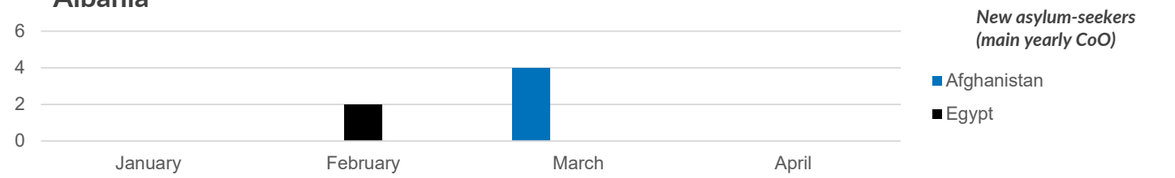


This dashboard contains data and information collected by the UNHCR in the South Eastern Europe (S.E.E.) based on several databases for the moment reporting on Western Balkan countries. Data sources also include Public Information focal points at UNHCR country offices in the region. Relevant information was also collected through Border Protection Monitoring (**BPM**), as well as from Asylum monthly statistics, as provided by official sources in each country. The information presented in the dashboard can change, in line with the latest updates made available by the authorities in charge, as the official figures are released at the end of each month. Mixed Movement (**MM**) are considered as "new arrivals". Arrivals in the region are not registered by UNHCR. Partners gathering information for the BPM are receiving information on the MM through direct contact/communication. UNHCR aims to collect, at regional level, accurate information, from agreed and official sources. Asylum procedures in the region differ. In order to compare them, if a country is not applying an intention procedure before, the applications are considered as intentions as well.

**** Security Council Resolution 1244 (1999) / ** for North Macedonia, data on arrivals are not official government data, they are UNHCR estimation based on different sources and do not imply official endorsement by UNHCR.***

Asylum-seekers, Refugees and other mixed movements present at end of period - Demographic and nationality of origins - 2022

Albania



Serbia
