Hassansham U3 - December 2024

CAMP BACKGROUND INFORMATION

As one of the East Mosul Camps (EMCs), Hassansham U3 camp opened on 3 November 2016, in response to the humanitarian crisis that originated from the military offensive on Mosul City. The camp primarily hosts Internally Displaced Persons (IDPs) from Ninewa Governorate, including those from the Mosul plains. The population of Hassansham U3 includes Female Headed Households and former detainees (who were arrested by security authorities of the KRG, including those who were convicted by Kurdish courts of crimes as a result of affiliation or participation with Da'esh). In addition, families with tribal or security issues, as well as families from the villages surrounding the EMCs who have not received security approval for their return, are accommodated in Hassansham U3. IDPs in Hassansham U3 live in dire conditions, facing severe restrictions on their freedom of movement due to their sensitive profiles. Access to basic services, including education, health, and WASH are inadequate, posing significant protection risks and public health challenges. In Hassansham U3, UNHCR provides IDPs with civil documentation support through its partner INTERSOS.

Iraqi/ Arab-Kurd
Host community profile

KEY MESSAGES

- Advocate with the Government of Iraq (GoI) and the Kurdistan Regional Government (KRG) to ensure that the provision of services, including quality education and in-kind (food, fuel, generator maintenance, kerosene) support, is maintained until all residents have achieved a durable solution.
- The Federal Ministry of Interior (MoI) and KRG MoI should facilitate access to civil documentation (including through the newly established Unified National ID office in Erbil) facilitating return to their areas of origin or relocation to other locations of their choice in Iraq.
- About the consolidation of the EMCs: i) living conditions and access to services should remain at least at current levels, ii) camp consolidation should not further restrict the already limited freedom of movement in the camps and iii) the IDP community should be consulted in this process, and their intentions and preferences should support and influence the decision-making process.
- For former detainees, advocate with KRG MoI that further former detainees should not be admitted in the camps, and instead, they should have access to their area of origin, or another location in Iraq, without risk of double jeopardy.

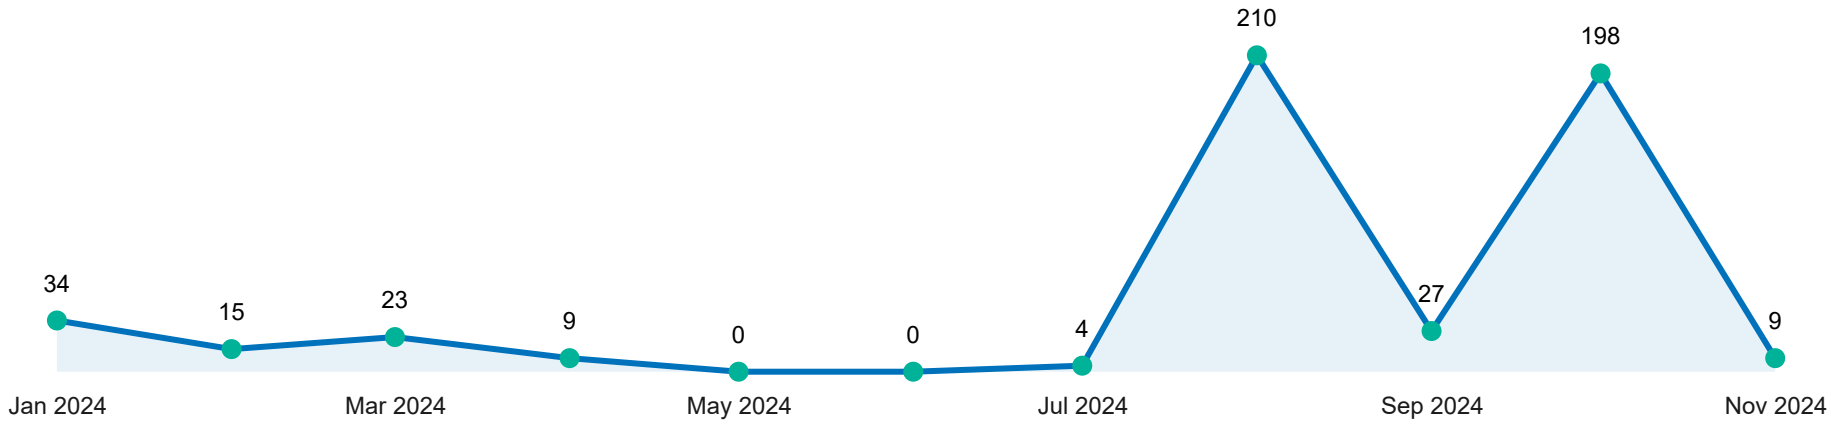
Hassansham U3 - December 2024

POPULATION DEPARTURE TREND (2024) - Number of families

In 2024, a total of 529 families (2,349 individuals) departed the camp, primarily through MoMD organized movements. This represents approximately 45% of the population registered as living in the camp as of January 2024. IDPs primarily departed to Ninewa (Mosul, Hamdaniyeh, Tel Afar), Salah Al-Din (Beygee) and Kirkuk.



SHELTER

UNHCR Tent
Shelter type

1,024
Occupied plots

184
Shelters with over 7 residents

EDUCATION

0
# of kindergarten in camp

2
# of primary school in camp

1
# of secondary school in camp

HEALTH

2
No. of PHC in the camp

Al Hamdaneya Hospital (23 km)
