Important notice for refugee parents and legal guardians of school-age children

As of 1 March 2025, (art. 17 Temporary Protection Directive)

All beneficiaries of temporary protection who have school-age children must record their child's enrollment status, whether the child is enrolled in a Moldovan school or continues to study online in a Ukrainian school.

This procedure will help the Ministry of Education and Research to ensure that all school-age children are enrolled in formal education (either in person or online).

If your child is enrolled in a Moldovan school:

Step 1: The school will distribute one form per child to all parents or legal guardians. The form will be available in Romanian, Russian, and Ukrainian, and will contain basic information regarding the child's enrollment status.

Step 2: You must complete and sign the form (one form per child) and submit it to the school administration.

Step 3: No further action is required unless the school requests additional information.

If the child is enrolled in a Moldovan school, no supporting documents are needed.

Recording forms (Romanian, Russian, Ukrainian) and the list of Education Directorates are available on the Ministry's website in the section for Ukrainian children education: https://mec.gov.md/
