Map of verified IDP sites in Laas Caanood - April 2024

Assessment overview

CCCM cluster partners conducted in April 2024, an IDP site verification exercise in Laas Canood. The exercise was led by local authorities and ACTED . 10 IDP sites were identified hosting 2,086 households (13,375 individuals).

Compared to the last site verification conducted in May 2023, the verification team recorded a decrease of 8,523 households (50,788 individuals). The number of sites reduced by 2.

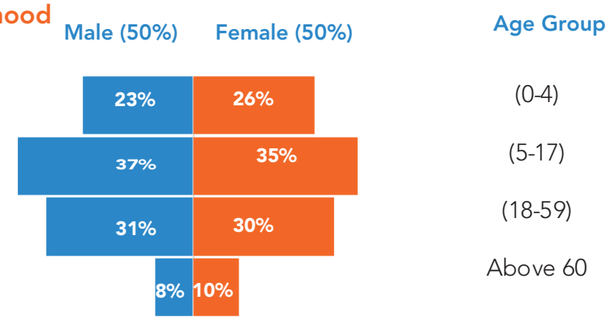
The site verification exercise was carried out according to the SOP that can be accessed here *https://bit.ly/3VTwX4S*

Demographic data of IDPs living in Laas Caanood

10 Verified IDP Sites

hosting **2,086** Households

hosting **13,375** Individuals



Eviction Risk Mapping

IDP sites were assessed to dertermine risk of eviction. Several factors were put into consider-ation such as IDP site tenure, type of agreements in place and whether an eviction notice has been issued recently.

0% of IDP sites have been classified as having extreme or high risk of eviction

100% of sites are communal/permanet ownership

100% of sites have no agreements in place

0% of sites have been issued with eviction notice within the last 3 months

Flood Risk Mapping

IDP sites were assessed based on their risk of flooding.

4 IDP sites (40%) have been classified as extreme (always floods) and high (floods frequently)
