Melodies of Hope

During August 2024, 16 refugee children participated in learning music and playing musical instruments as part of the "Extension of SOS Autism: Medical, Educational, and Social Services for Ukrainian Refugees II" initiative. Organized by SOS Autism and supported by the Ministry of Foreign Affairs of the Czech Republic through the Embassy of the Czech Republic in the Republic of Moldova, the program offered classes in guitar, piano, drums, and ukulele, led by the talented teacher Serhio Yepifanov. Through these sessions, the children had the opportunity to develop their musical abilities, explore their potential, and celebrate their successes. The initiative has been instrumental in fostering creativity and resilience among young participants, providing a platform to showcase their talents.

Pidtrimka Mobile Teams: A Journey of Support

IIn July 2024, refugee children participated in the final events organized by the PIDTRIMKA mobile team, concluding an initiative that began in 2022. Coordinated by the National Center for Prevention of Child Abuse (CNPAC) and supported by Plan International, the PIDTRIMKA mobile teams were among the first responders, providing psychosocial support to refugee children and their families across Moldova's North, South, and Central regions.

During the initiative, the teams assisted over 17,000 individuals, including more than 11,000 children, addressing the challenges of displacement and trauma. The final event celebrated the efforts of the team members and their contribution to improving the well-being of refugees.

Supporting Refugees with Disabilities

During Q2 and Q3 2024, Ukrainian refugees with disabilities were supported through the "Inclusive Society through Accessible Services" initiative. Implemented by the Association "MOTIVATION" in Moldova with support from People in Need, the project aimed to promote social and economic inclusion for individuals with disabilities affected by the war in Ukraine. The initiative addressed key needs by providing free psychological and legal consultations and referrals to partner organizations for specialized assistance.

Adapted transportation services enabled refugees to access essential services, including medical consultations, state institutions, and accommodation facilities. The initiative also supported the Temporary Center for Refugees with Disabilities in Grebleşti, facilitating transportation for individuals with physical and visual impairments to essential services. By addressing barriers to inclusion, the project contributed to improving the quality of life for people with disabilities in both refugee and host communities in Moldova. Supporting Refugees in Ungheni

During September 2024, refugees from Ukraine in Ungheni municipality received support through assistance provided by the Charity Centre for Refugees. Implemented in partnership with Help – Hilfe zur Selbsthilfe and funded by Aktion Deutschland Hilft (Germany), the initiative focused on addressing basic needs and supporting inclusion.

The project provided food and hygiene vouchers to 30 displaced families, ensuring access to essential supplies. Additionally, with support from UNHCR, residents of the community center received new clothing, and 22 Ukrainian children attending local schools were equipped with backpacks and school supplies to facilitate their education and integration into the community. Through this initiative, the Charity Centre for Refugees continues its efforts to enhance the well-being and inclusion of displaced families in Moldova.

Supporting Refugees with Visual Impairments

From January to October 2024, the "Ukraine War: OPD-Led Disability Inclusive Response and Recovery (Phase 2)" initiative provided targeted support to individuals with visual impairments, including Ukrainian refugees. Implemented by the LOW VISION Centre in collaboration with the Alliance of Organizations for People with Disabilities in Moldova (AOPD), and supported by the European Disability Forum (EDF) with funding from the Christian Blind Mission Foundation (CBM), the project aimed to enhance access to specialized care and resources for people with visual disabilities.

The initiative facilitated ophthalmologic consultations for 85 individuals with severe visual impairments, enabling acces to diagnosis and treatment. In addition, It also distributed assistive devices to 57 participants.
