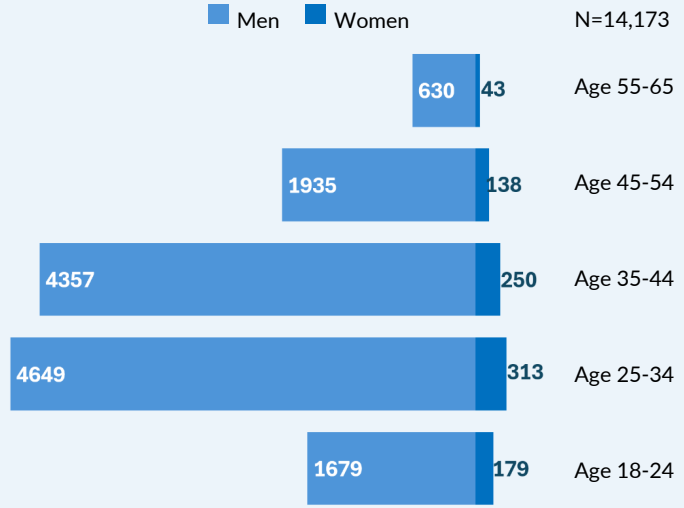
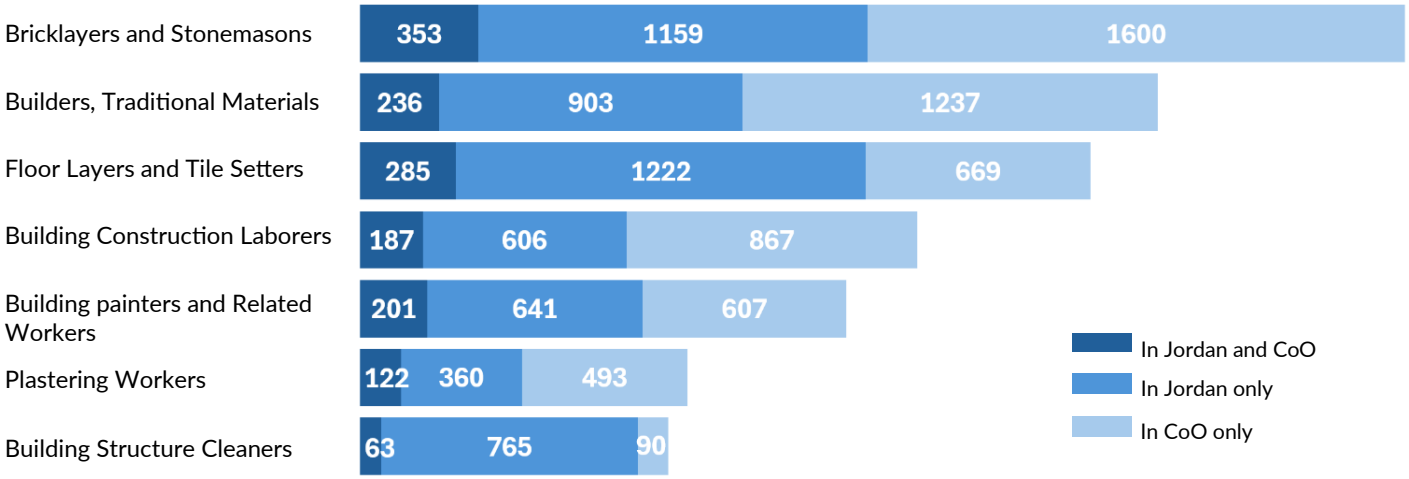
Population, age and gender of those with work experience and training



Construction experience[3], by top job categories



41,613 Additional individuals with self-claimed experience in construction/renovation willing to work in the sector

1,358 received education related to construction

752 refugees were trained in Jordan

Of those with work experience and training in the construction sector:

90% are willing to commute to work

66% are willing to relocate for work

43% are willing to change governates for job opportunities

[1] *All presented data is restricted to individuals reporting being willing to work, the sum of individuals with work experience and those with training (education) experience exceeds this total because some reported having experience in both categories;*

[2] *Individuals reporting working during the 7 days prior to the interview (between Jan 2023 to Feb 2024);*

[3] *Reported experience in Jordan refers to current employment.*

Note: This is based on a 88% response rate of Syrian refugees in contact with the UNHCR in the last 18 months. 23,500 refugees who have returned to Syria have been removed from the dataset.
