MALI

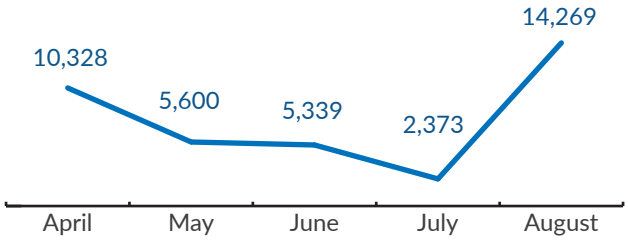
Displacement from Burkina Faso

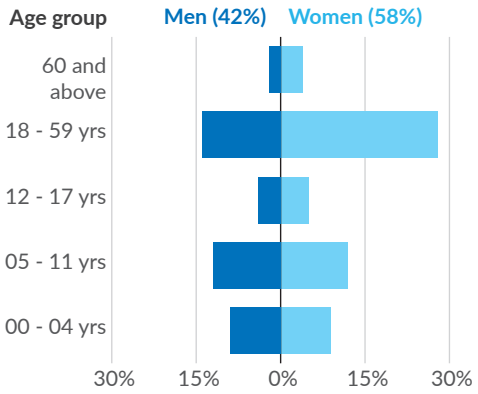
as of 09 Sep 2025

Context

From April to September 2025, UNHCR Sub-office of Mopti witnessed a sharp increase in the number of refugees from Burkina Faso. These people fled following attacks on the outskirts of their localities. Some 38,000 individuals arrived between April and August 2025. This recent influx has nearly doubled the number of Burkinabe refugees in Koro. UNHCR is working alongside the authorities and the humanitarian community to mobilize a joint and coordinated emergency response which will require additional resources to meet the urgent needs of the refugees and reduce the pressure on generous host communities and fragile public services.

38K New arrivals since April 2025





87K Total Burkinabe refugees in Koro *from January 2024 - Aug 2025*

62K Burkinabe refugees registered
