Stories behind the numbers

Right to Protection Poland

The "Path to Economic Stability in Poland" is a dedicated initiative designed to **empower Ukrainian entrepreneurs** as they rebuild their lives. Funded by the European Bank for Reconstruction and Development and implemented by Right to Protection, the project helps refugees from Ukraine set up and develop their businesses in Poland, recognizing entrepreneurship as a key pathway to long-term **integration and self-reliance.**

Adapting to a new life means more than finding a place to live - it's about regaining independence, rebuilding confidence, and creating a **future filled with opportunity.**

Polish Migration Forum Foundation

The "I've Got the Power! Strengthening Resilience and Supporting Integration of Children and Youth Affected by the War in Ukraine" project provides **specialized psychological support** for children and youth from Ukraine. The activities focus on building their resilience, promoting emotional well-being, and supporting their successful integration into schools.

The project also **strengthens the capacity of child psychologists** in Warsaw's public institutions by equipping them with the knowledge and tools needed to address the unique challenges faced by children affected by war and persecution.
