MALI

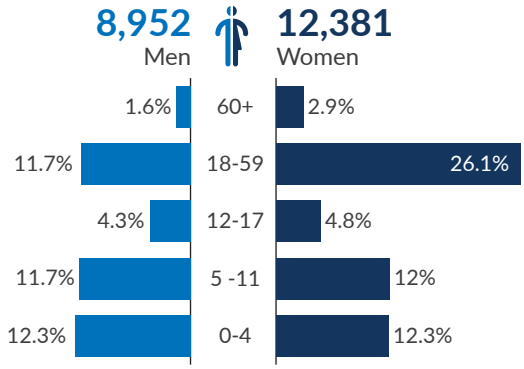
Emergency response

as of 24 June 2024

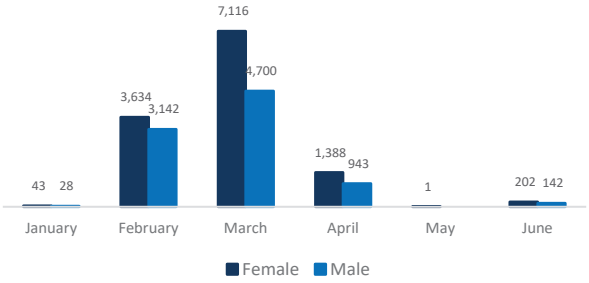
Context

Since the end of October 2023, there has been a massive influx of refugees and asylum seekers from Burkina Faso, mainly from the Sahel region. They are fleeing because of fear, insecurity and the effects of attacks and incursions by armed terrorist groups, as well as military operations, including airstrikes by national forces (FDS) on the positions of armed groups. As of April 10, 2024, more than 94,000 Burkinabe refugees (53,800 registered and 40,200 unregistered) live in Mali. Of these, 21,000 have been registered since the beginning of the year.

Age and sex



Evolution of registration



Key figures

21,339 registered **individuals** since January 2024

7,702 registered **households** since January 2024

82% of the registered are women and chilen

Registered individuals by cercle
