OVERVIEW OF WINTERISATION TASK FORCE ACTIVITIES

Inter-Agency Coordination Türkiye

- Introduction to the key objectives and activities of the Winterisation Task Force
- Discussion on the importance of preparedness and coordination for the upcoming winter season
- Timeline and expected deliverables

WINTERISATION OBJECTIVES AND GOALS

Inter-Agency Coordination Türkiye

Objective:

- Coordinate partner efforts to support the Turkish government in addressing urgent needs of vulnerable refugees and host communities during winter.
- Meeting essential winter requirements and providing social protection against life-threatening weather conditions and reducing economic vulnerability of vulnerable populations.

Modality and Frequency of Meetings:

- Monthly meetings during the winter season with options for ad-hoc meetings.
- Virtual participation.
- Participation in other Inter-Agency Working Group meetings as necessary to promote relevant issues.

WINTERISATION OBJECTIVES AND GOALS

Inter-Agency Coordination Türkiye

Winterisation Task Force in Türkiye:

- **Structure:** Winterisation Task Force operates as a national technical working group based in Gaziantep.
- **Primary Goal:** Address the needs of vulnerable families through cash and voucher-based assistance.
- **Focus Areas:** Enhancing efficiency, harmonizing monitoring and evaluation frameworks, and defining transfer values in line with market trends.
- **Operational Role:** Platform for information sharing, harmonizing approaches, joint advocacy, establishing minimum standards, and improving targeting for vulnerable households.
- **Harmonization Efforts:** Coordinate and leverage existing cash and voucher-based programming by government entities, UN agencies.
- **Information Sharing:** All actors planning or implementing cash-based Winterisation interventions in Türkiye strongly encouraged to attend and regularly share information.

WINTERISATION OBJECTIVES AND GOALS

Inter-Agency Coordination Türkiye

Targeting:

- **Target Group:** The target group includes the most vulnerable Syrians under temporary protection, international protection applicants, status holders, and vulnerable members of the host community in both urban and rural areas, including populations in temporary settlements.
- **Nation-wide Activities:** Winterisation task force activities have a nation-wide scope, with a top priority focus on earthquake-impacted southeastern provinces.
- **Refugees/Migrants Inclusion:** Partners aim to include a minimum of 50% refugees/migrants in the total caseload.
- **Prioritization:** Beneficiaries not already receiving support through the Social Safety Net (SSN) are prioritized.
- **Vulnerability Assessment:** Assessment of specific vulnerabilities is conducted for SSN recipients included in the winter response.
- **Core Criteria for Assistance**: Core criteria for the 2024-2025 winter assistance include shelter and living conditions with a focus on winter-specific vulnerabilities, as well as other household-level indicators related to protection, health, socio-economic factors, dependency ratio, and female-headed households.
- **Priority Levels:** Partners set priority levels for different beneficiary categories based on winter needs and vulnerabilities, with Priority 1 for those with high winter needs and complex vulnerabilities who don't receive continuous assistance throughout the year, and Priority 2 for SSN recipients with high winter needs and complex vulnerabilities.
- **Engagement with Authorities:** Partners are advised to engage with provincial and district-level authorities, including Provincial Directorate of Migration Management (PDMM), Disaster and Emergency Management Authority (AFAD), governorates, and municipalities for coordinated winter assistance to both host communities and refugees.

WINTERISATION OBJECTIVES AND GOALS

Inter-Agency Coordination Türkiye

Geographical Coverage:

- **Priority Provinces:** Provinces with severe winter conditions and earthquake impact are prioritized for winter assistance.
- **Bilateral Coordination:** Multiple partners operating in the same district coordinate bilaterally to avoid duplications and enhance efficiency.
- **Harmonization in Same Districts:** In cases where two or more partners operate in the same district, they harmonize the modality type and transfer value to prevent conflicts within the community.
- **Beneficiary Overlap Verification:** Organizations in the same or neighboring provinces/districts are encouraged to verify beneficiary overlaps.
- **Steps for Verification:** Steps include sending beneficiary information bilaterally, comparing data, verifying overlaps upon request, and sharing requests for further coordination.
- **Data Sharing Agreement:** Consider establishing data sharing agreements in accordance with each partner's data sharing policy to facilitate cooperation and coordination.

ESMAT

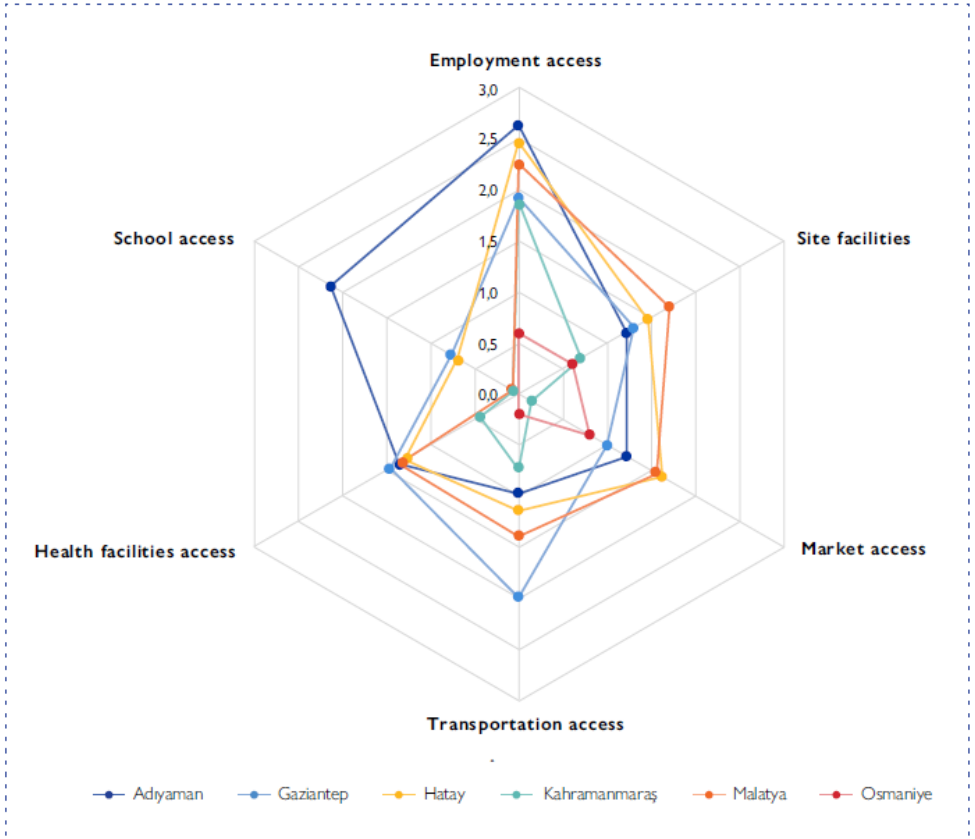
TÜRKİYE – POST-EQ FORMAL SITES ASSESSMENT

ROUND 2 (MAY 2024)

- The second round of the formal sites assessment covered 351 sites across Hatay, Malatya, Adıyaman, Kahramanmaraş, Gaziantep, and Osmaniye.
- Among the 54 sites characterized by high severity, 50 percent are in Hatay, followed by 24 per cent in Malatya, 22 per cent in Adıyaman, and two per cent in Gaziantep and Kahramanmaraş each.

High Severity	Medium Severity	Low Severity
15%	37%	48%
Formal sites hosting (54)	Formal sites hosting (129)	Formal sites hosting (168)
8% of individuals (31,116)	32% of individuals (119,963)	60% of individuals (225,783)

- Employment access stands out as the most significant challenge, particularly affecting the majority of sites across all provinces



TÜRKİYE – POST-EQ FORMAL SITES ASSESSMENT

ROUND 2 (MAY 2024)

Inter-Agency Coordination Türkiye

Access to Basic Food Items

62 per cent of the sites reported that there were no shops to access such items within the site, and three per cent considered the existing shops insufficient.
At provincial level, Hatay (78%) and Malatya (73%) had the highest proportions of sites without a market. However, the majority of the sites (95%) indicated that a market was available within a 30-minute walking distance from the site.
