SECTOR ACHIEVEMENTS

In the third quarter of 2020, Basic Needs sector partners continued to provide extensive basic needs assistance to the most vulnerable households by reallocating resources and raising new funding. Although loosening of lack down had positive implications, access of households to livelihood opportunities remained limited. Consequently, vulnerable households remained in need of assistance to access cash to pay rents, bills, access to food, shelter, hygiene & sanitary items. In parallel to meeting the most pressing needs, sector discussed how to better identify and access newly emerging vulnerable groups through basic needs programming.

Following the rapid adaptation of activities in the previous quarter, increasing number of sector partners provided cash and in-kind support to address the most pressing needs of refugees. Sector surpassed several annual targets by the end of the third quarter of the year resulting from prioritisation of basic needs assistance. Partners cumulatively reached to over 1,877,906 individuals nation-wide through monthly and one-time cash-based assistance. The Emergency Social Safety Net (ESSN) programme continued its support to households in meeting their daily needs through multi-purpose monthly cash assistance and reached 1.77 million individuals. Complementary cash-based assistance reached to over 84 thousand individuals in the third quarter.

Sector marked a drastic increase in provision of gender-appropriate hygiene, dignity and sanitary items, reaching to over 1.1 million individuals by the end of third quarter. Through this modality, partners provided more assistance in the third quarter in comparison to first two quarters combined. Distributions were complemented with hygiene awareness sessions. Food assistance was continued in TACs and in urban context, partners reaching nearly 180 thousand individuals. Shelter activities continued reaching to over 10 thousand individuals in the third quarter; programs continued to support communities through upgrading buildings and enhancing public spaces.
