## SECTOR ACHIEVEMENTS

In the second quarter of 2021, Basic Needs sector partners cumulatively reached 2.2 million refugees through cash-based interventions, shelter assistance, NFI distributions and food assistance. The ongoing pandemic and the related measures taken against the spread of the virus continued to negatively influence beneficiaries' access to livelihood opportunities. Due to the increasing living costs, salience of basic needs assistance provided to vulnerable households including cash, food and hygiene and sanitary items continued. However, although the progress achieved concerning food assistance surpassed the mid-year expectations, the level of progress in terms of cash-based assistance and provision of hygiene kits and core relief items was markedly less than the mid-year targets.

Partners of the Basic Needs sector continued with related activities to answer to these growing needs and the necessary Basic Needs assistance reached targeted beneficiaries without any specific interruption. Basic Needs sector was able to reach nearly 1.9 million refugees country-wide through monthly and one-time cashed-based assistance. The Emergency Social Safety Net (ESSN) programme continued its support to refugees in meeting their daily needs though multi-purpose and monthly cash assistance and reached 1.85 million individuals. In the second quarter of the year, 50 thousand individuals received one-time complementary cash assistance, demonstrating slow progress as the achievement in this respect as of the second quarter of 2021 was considerably behind the mid-year target.

Basic Needs sector partners provided NFI items including gender-appropriate hygiene, dignity and sanitary items to over 250,000 individuals, reaching almost 50% more beneficiaries in the second quarter of the year compared to the previous quarter. In addition, food assistance continued to be provided to beneficiaries and partners reached 94,877 individuals in this respect. Shelter activities of partners reached a total of 4,667 individuals during the first half of 2021, showing slow progress with an increase of slightly over 8% from the first quarter to the second quarter
