SUDAN SITUATION

Sudanese Refugees and Asylum-Seekers in Libya

July 2025

Overview

It is estimated that over 323,000 Sudanese refugees have arrived in Libya since April 2023.This includes 57,313 individuals who were registered post-conflict, bringing the total number of Sudanese registered by UNHCR at its registration centre in Tripoli to 77,256

Authorities in Alkufra reported issuing 164,500 health certificates as of March 2025 with approximately 245,000 Sudanese arriving through Alkufra alone.

Due to the irregular nature of entry, the ad hoc data shared by authorities, and the vast remote land border with Chad, Egypt, and Sudan, combined with movements towards cities along the coast, it remains challenging to provide an accurate number of Sudanese refugees. In 2025, 3,642 people were deported since January 2025, and the LNA organized the travel of 2,500 Sudanese to Sudan in two phases—500 in May 2025 and the remaining 2,000 in June 2025, while arrivals to Greece and Italy reached 3,269 and 959, respectively.

Urgent Needs in the East

Needs are increasing due to continuous Sudanese arrivals, specifically in health, WASH, cash, food and shelter. Refugees show concerning health conditions, requiring immediate assistance, including food support. WASH infrastructure is overstretched risking the spread of disease. Immediate support for increased access to water and strengthening public health system, sanitation and hygiene. Local authorities provide significant assistance, including access to emergency and primary health care and education enrollment. However, support to local communities is needed throughout the country, as Sudanese refugees are moving towards coastal cities. Specifically tailored protection assistance to female-headed households is required to ensure no-one is left behind.
