The new and improved Miniila app is now available on the Apple Store and Google Play!

Dear supporters of the Miniila app,

Missing Children Europe is happy to announce that the Miniila app is back online and available again to children in migration in Europe! Download it from the Apple Store, Google Play!

The relaunch of Miniila couldn't have been timelier with the recent COVID-19 pandemic and several EU member states declaring their willingness to welcome unaccompanied children from the Greek Islands. The pandemic left many children in migration isolated, in difficult sanitary conditions and without access to basic services and support. That's why it is crucial that we stay active and continue reaching children who need help.

Over the last year, the app has undergone several necessary changes to improve the safety of children in migration.

WHAT'S CHANGED FOR THE CHILDREN THAT WE WANT TO HELP?

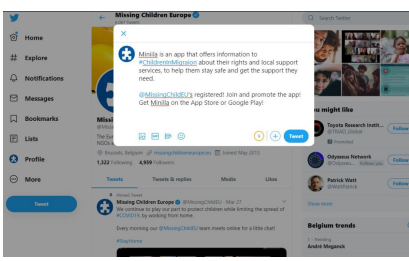
Miniila's main goal is still to facilitate access to support and services for children on the move in your country. It's look and user interface have been redesigned with children's specific needs in mind. We've created a child-friendly design that provides information on children's rights, procedures such as asylum application and family reunification, and advice on finding safety and recognising danger. Children are redirected to services according to their moods and needs, and they have access to quick translations from the local language to their mother tongue, and vice-versa.

WHAT NOW?

1) Not part of Miniila yet? Discover how to join below!

2) Share this newsletter with other organisations providing key services to children in migration.

3) Children need to know about Miniila! Here's how you can help.



4) Do you know any channels or young influencers that could promote Miniila? Get in touch with your national focal point!

WANT TO JOIN MINIILA?

You are not part of our community yet? Join us today! It will take only few minutes to upload your organisation's services to Miniila.
