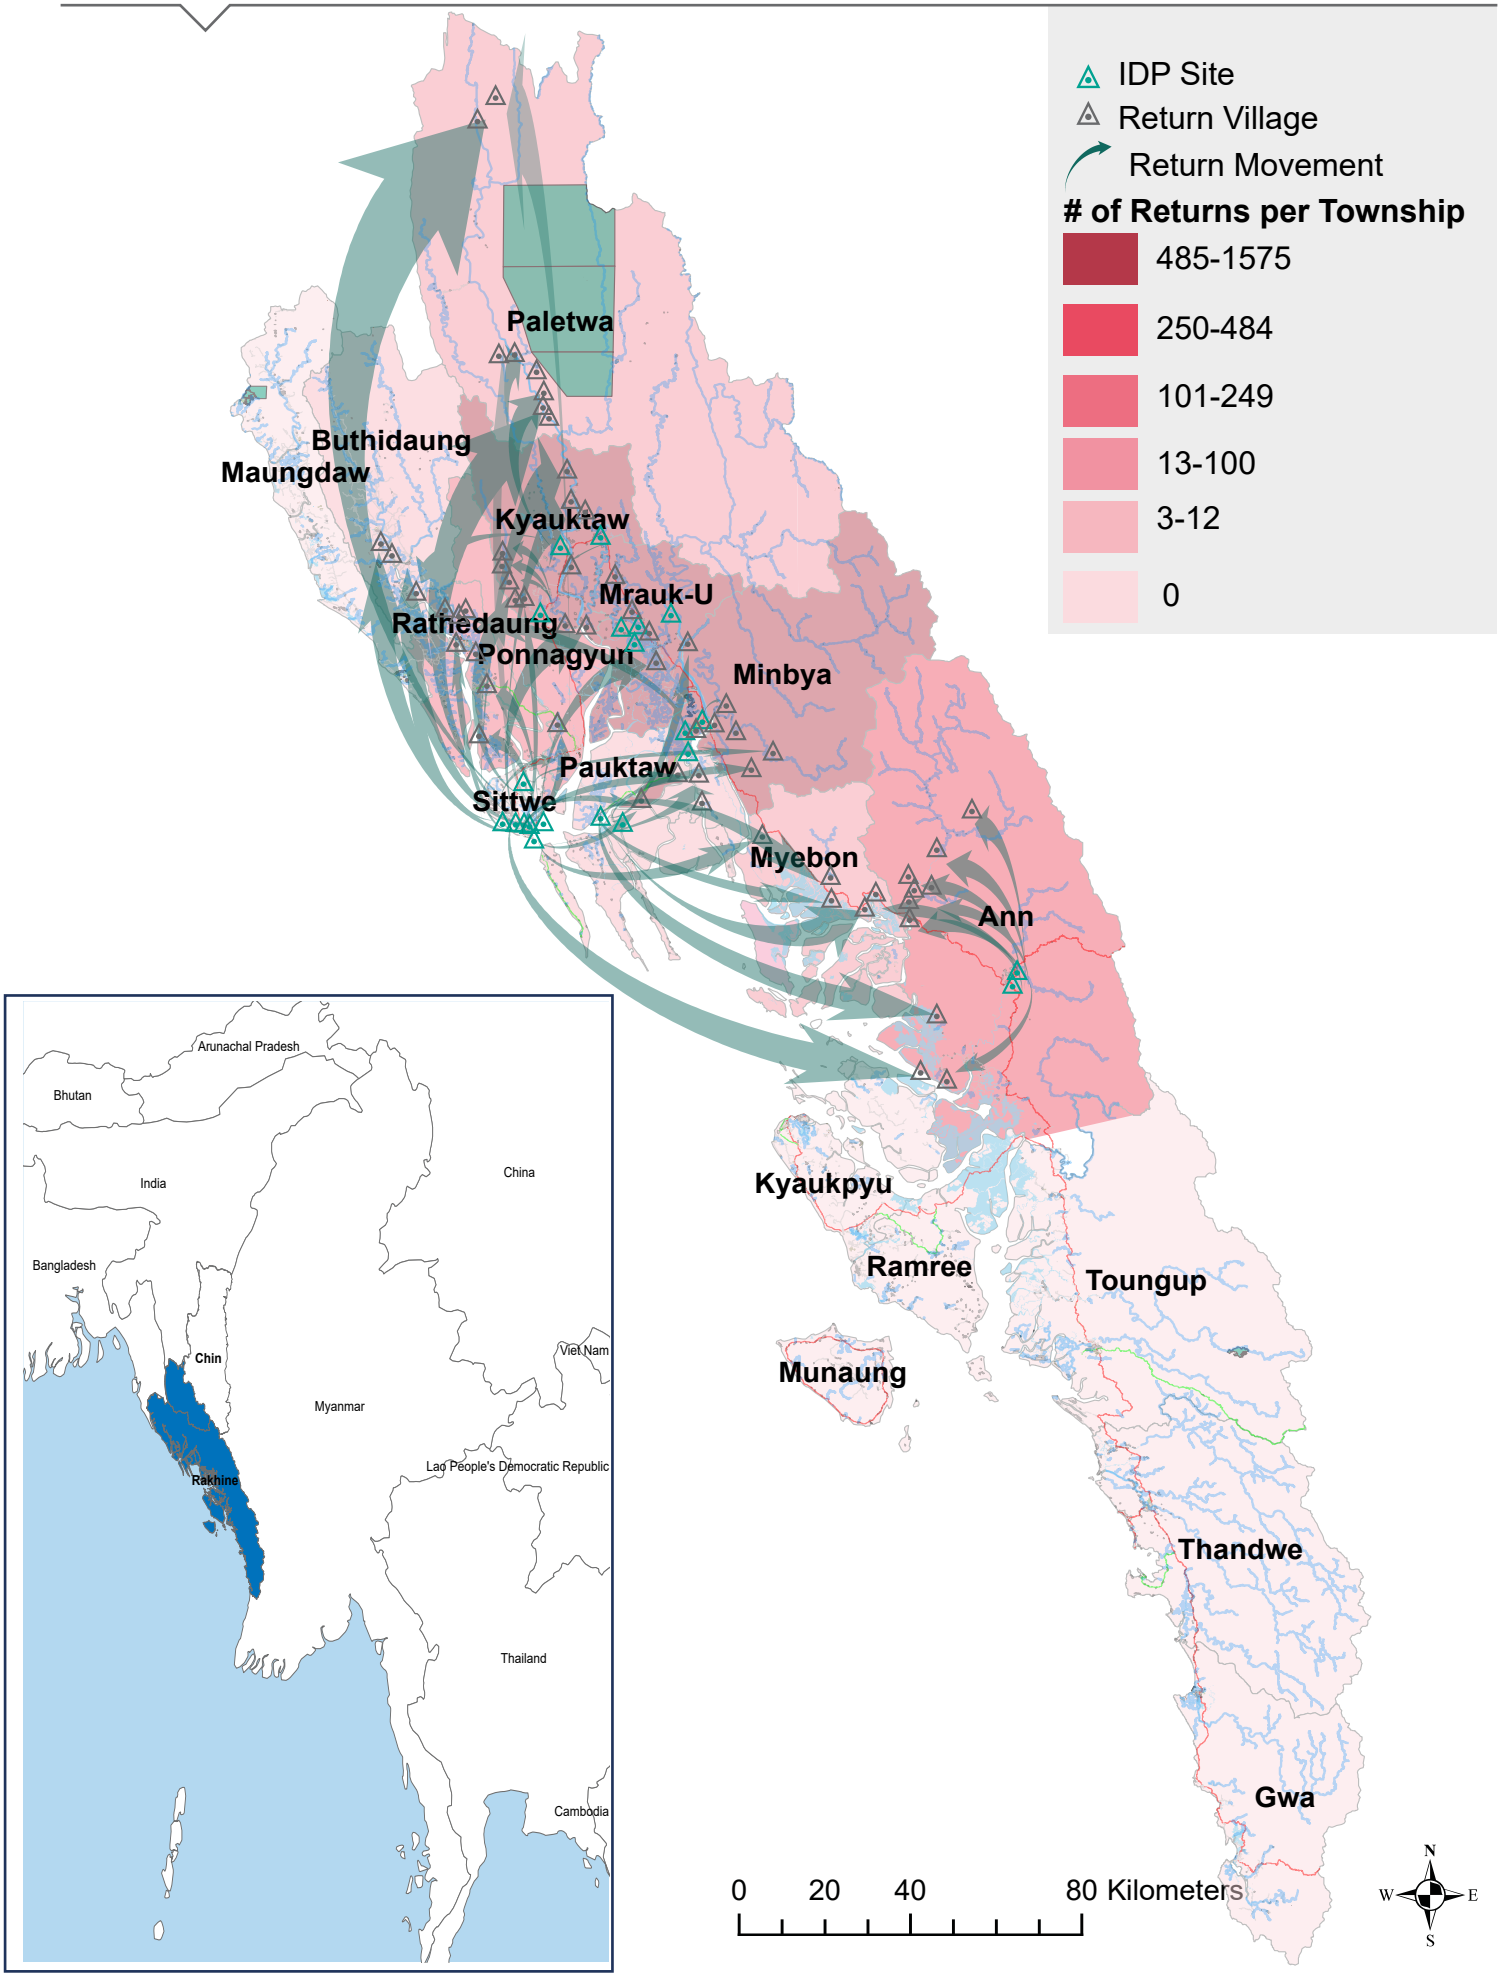
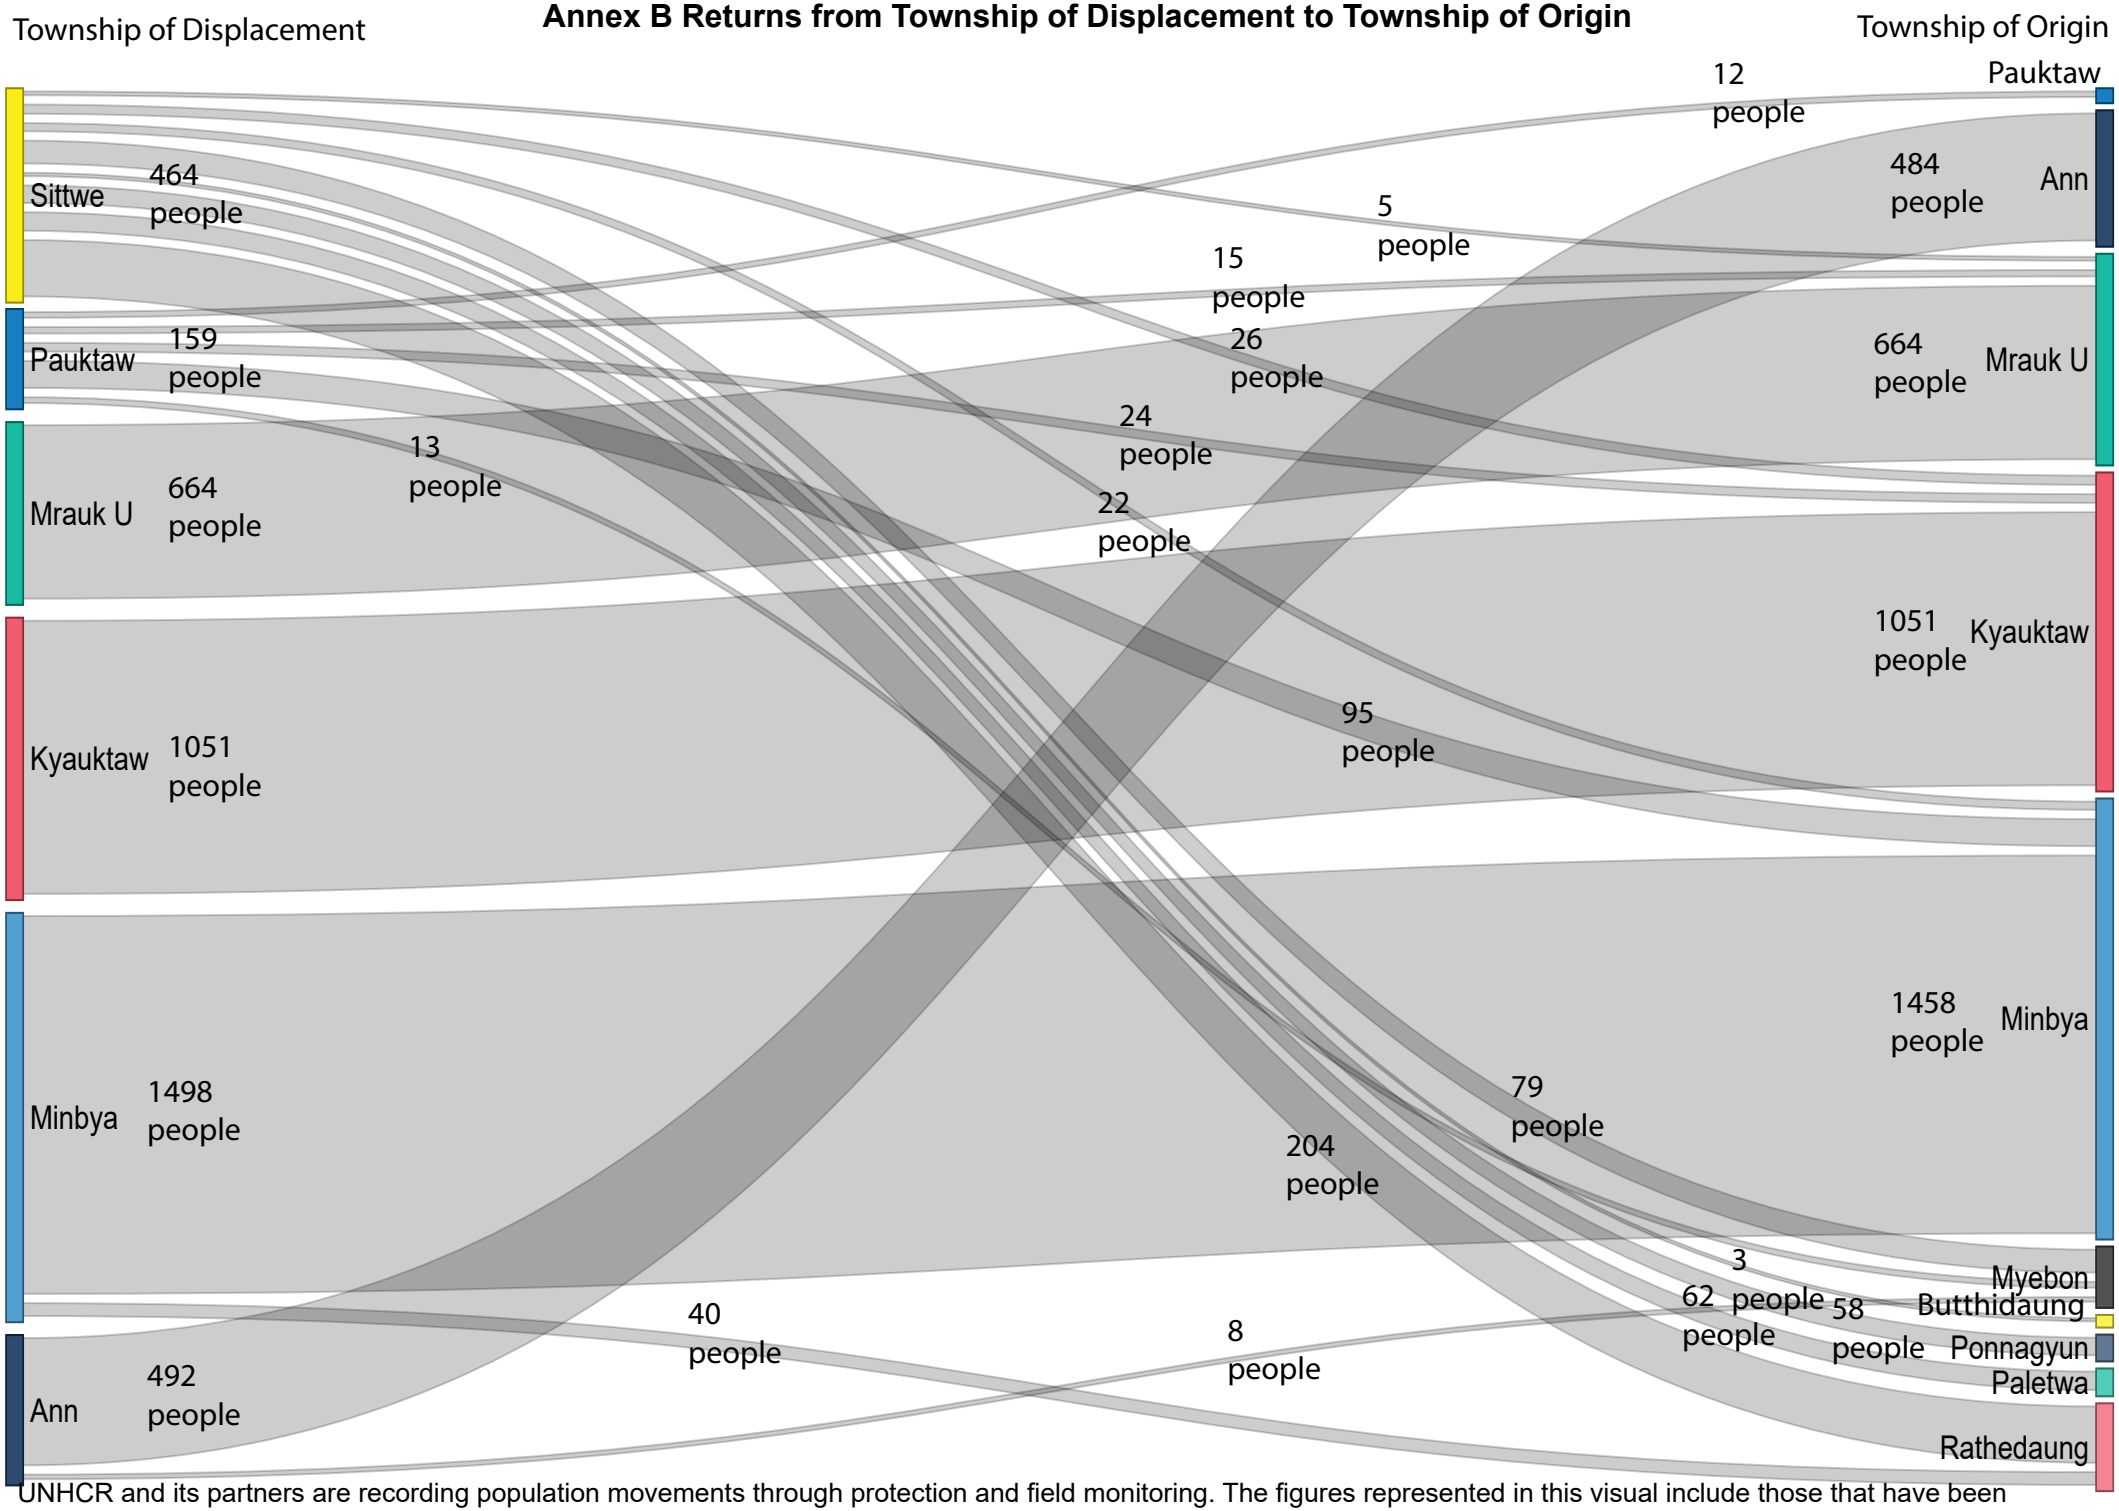
DISPLACEMENT IN RAKHINE MYANMAR

Return Patterns

(as of 4 October 2021)



Annex B Returns from Township of Displacement to Township of Origin



UNHCR and its partners are recording population movements through protection and field monitoring. The figures represented in this visual include those that have been identified through this monitoring exercise. Estimations mentioned in the report are provided based on these figures, actual numbers of displaced people, and planned movements. A more detailed exercise of IDP intentions on returns is planned to further confirm the numbers.
