	SWCs/WES, UNICEF, UNHCR		

Assistance

White Nile State: To promote hygiene practices and mitigate the spreads of the new cholera cases, risk communication and community engagement activities reached 3,145 individuals in Joda, including refugees and host community members, with key messages on disease prevention and hygiene practices.

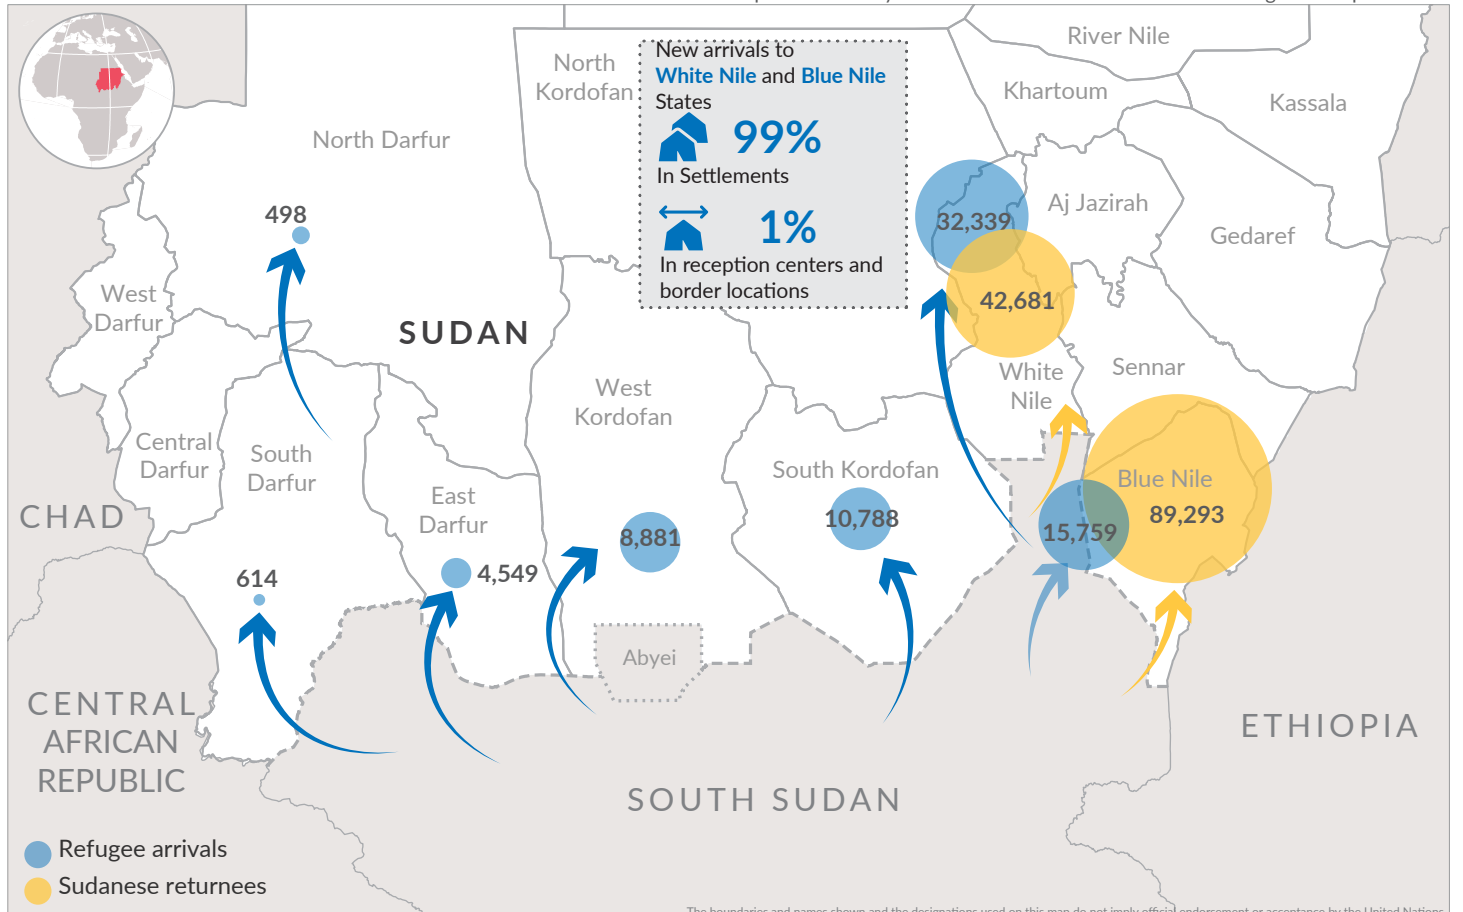

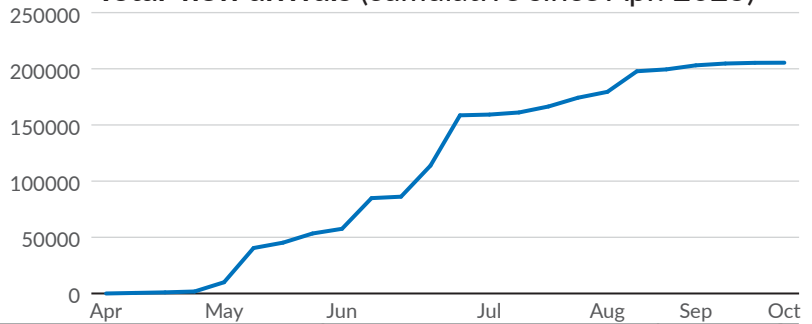

Blue Nile State: In support of WASH, SCI has constructed 100 emergency latrines in sectors 5, 6, and 7 of Al Karama. For food assistance, ICRC distributed extra food baskets including oil, salt, and lentils to 3,082 households in Al Karama 5.

Context

Since late February, political instability and rising hostilities between armed groups in South Sudan have led to fresh clashes, particularly in Upper Nile State. This has caused a large influx of people to flee South Sudan to Sudan. More than **205,000 people** have entered Sudan during this period. This includes an estimated **73,400 South Sudanese**, most of whom (44%) are in White Nile state, followed by Blue Nile (21%), South Kordofan (15%), West Kordofan (12%), East Darfur (6%) and the arrivals in North Darfur and South Darfur by small percentages.

Adding to this complexity is the arrival of an estimated **89,300 Sudanese returnees** to Blue Nile State and more than **42,600 Sudanese returnees** to White Nile State. Due to the inaccessibility of the routes from Maban to Renk and movement restrictions, refugees have started moving on foot via alternative roads toward Blue Nile. Although formal border monitoring activities remain suspended, small numbers of South Sudanese arrivals and Sudanese returns were recorded during the reporting period. All services provided by humanitarian actors including WASH, health, protection, food assistance, education, and Emergency Shelter/NFIs, are running smoothly in Al Karama sectors 5, 6, 7, 8, and 9. Through UNHCR funding, BMDO continues to conduct registration and verification for new arrivals and is also carrying out a border monitoring household survey.

Total new arrivals (cumulative since Apr. 2025)
