#2

In response to recent developments in the region, IOM and UNHCR collected information on cross-border movements—specifically inflows into Pakistan from the Islamic Republic of Iran—drawing on multiple sources[1] and corroborating data where possible. This report presents cumulative details on the nationality of incoming individuals, inflow types[2], and flow trends, disaggregated by nationality for which information was available, covering the period from 1 March to 16 April 2026. IOM and UNHCR continue to monitor the situation closely and provide regular updates.

13,745 TOTAL INFLOWS BETWEEN 01 MARCH AND 16 APRIL 2026

INFLOW NATIONALITY

7,095 (52%)	PAKISTANI NATIONALS
6,592 (48%)	IRANIAN NATIONALS
58 (<1%)	THIRD COUNTRY NATIONALS

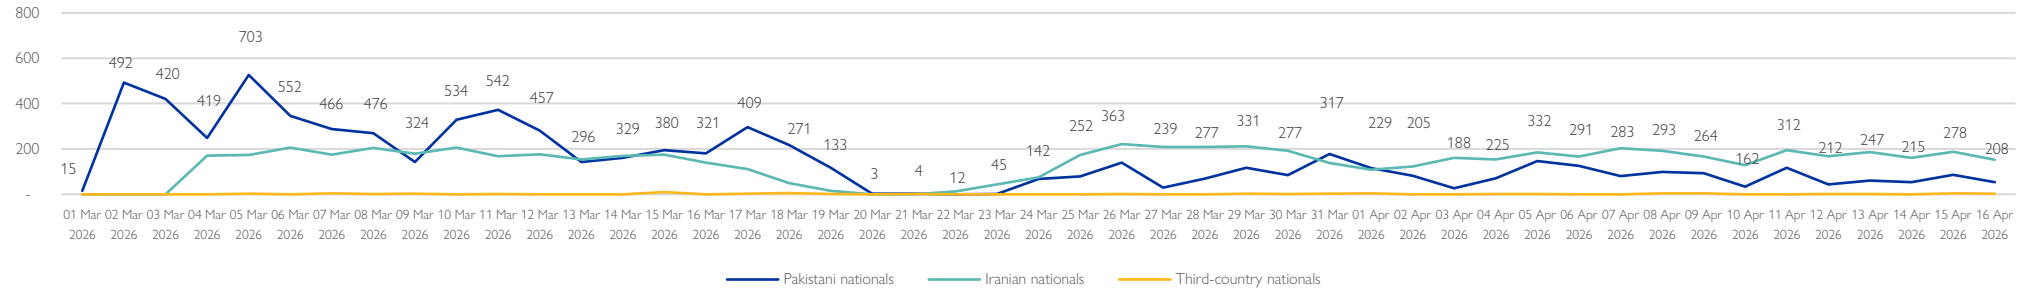
CUMULATIVE INFLOW TRENDS (by nationality)



[1] A diverse range of sources were consulted, including, but not limited to: DunyaNews and local public government sources.
[2] Since 14 March 2026, inflow types are no longer shared; only total flows are available.
[3] Based on local sources (unverified), all Iranian inflows since 1 March 2026 either possess a valid Rahdari pass, a trader's/truck driver's pass, and/or a valid Pakistani visa and Iranian passport. Apart from documentation status, these movements may reflect routine activities, such as tourism, trade, transit, family visits, or represent precautionary and temporary travel as individuals assess the ongoing situation in the Islamic Republic of Iran.
