

Refugee Population **17,667**
01/11/2014
Camp Opened:

July 2012

Population Snapshot

Cumulative Population by Month

Nbr of Household 4,189

Avg Household size 4.2

% of Children (<18) 59%

% of Women & Children 80%

Refugee Registration:

Level II registration completed

Biometric Verification completed

Continuous Registration on going

Geographic Snapshot

Gendrassa Camp is located in Guffa Payam, Maban County, Upper Nile State

GPS Coordinates
Long 33.825531
Lat 9.976653

Distance from Border
Size of Camp Area 347 hectares

m²/Person 232

Age & Gender of Registered Refugees

Age (Years)	Male (8,796)	Female (8,871)
0-4	2,063	1,835
5-11	2,107	2,219
12-17	1,122	1,089
18-59	3,147	3,478
60+	357	250

Contextual Background

Area of Origin Sudan, Blue Nile State (Kukur, Buak, Kulak and Soda areas)

Ethnicity Mainly Ingassana and Jumjum, Urduk, Baldago, Balila, Birga, Dwala, Fur, Jundi, Magaya, Mayak, Nuba

Main Occupation Predominant is agriculture (around 70%), nomadic pastoralist and, for Ingassana, artisanal gold mining

Youth Committee 20 members (50% F)

Community Watch 32 members (0% F)

Joint Committees 24 members (25% F)

PTAs 25 members (50% F)

Education Committee 25 members (50% F)

Highlights

- UNHCR reinforced the empowerment of refugee Community Watch Groups through awareness raising initiatives with refugee communities on the importance of the role of the groups in safeguarding facilities for refugee use.
- SO Bunj is also advocating for the distribution of torches, rain coats, gumboots to better facilitate the Watch Groups' functions. The intention of the exercise is to ensure the protection of communal facilities in the camps as well as to minimize increasing theft from humanitarian agency warehouses in the camps.
- In the second week of October, Gendrassa completed 520 shelters and an additional 228 are at roofing stage (i.e. 56 percent completion rate against target number). A serious constraint facing completion of the overall Shelter Project is the necessity for continuous community mobilization by humanitarian agencies to ensure the participation of refugee leaders and their constituents in mudding shelter walls after completion of roofing with
- In response to several incidents of theft in Gendrassa, the refugee community through their leadership has identified 35 youth to guard the warehouses and work closely with camp based police.

UNHCR gratefully acknowledges the support of the following partners in Gendrassa Camp

Gendrassa Monthly Updates

Protection

- DRC launched 30 member Gendrassa Protection network drawn from host and refugee community of Gendrassa on 30 October 2014. It was preceded by meetings, briefing on ToRs, conflict mapping, training on conflict management and election of the committee.
- In response to several theft incidents in Gendrassa and call for community involvement in improving their protection environment, the refugee community identified 35 youth to guard the warehouses and work closely with Gendrassa camp based police.
- Protection/CS together with ACTED concluded the distribution of sanitary materials to 4,574 females of reproductive age from 10 - 50 years old in Gendrassa camp.

SGBV	SGBV Referral System		Referral pathway finalised: health, psychosocial and material (based on individual needs) support activated. Although SGBV cases are still under reported, there is an increase on identified cases.				
	# Reported cases (since 1st January)	33					
	# Cases receiving support	3

• Nineteen (19) out of twenty newly recruited male teachers arrived from Ajoung Thok on 27th & 28th October 2014. Five (5) have been deployed at the Gentil Secondary School while fifteen (15) are being deployed at primary schools in Gendrassa, Batil and Kaya camps.
 • Education partner, the Lutheran World Federation (LWF) began the construction of over 40 latrines in schools in Kaya, Gendrassa and Batil.
 • UNHCR and education partners have compiled lists of candidates from the previous and current academic year for consideration in sitting Primary 8 school exams which were interrupted in Maban County and Upper Nile State following the December 2013 conflict.

Water and sanitation

Minimum Sectoral Data	Value	Standard	Indicator	Value	Standard
Avg water available (litres/person/day)	17.2	>=20	Crude Toilet Coverage	17.6	<=20

Water collected at HH level (litres/person/day)	n/a	>=20	% of PoC receiving >=450g soap/person/month	100%	100%

- Global Hand Washing Day was commemorated on 18 October, under the theme, 'Choose Hand Washing, Choose Health' in Gendrassa.

Health/Nutrition

Minimum Sectoral Data	Value	Standard	Minimum Sectoral Data	Value	Standard	Minimum Sectoral Data	Value	Standard
CMR/10,000/day	0.09	<1	# Persons/Health Facility	17,513	<10,000	% of U5 GAM	7.5%	<10%
U5 MR/10,000/day	0.08	<2	Health Facility Utilisation	2.4	1-4	% of U5 SAM	0.6%	<2%

- Preparations for UNHCR's Standardized Extended Nutrition Survey (SENS) to which WFP and UNICEF committed to gets underway. The SENS is the comprehensive Nutrition Survey designed for refugee camps/contest which includes not only anthropometric/health data but also anaemia testing (women and children), Infant and Young Child Feeding Practices, Mosquito net coverage, WASH indicators and Food Security indicators. The current assessment will exclude Food Security module.
- The nutrition profile in remained stable. IMC conducted the joint camp monthly MUAC screening. The levels of Global Acute Malnutrition (GAM) and Severe Acute Malnutrition (SAM) rates are within UNHCR standards (GAM = 7.3 %, SAM = 0.6 %) which is an improvement as compared with September. No significant variation in new admissions was noted. Two sessions of 15-Day General Food Distribution (GFD) were held with 30 day voucher distribution at the first session.
- MSF-H have confirmed their commitment to extend their operation in Gentil hospital till the end of 2015. This will enable IMC and Medair to focus on the Primary Health Care services and strengthen the outreach and surveillance activities in Kaya, Gendrassa and Batil camps.
- IMC has restarted the 24 hours emergency health services and night Ambulance at the main clinic; however, the health posts remained closed due to shortage of manpower.
- Seasonal malaria and acute respiratory tract infections remained the main health problems in all camps, however, the overall health profile of the refugee population and surrounding host communities remain stable despite the prevailing insecurity that continues to negatively impact the scope of health care services in the area.
- Selected drugs and medical supplies were distributed to UNHCR partners (IMC, Medair and SP) in Maban based on need.

*GAM and SAM figure are proxy obtained from monthly MUAC screening of <5 children

General Food Distribution

Date of last distribution	n/a	Length of ration	30 days	Next planned distribution	n/a
Avg Kcal/person/day provided	1,482	Planned beneficiaries	n/a	Served beneficiaries	n/a

- UNHCR built 244 transitional shelters built, making a total of 705 transitional shelters provided in Gendrassa since January (against target of 923 for 2014).
