Galgaduud	-	Marka	870
Shabelle Dhexe	-	Diinsoor	850

Correlation of IDPs

Between 1 December and 27 January 2012, displacements were mainly recorded in South Central with approximately 45000 out of 49000 displacements recorded in all three regions. 20,000 displaced people reported insecurity as the major cause of displacement in South Central followed by IDP return (13,000), refugee return (6,300), lack of livelihood (4,300) and Relocation (50). The displacements originated mainly from Hiraan (10,000), Shabelle Hoose (9,700), Mogadishu (6,300) and Gedo (4,900) regions. The IDPs moved to Mogadishu (15,000*), Gedo (9,900), Hiraan (9,500) among other regions.

Top 5 Reasons for Displacement

Priority Needs

This data has been collected through the IASC Population Movement Tracking (PMT) system. PMT is designed to capture population movement trends, not cumulative population data. Due to the fluid nature of displacement in Somalia and in order to avoid capturing multiple displacements, UNHCR limits the reporting range to a period of three months - these figures should therefore not be added and used cumulatively.
