Correlation of movements

Between 1st Sep and 23rd Nov 2012, displacements were mainly recorded in South Central with approximately 34,000 out of a total 36,000 displacements recorded in all three zones. 18,900 displaced people reported insecurity as the major cause of displacement in South Central followed by Cross border movement (4,800), IDP temporary return(3,200), Eviction(3,100). The movements originated mainly from Juba Hoose (17,000), Banadir (4,000), Shabelle Hoose (1,800) and Gedo (1,500) regions. The top three regions people moved to were, Juba Hoose (12,000), Banadir (8,200), Gedo (6,500) among other regions.

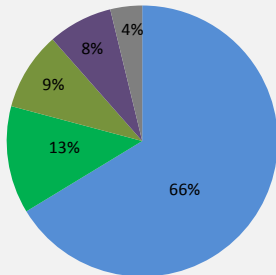

Top 5 Reasons for movement

	People
Insecurity	18,900
Cross border movement	4,800
IDP temporary return	3,200
Eviction	3,100
Lack of livelihood	2,300

Priority Needs

- Food
- Shelter
- Livelihood support
- Transport
- Protection from conflict

01-Sep-12 By Week 23-Nov-12

This data has been collected through the Population Movement Tracking (PMT) system. PMT is designed to capture population movement trends, not cumulative population data. Due to the fluid nature of displacement in Somalia and in order to avoid capturing multiple displacements, UNHCR limits the reporting range to a period of three months - these figures should therefore not be added and used cumulatively.

* Please note figures have been rounded using a three tier method as follows. Figures below 100 were not rounded at all. Figures between 100 and 1,000 were rounded off to the nearest tenth, figures between 1,000 and 10,000 were rounded off to the nearest hundredth and all figures above 10,000 were rounded off to a thousandth. This rounding rule was applied to the final result after all computations were undertaken.
