Correlation of movements

Displacements and cross border movements were mainly recorded in South Central regions with approximately 15,000 out of a total 15,000 movements recorded in all three zones. Approximately 8,200 persons were reported to have been displaced due to clan conflict. This was followed by flood (2,000), insecurity (1,200), eviction (1,200) and lack of livelihood (690). Main displacements occurred from Shabelle Hoose (9,300), Shabelle Dhexe (2,000), Banadir (1,200), Juba Dhexe (400) and Bakool (370) regions. Arrivals were mainly registered in Marka (7,000), Mogadishu (2,200), Balcad (2,000) and Kurtunwaarey (880) districts.

Regions	People

## Main reasons for movement

Reason	People
Clan Conflict	8,200
Flood	2,000
Insecurity	1,200
Eviction	1,200
Lack of livelihood	690

## Priority Needs

- Livelihood support
- Food
- Protection from conflict
- Protection from direct attacks

01-Jun-14 By Week 30-Jun-14  
This data has been collected through the Population Movement Tracking (PMT) system. PMT is designed to capture population movement trends, not cumulative population data. Due to the fluid nature of displacement in Somalia and in order to avoid capturing multiple displacements, UNHCR limits the reporting range to a period of three months - these figures should therefore not be added and used cumulatively.

\* Please note figures have been rounded using a three tier method as follows. Figures below 100 were not rounded at all. Figures between 100 and 1,000 were rounded off to the nearest tenth, figures between 1,000 and 10,000 were rounded off to the nearest hundredth and all figures above 10,000 were rounded off to a thousandth. This rounding rule was applied to the final result after all computations were undertaken.
