

# Jordan: RRP5 Monthly Update - November 2013

## Cash Sector

### RRP5 TARGET

(assumes 1 million refugees by end 2013)

**600,000**  
Registered refugees  
expected to be living  
outside of camp in 2013

**75%**  
registered refugee  
population will be  
vulnerable

### Current Planning Figures

**561,729**  
Total Persons of  
Concern outside of  
camps as of 1  
December 2013

**30,781**  
Syrian families who  
received financial  
assistance during 2013

**57 m**  
USD required budget

### NEEDS

Needs are calculated based exclusively on the number of registered Syrians as the registration process provides the minimum of data validity and integrity necessary for the cash activity. Out of the one million Syrians projected to be in Jordan by the end of 2013, some 700,000 are expected to be living outside of the camps. Of that number, around 600,000 will be registered by UNHCR.

The longer Syrians have to stay in Jordan, the less likely they will be able to make ends meet with assets they brought or, barring wider access to the labour market, income they may generate. New arrivals may have more urgent needs as the situation deteriorates further in Syria. Accordingly, it is expected that by the end of the year 75% of the registered Syrians outside the camps will be in need of some form of cash assistance, up from 60% at the beginning of the year.

### OBJECTIVES (as per RRP5)

Ensure that the basic household needs of extremely vulnerable Syrians living in urban and rural areas across Jordan are met through financial support.

### ACTION/OUTPUTS (as per RRP5)

- 1 Provision of urgent financial assistance
- 2 Regular financial assistance (unconditional)
- 3 Regular financial assistance (unconditional)
- 4 Seasonal support

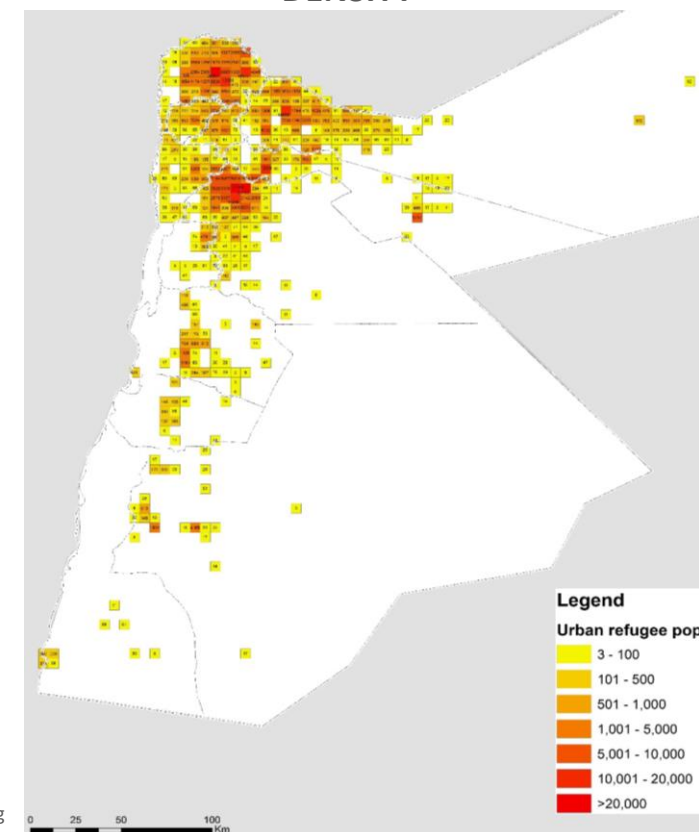

### KEY NOVEMBER DEVELOPMENTS

- Finalization of the RRP6 sector chapter: The CWG finalized the largest sector chapter in any of the RRP5s for Jordan to date. The process anticipated key elements of the cash strategy 2014 and is squarely rooted in a rationale of cash assistance as livelihoods for refugees outside the camp.
- Consultations around sector strategy 2014: A workshop with key partners, experts and donors was held in November that set the cash strategy 2014. The main focus in the early part of 2014 will be on concluding work on harmonization and standardization of assistance. 2014 in general is marked by working on a more meaningful integration with livelihoods activities to the extent they can be implemented in Jordan
- Coordination of winterization to refugees outside the camps (together with NFI working group)
- On 5 November, partners of the NFI and CWG came together to commit to a number of coordination principles in the context of winterization. These include transparent projection of activities, checking identified beneficiaries on RAIS to avoid duplication and reporting on implementation.

### ACHIEVEMENTS TO DATE - (November 2013)

- \$ 18,049 (1,178 in November) families** receive urgent Cash Assistance (one-time) to address urgent vulnerability
- \$ 17,614 (3,729 in November) families** receive regular cash assistance as a cash complement towards basic household needs (conditional)
- \$ 137,345 (21,166 in November) families** receive regular cash assistance as a cash complement towards basic household needs (unconditional)

### SYRIAN REFUGEES IN JORDAN POPULATION DENSITY

**Leading Agencies:** UNHCR and CARE are co-leads of this sector. **UNHCR - Volker Schimmel** - schimmel@unhcr.org / **CARE - Kate Washington** - Kate.Washington@jo.care.org  
**Reporting Agencies for this month:** CARE, CARITAS, DRC, ICMC, IRC, IRW, JRC, MEDAIR, OXFAM, SAVE THE CHILDREN, ADRA, UNHCR
