

FACTS ABOUT REGISTRATION

Why register with UNHCR?

-  It allows you and your family to be recognized as asylum-seekers in Egypt: you will receive an Asylum Seeker Certificate, a document that will help you with your daily interaction with Egyptian authorities. This will help protect you and your family from being returned to Syria.
-  It is also the first step to be interviewed during a home visit to determine whether your family can benefit from food vouchers and financial assistance.

Registration also enables you to receive

-  A letter required to enrol your child in school and to apply for educational grants for your children of school age.
-  Subsidised healthcare and psychosocial support from our partner clinics.
-  The necessary documentation for obtaining an Egyptian driver's license.

Syrians need to carry with them at all times their passport and UNHCR registration card if they have one.
