

# REACHING THOSE MOST IN NEED

**UNHCR and WFP aim to provide assistance to  
registered refugees that are most in need**

## A SOCIO-ECONOMIC SURVEY

UNHCR and WFP, through their NGO partners, are conducting home visits to all registered Syrian refugees in Egypt to evaluate their situation and assess their needs.

The information gathered will be used by UNHCR, WFP and its partners to better identify and reach those most in need of assistance.

Your collaboration is vital to help us better understand your situation.

**Participating in the survey does not guarantee receiving assistance**

## WHAT'S THE NEXT STEP?

If you are found eligible after the assessment for cash or food assistance, you will be contacted within 60 days. For other potential support, the time frame will vary.

United Nations High Commissioner for Refugees
