

# Lebanon - Akkar Governorate

## Interagency Mapping Platform: Third and Fourth Sweep IS Analysis

For Humanitarian Use Only  
Production Date: 17 November 2014

REACH began implementing the **fourth sweep** of IS on August 6th, 2014. Using the geographic sweep approach, agreed by the Inter-Agency Mapping Platform (IAMP) partners, REACH identified, geo-referenced, and collected key data on all IS in Akkar over a 9 week period. Data on IS in Akkar is updated on a monthly basis by REACH field teams who collect data in demographics, registration status, settlement leadership, landlord, date of establishment, rental costs and place of origin.

**Informal settlements** are commonly established either on "rented" or unauthorized public or private land. IS are not recognized by MOSA or the Municipalities as formal camps. Many settlements are located on unused lands at the outskirts of urban centres lacking access to basic utilities such as electricity, water and sanitation facilities. Living conditions in IS are substandard in terms of site planning, shelter, and WASH. Shelter units are often handmade with a combination of plastic sheeting, timber, and various other materials available for refugees.
