Private Sector Engagement

Initiative by MoSA 2016

What is private sector engagement?

Private sector engagement looks into bringing the private sector into the humanitarian and stabilization agenda.

It is about facilitating a change of the private sector way doing business to align with the humanitarian and stabilization programs for the mutual benefit of the poor and their business.

It is about bringing the private sector to the table during the program design process and throughout the program lifecycle.

What is private sector engagement?

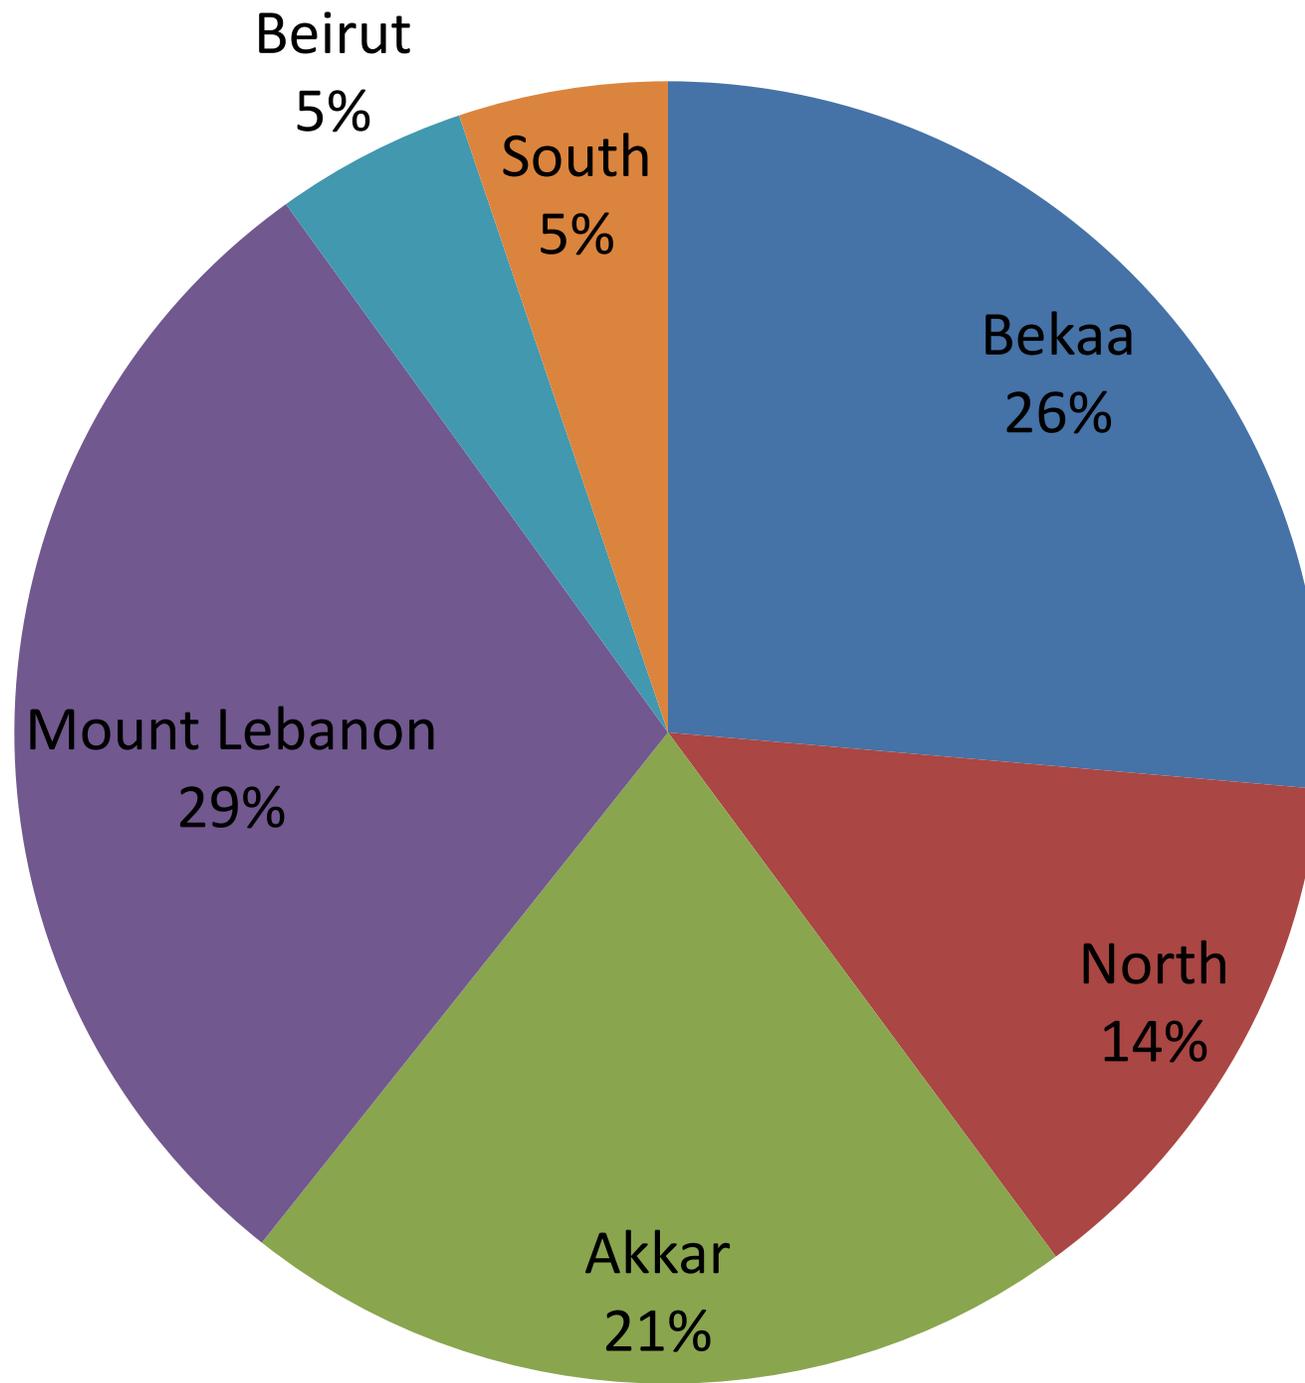

- Corporate social responsibility or charity actions
- Securing a place for private sector in assessment, design and through the whole program life cycle.

Who are the targeted private sectors?

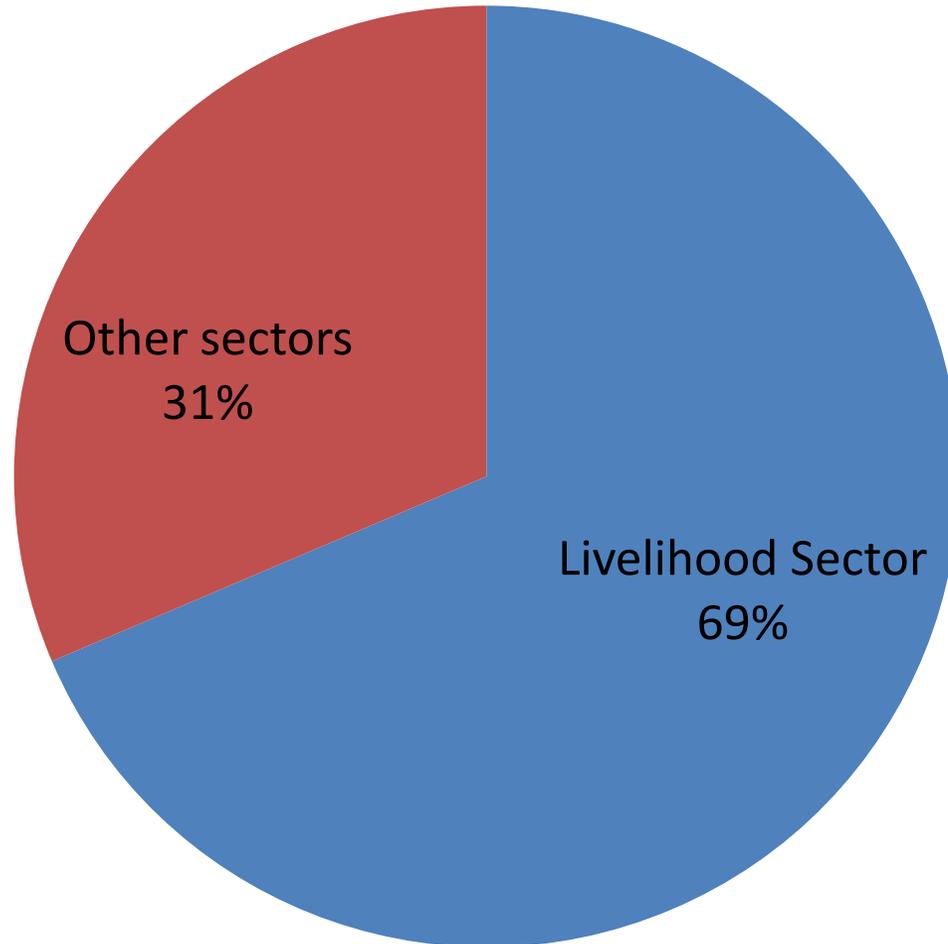

- It includes all sizes from the micro small and medium enterprises up to regional and multinational corporations.
- All stakeholders at a defined value chain or service providers in different value chains.

Data Collected

Nbr of agencies	Nbr of sectors	Nbr of private sector engaged
12	5	1429

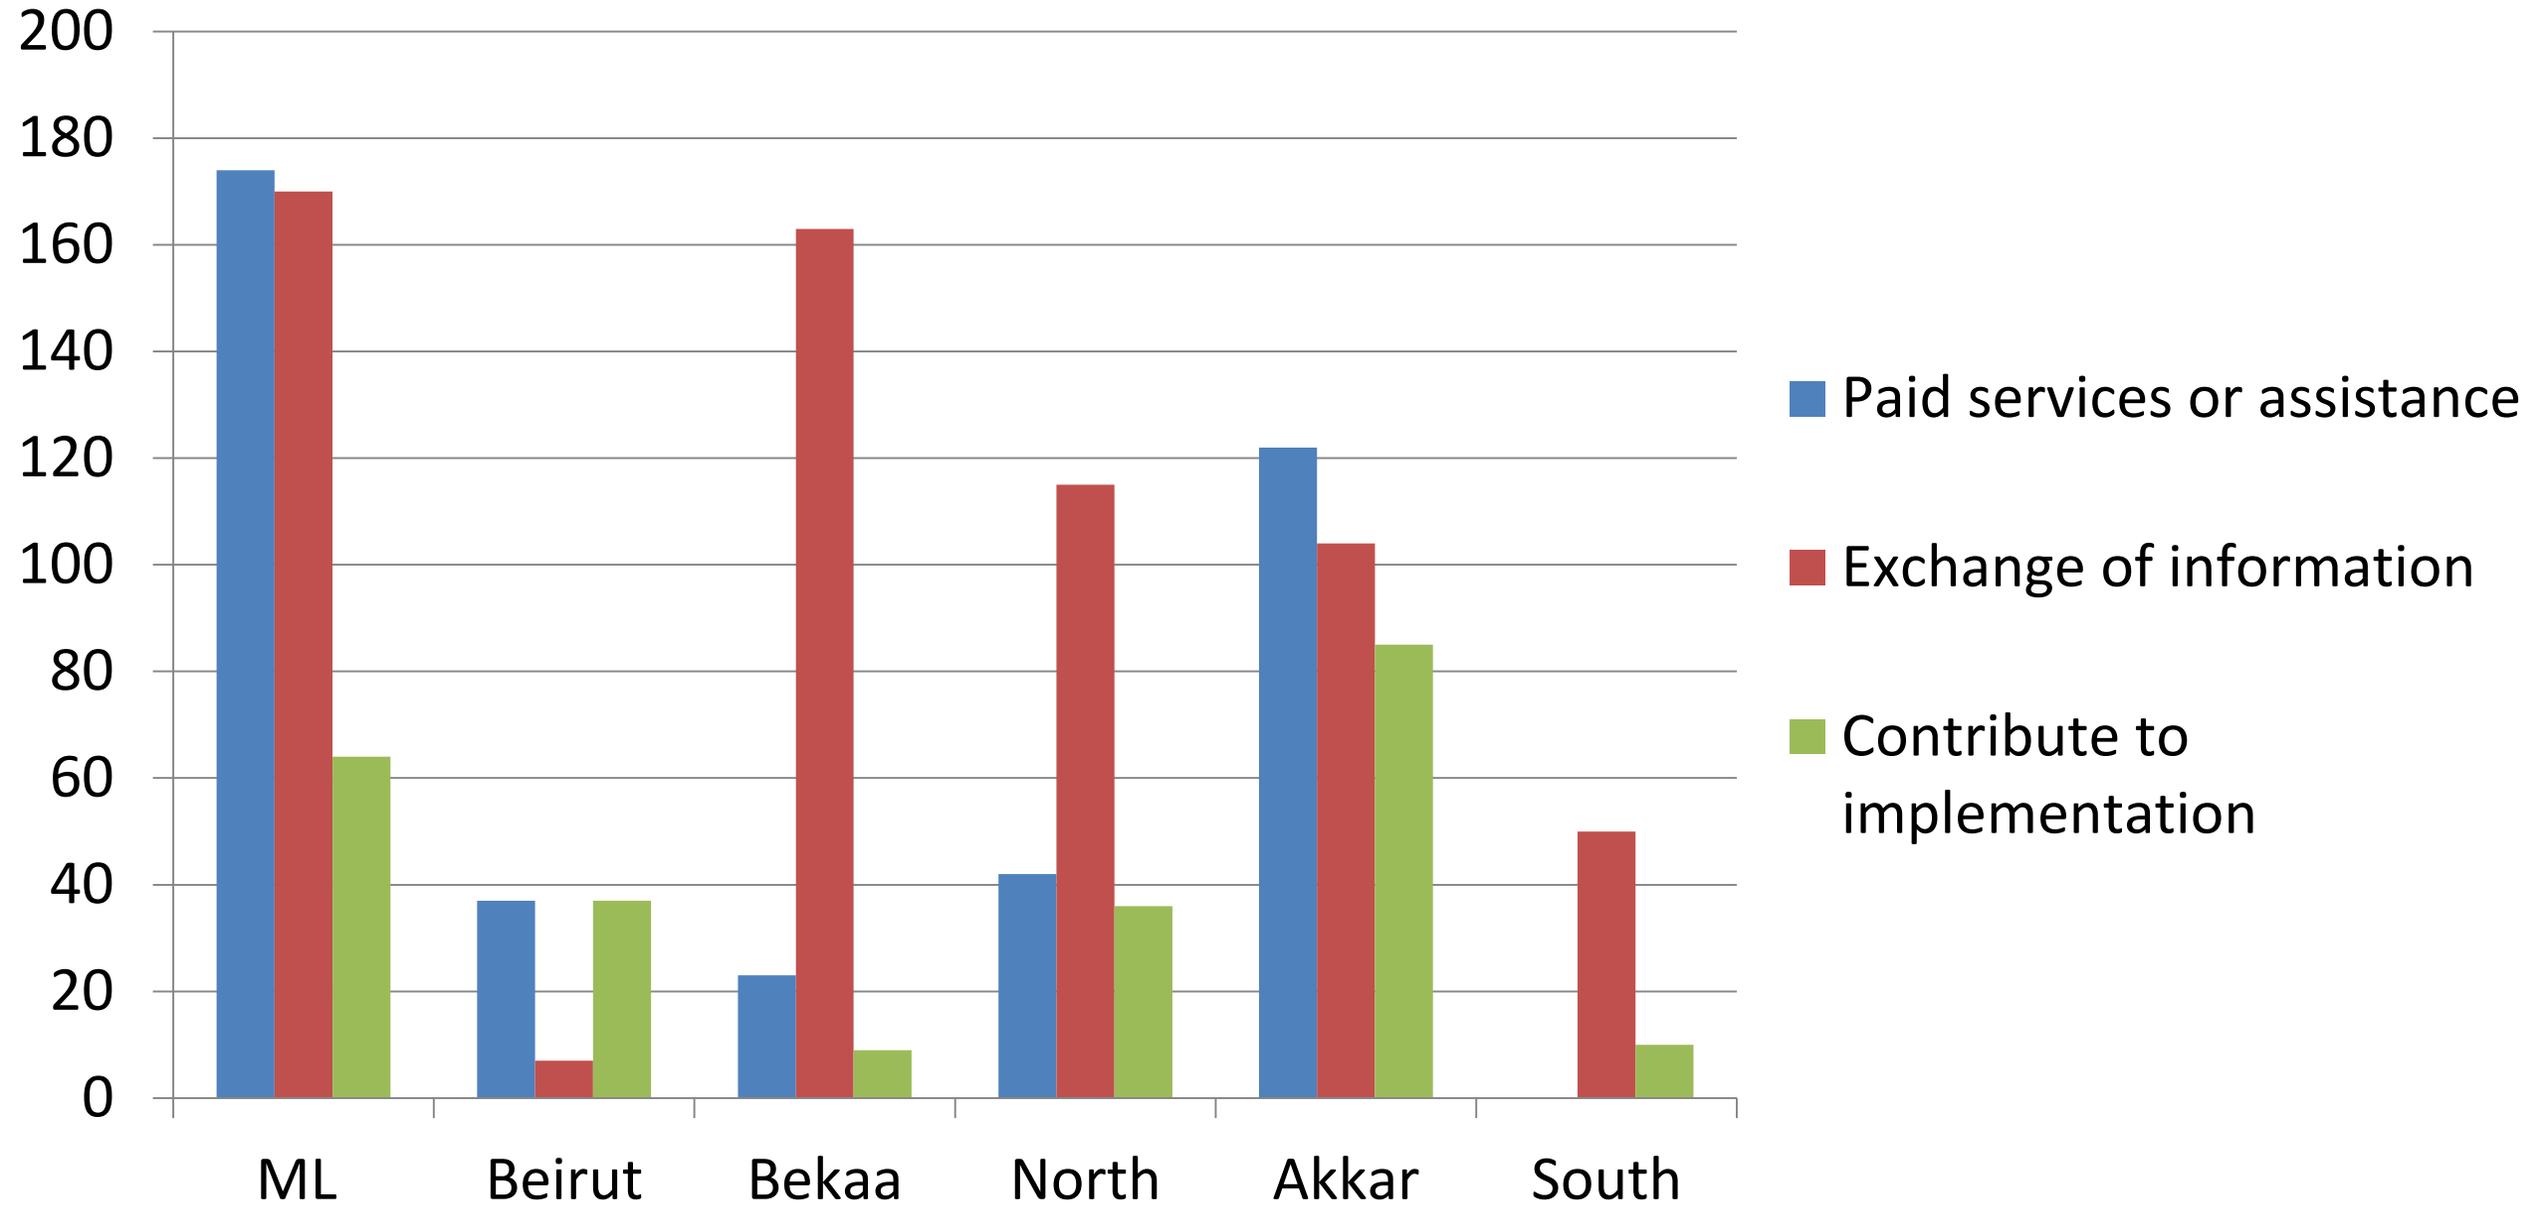

Distribution per Sector

Distribution per type of engagement

	Paid services or assistance	Exchange of information	Contribute to implementation
Mount Lebanon	174	170	64
Beirut	37	7	37
Bekaa	23	163	9
North	42	115	36
Akkar	122	104	85
South	0	50	10

Distribution per type of engagement

Private sector engagement potentials

- The private sector is not only a source of financing, but is also an actor in the response providing till the moment and average of \$180 US per refugee household through income opportunities.
- The private sector can go beyond that if motivated and provided a business enabling environment and market opportunities.
- Private sector engagement aims to focus investments from the private sector in targeted areas and subsectors as well as private public partnership.

Child Protection Sector

Referral Pathways

- Referral Pathways are established for Case Management Referrals in the regions (South, Bekaa, Mt.Lebanon, North and Akkar)
- Coordinated thro Field CPiEWG and regularly updated with contact details
- Referral Pathways serve for both Syrian Refugees and Non-Syrians
- It consists of following details:

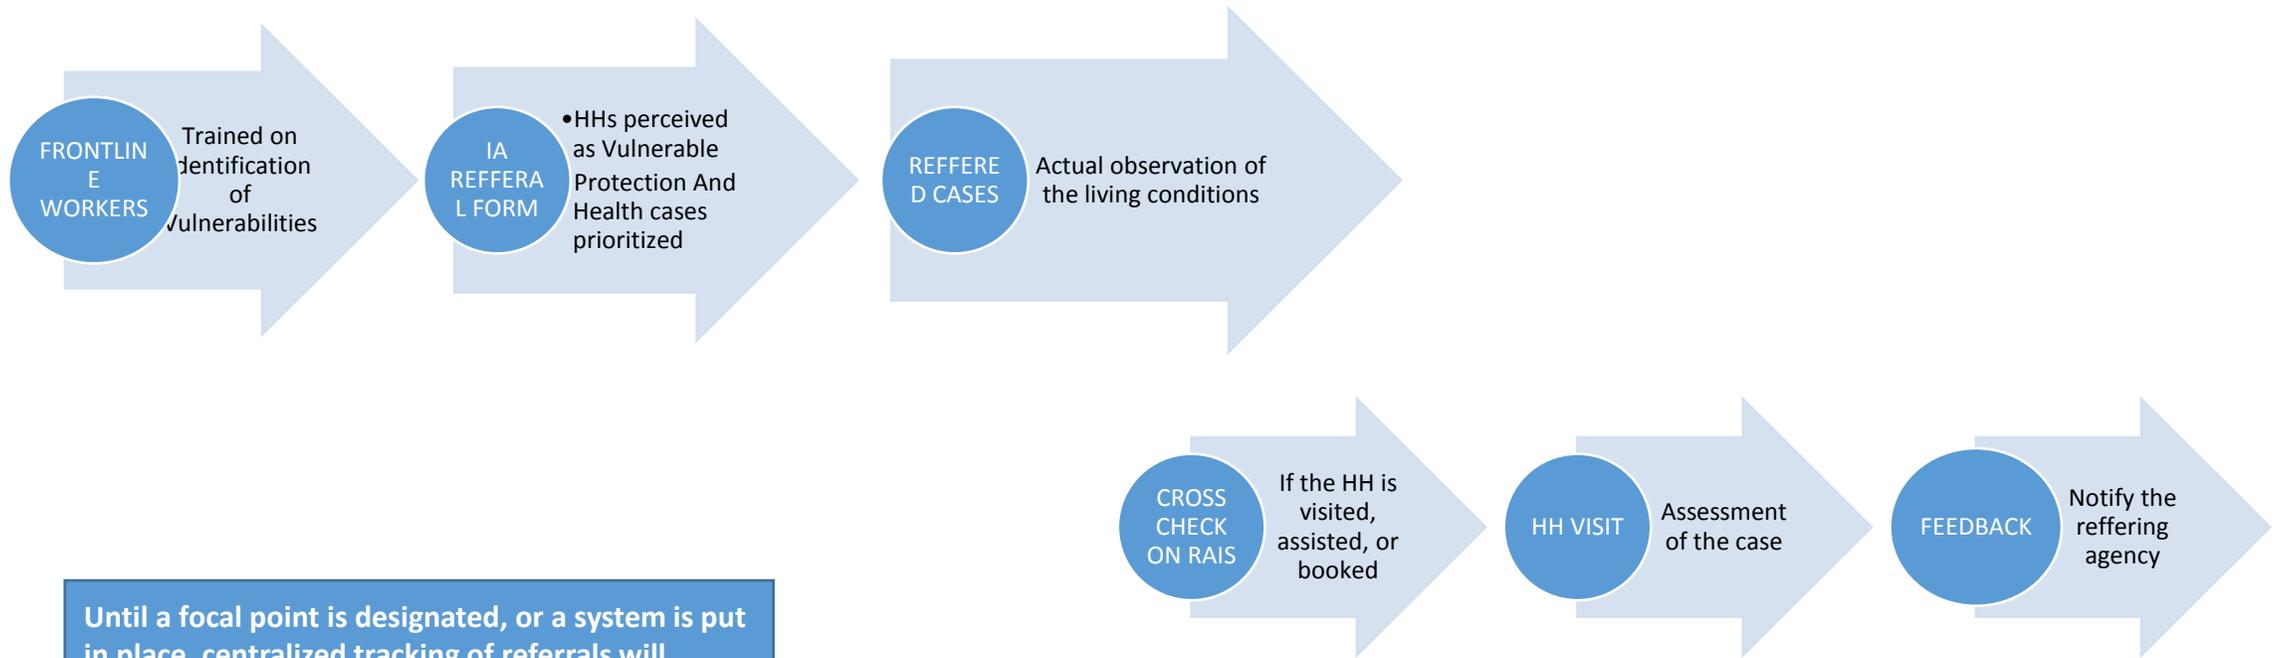

- Name of the Agency
- Target Groups (ex. Syrian girls / boys; Non-Syrians, Lebanese boys/girls)
- Areas of Residence of Refugees
- Focal Point Contact
- Focal Point Back-up

- Hotline Numbers (24 Hours / 7 days a week)
- Geographical Hub focal point contact details
- Specific Forms available for referral
- Frontline workers are trained on using child protection safe referral.

These Standard Operating Procedures (SOPs) are aimed at establishing a referral pathway for household profiling in order to ascertain vulnerabilities at the household level, and to increase reach to beneficiaries with intensified vulnerabilities or needs.

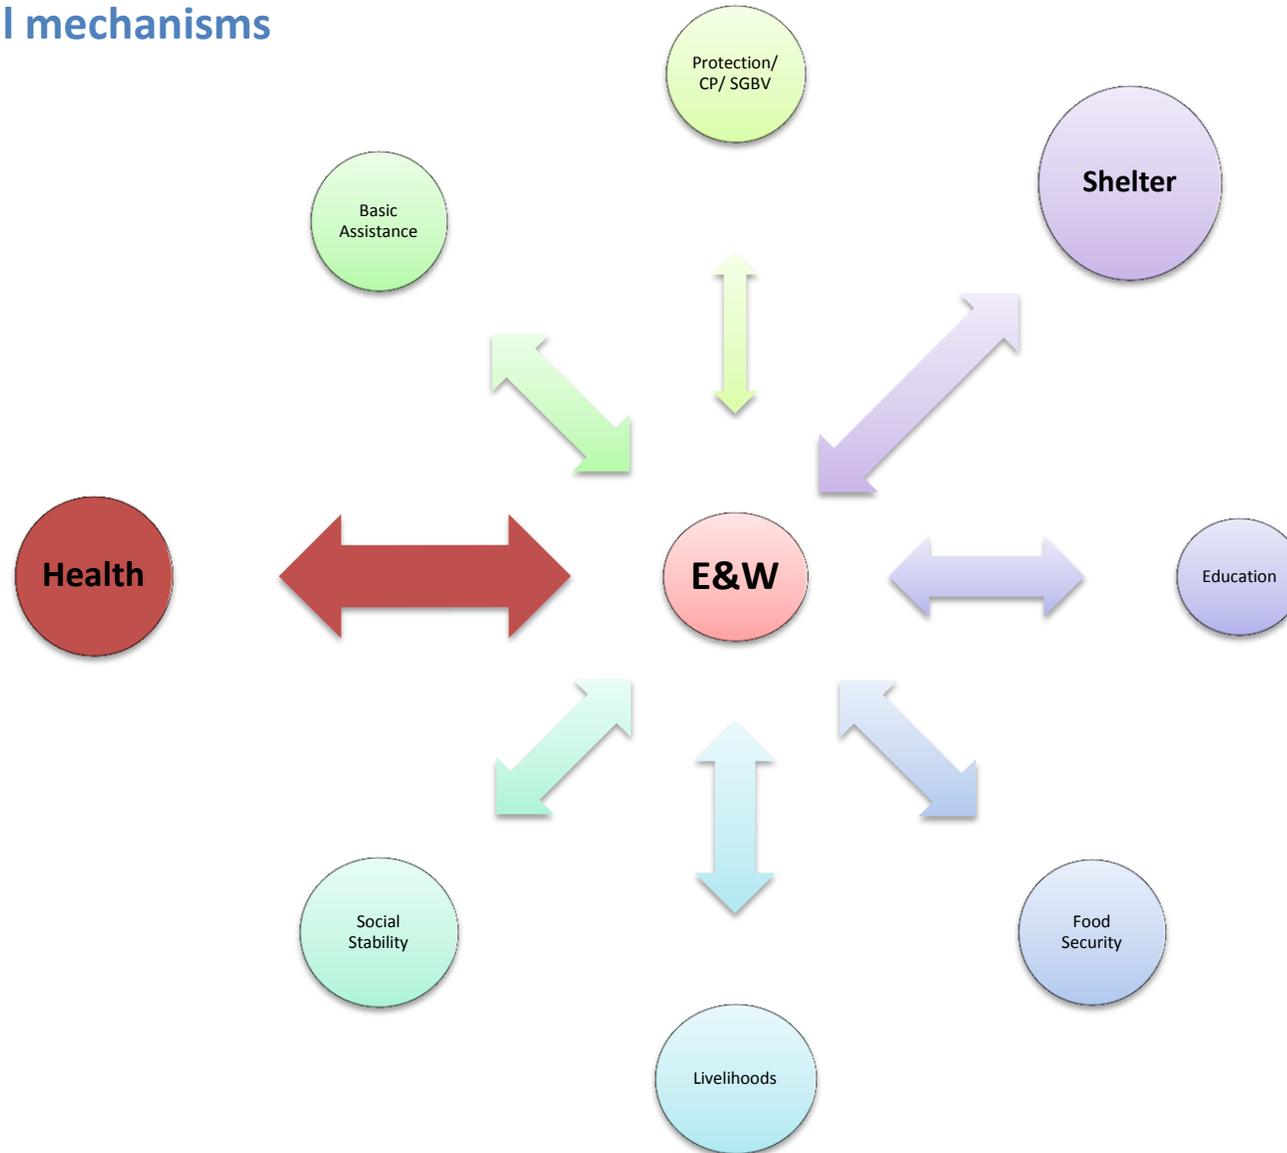

Until a focal point is designated, or a system is put in place, centralized tracking of referrals will remain with the BA Sector Coordinator and the BAWG Co-Chair.

Maybe we can call for candidates from active members of the BAWG, and we can create a decent tracking tool for him/her to be able to follow-up properly.

Energy and Water Sector, LCRP 2016

Referral mechanisms

Bekaa

Health to WASH

Public Health related issue

- WASH related disease,
- Vaccination preventable diseases,
- Etc.

Report suspected case

- Email to:
MoPH ESU, UNHCR
PHU+ WASH
- zfarah.esu@gmail.com,
lebzaphu@unhcr.org,
LEBZAWSH@unhcr.org

Response by Health + WASH if required

- Health investigate to confirm case and follow up as required
- WASH partner alerted and follow up at site undertaken

Guidance being developed by
Health – for non-health people

Bekaa

WASH to Health

WASH Issues

- Identify and report concerns.
- Email to: UNHCR WASH
- LEBZAWSH@unhcr.org

Monitoring and follow up tool: [Google Doc Spreadsheet](#)

QC and referral

- UNHCR WASH Unit ensure information is correct and
