

The overarching goal of the WASH Sector in the coming two years is to enhance more sustainable and cost-effective WASH services for the Syrians living in camps/settlements and having more efficient, cost-effective and equity-driven service providers in areas with a significant proportion of Syrians living in host communities.

At camp level: completing transition to permanent and sustainable water, sanitation and waste management solutions when possible; ensuring standards are met particularly related to quantity, quality, privacy, dignity, security, and WASH for vulnerable people and people with special needs; improving financial and environmental sustainability of services; defining a good service balance between private sector, government, NGOs, while emphasizing and empowering communities to provide services themselves.

At urban level: support service providers in their adaptation to increased demand on services through capacity strengthening and delivery of essential services, including upgrading and expanding service coverage, and improving service efficiency. At the system and governance levels, the WASH partners will contribute to policy development, planning, sector coordination, information and M&E systems, with focus on equity and strengthening of local resilience.

Note: These dashboards reflect selected aggregate achievements of 3RP partners involved in the 3RP Interagency response in Egypt, Iraq, Jordan, Lebanon and Turkey. Progress and targets may change in line with data revisions. All data on this dashboard is current as at 28 February 2017.
