DRC Complaint Response Mechanism		Joint Shelter Assessment	
During the Month of February DRC CCCM did not receive any formal complaint letters from OTC, however many IDPs raised concerns regarding firewood shortages . We are working closely with our camp based staff to ensure that IDPs are aware of our complaints and feedback processes and that they are accessible for all. DRC is highly committed to listening to the IDP communities we serve and to international commitments on accountability; as a result DRC CCCM will be focusing on improving our Complaint Response Mechanism (CRM) over the coming months. Throughout the month of March we will be holding focus group discussions with our camp based staff and IDP communities for their input on how best to improve our CRM system. Updates will follow in next month's report.		DRC CCCM team has been working with the Shelter Cluster, the Myanmar government and DRC engineers on a Shelter assessment. DRC has also been collaborating with UNHCR on a joint shelter assessment in all DRC managed camps which outcomes will be included in the shelter strategy for 2016.
