

Islamic Republic of Pakistan

*30 June 2018

***7,726** Afghan registered refugees (PoR cardholders) repatriated to Afghanistan from 1 March – 30 June 2018.

***12,528** Afghan refugee births registered from 1 January – 30 June 2018.

***1,308** IDP individuals (218 families) returned to their areas of origin in Pakistan since 1 January 2018.

POPULATION OF CONCERN

Country of origin	Total persons of concern
Afghan refugee Proof of registration (PoR) cardholders	1,394,308
Afghan mandated refugees without PoR cards	3,524
Somalia (refugees)	212
Others (refugees)	304
Asylum seekers	4,545
Total out-of-camp IDPs	176,556

FUNDING

USD 39.1 million

UNHCR PRESENCE

Staff:

160 national staff.
33 international staff.

Offices:

One country office in Islamabad.
Two sub-offices in Peshawar and Quetta.

* Figures are updated as of 30 June. Please refer to data portal and UNHCR Pakistan website for latest updates.

Working with Partners

- UNHCR's main counterparts for refugees within the government of Pakistan is the Ministry of States and Frontier Regions, the Chief Commissionerate for Afghan Refugees at the federal level and the Commissionerates for Afghan Refugees, at the provincial level. In addition, UNHCR works with the National Database and Registration Authority (NADRA), the Ministry of Foreign Affairs (MoFA), Ministry of Interior (MoI) and the Economic Affairs Division (EAD).
- UNHCR continues to lead the Shelter / NFI cluster and works in close coordination with the FATA Disaster Management Authority (FDMA) and the Provincial Disaster Management Authority (PDMA) in Khyber Pakhtunkhwa province, as well as SAFRON at the federal level in complex emergencies.
- UNHCR implements activities through national and international non-governmental organisations.

Main Activities

Solutions Strategy for Afghan Refugees (2018 – 2019)

- The regional multi-year Solutions Strategy for Afghan Refugees (SSAR) provides a framework for cooperation between humanitarian and development actors to address the needs of Afghan refugees. The main goal of the SSAR is to identify and implement lasting solutions for refugees, while providing assistance to host communities. The SSAR prioritises the promotion of youth empowerment through inter-linked interventions in the areas of education, vocational skills training and livelihoods.
- The Government of Pakistan endorsed the extension of the SSAR framework for 2018-19.

Protection and Durable Solutions

- **Voluntary Repatriation:** UNHCR operates two voluntary repatriation centres (VRCs) in Quetta, Balochistan and Nowshera, Khyber Pakhtunkhwa for refugees wishing to repatriate to Afghanistan. Families who want to repatriate are de-registered at the VRC, and their Proof of Registration (PoR) card (an identity card for Afghan refugees that grants temporary legal stay in Pakistan and protection against refoulement) is cut in the corner. Returnees receive a cash grant of approximately USD 200 per individual upon arrival at one of the three UNHCR encashment centres in Afghanistan. The voluntary repatriation programme re-started on 1 March 2018 after a break due to the winter.
- **Legal Assistance:** UNHCR operates nine Advice and Legal Aid Centres (ALACs) which provide legal assistance to refugees and conduct awareness-raising activities. In June, 1,931 persons of concern were assisted by ALACs. ALACs intervened on behalf of 59 refugees at police stations upon arrest, securing the release of all, and provided court representations to eight of those charged under the 1946 Foreigners Act and other preventive laws. In June, individual legal counselling was provided to 491

persons of concern who visited ALAC offices, as well as 573 people who sought legal advice through the ALAC helplines. Through 71 legal sessions, staff reached out to 713 participants (41 per cent were women) during June. The issues of greatest concern for persons of concern seeking legal advice/assistance were the extension of PoR cards, shelter, financial, medical needs and police harassment.

- UNHCR provides support to four Proof of Registration Cards Modification (PCMs) centres operated by the National Database and Registration Authority (NADRA) nationwide. The PCM centres support the modification/replacement of existing PoR cards, the registration of new born children up to the age of five, provision of PoR cards to registered children older than five years of age and the issuance of birth certificates to children under the age of 18. A total of 12,528 children were registered and 10,080 children received birth certificates between 1 January to 30 June 2018.

Community-based protection

- The overall goal of **the** community-based protection and urban outreach strategy (2017-2019) is for Afghan refugees living in Pakistan to be empowered and their resilience capacity strengthened, enabling them to minimise their exposure to protection risks and improve their overall protection environment, with a special focus on the most vulnerable.
- To facilitate community gatherings in Nishat Mill area in Khyber Pakhtunkhwa province, outreach volunteers mobilized the community to construct a communal shaded seating area next to the local mosque.
- Four outreach volunteers from Quetta, including one host community member, participated in a live panel discussion during the NGO consultations at UNHCR headquarters in Geneva. The outreach volunteers discussed the challenges faced by females in Pakistan and the outreach volunteer programme.
- Community-based protection team staff in Islamabad conducted visits to communities in Punjab province to make the necessary arrangements with authorities and communities, for the mobile registration van services which issue and modify Proof of Registration cards to registered Afghans in Pakistan.

Education

- UNHCR Pakistan continues to provide students access to free primary and (in some areas) secondary education through 153 schools, 48 satellites classes, 55 home-based girls schools and 13 early childhood education centres in refugee villages. Around 57,000 refugee children living in 54 refugee villages across Pakistan receive education through these interventions. UNHCR also provides tertiary-level scholarships to Afghan refugee youth through the Albert Einstein German Academic Refugee Initiative (DAFI). The beneficiaries are mostly between 17 to 30 years old. In 2018, 400 students are currently studying in different Pakistani universities on a DAFI scholarship.
- UNHCR's education strategy aims to facilitate access of Afghan children into nearby public schools where these are available to avoid training a parallel education system,

maximise resources and encourage peaceful co-existence amongst refugees and local children. One of the strategies used by UNHCR to support this process is directing Refugee Affected and Hosting Areas (RAHA) resources towards improving existing public sector educational facilities within accessible distances to refugee villages. This reinforces the absorption capacity of the institutions to benefit both host and refugee communities and contributes to social cohesion.

Health

- UNHCR continues to support the provision of basic health services in refugee villages in Khyber Pakhtunkhwa, Balochistan and Punjab provinces. In June, 7,700 people in refugee villages received health services from 59 health facilities. Refugee women and children enrolled in preventive and reproductive health care programmes received antenatal, pre-natal, postnatal care and routine immunisation services. Some 1,376 women received antenatal care, 426 deliveries were conducted by a trained birth attendant and 1,446 women received postnatal care. Polio eradication campaigns were conducted in refugee villages by WHO, UNICEF and the health department, with assistance from UNHCR's partners.

Livelihoods

- UNHCR Pakistan has signed an agreement with the Pakistan Poverty Alleviation Fund (PPAF) for the second phase of the poverty graduation project in 2018. Through this project, UNHCR is helping 2,000 vulnerable families to graduate from extreme poverty and achieve economic self-reliance in Pishin, Balochistan and Swabi, Khyber Pakhtunkhwa.

Refugee Affected and Hosting Areas Programme (RAHA)

- Since 2009, the government of Pakistan has been implementing the Refugee Affected and Hosting Areas (RAHA) initiative, which serves as a cornerstone for the implementation of the Solutions Strategy for Afghan Refugees (SSAR) and a principal responsibility-sharing platform for maintaining protection space for Afghan refugees. RAHA implements a wide variety of projects across the sectors of education, health, livelihoods, infrastructure, water, sanitation and social protection. Since the launch of the programme, over 4,100 projects have been implemented across all provinces of Pakistan and five agencies in the Federally Administered Tribal Areas (FATA), benefitting over 10.94 million people. In 2017, nearly 623,000 people (of whom 35 per cent are registered Afghan refugees and 65 per cent are their Pakistani host communities) benefitted from 36 RAHA projects. In 2018, project partnership agreements for eight projects (education, livelihoods and water) are under review. UNHCR continues to line up further projects approved by the provincial task forces, as well as the Ministry of SAFRON, should further funding become available.

Internally Displaced Persons (IDPs)

- As of 30 June 2018, 29,426 IDP families (176,556 individuals) were registered as internally displaced in Khyber Pakhtunkhwa and the Federally Administered Tribal Areas (FATA). UNHCR continues to lead emergency shelter/ non-food items cluster,

as part of the inter-agency response. UNHCR is also providing technical support to FATA Disaster Management Authority (FDMA) in the protection cluster.

- Since 1 January, 1,308 individuals have returned to de-notified area (areas declared safe for returns after military operations). A cash grant of PKR 35,000 (approx. USD 300) is distributed to returnees at the return embarkation points by the government. UNHCR has supported the return of IDPs mostly through protection monitoring in return areas and the provision of targeted assistance to vulnerable individuals.
