BASIC INFORMATION

POPULATION FIGURES

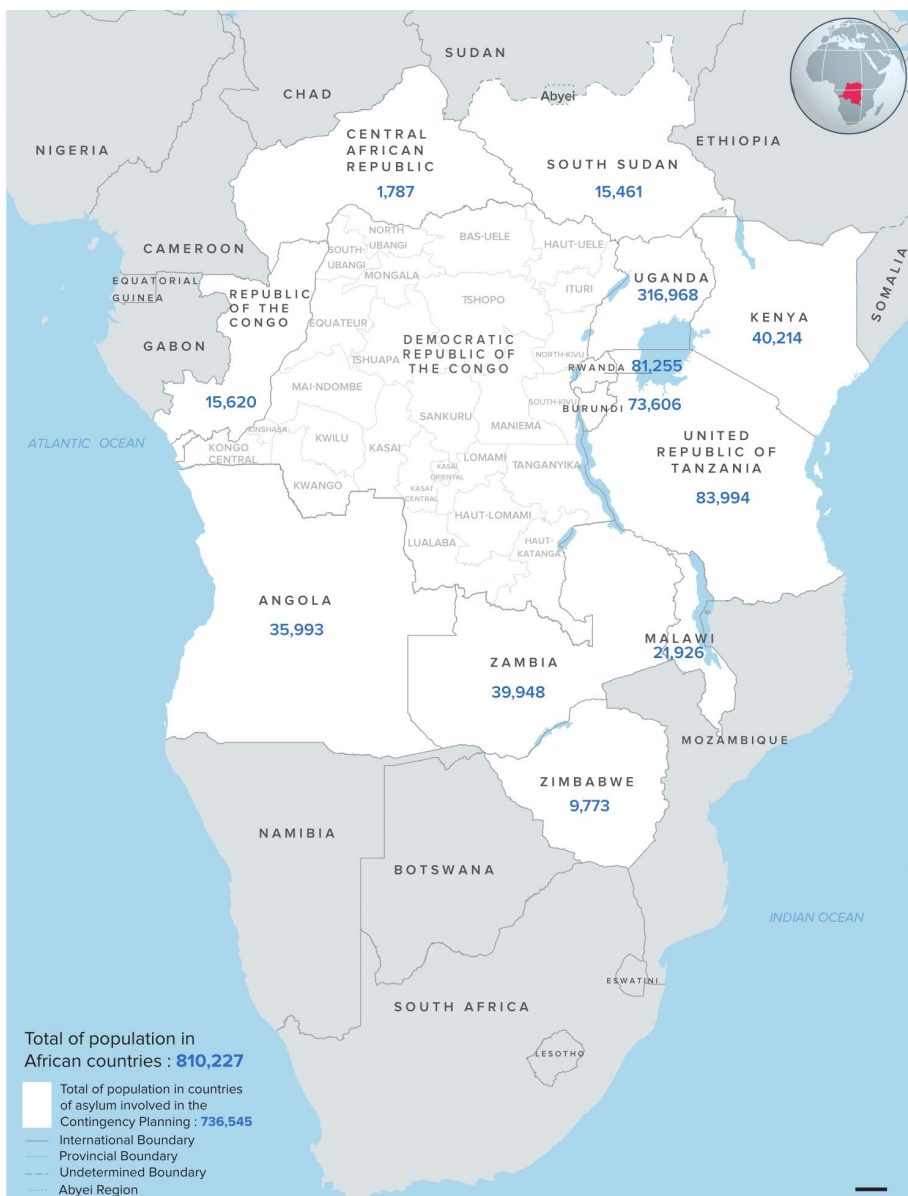

- The figures in this report have been updated to reflect the results of a **continuous biometric registration and verification exercise** in countries of asylum.
- The total figures include additions (new arrivals and births) and subtractions (departures, deaths, no-shows during food distributions and deactivations).

EMERGENCY LEVELS

- A **Level 2 emergency** for UNHCR's response to the situation in **Ituri and North Kivu in the DRC** was activated on 13 August 2018. The declaration shall remain in force for an initial period of six months, at which time it shall be reviewed.
- The **Level 1** emergency that was activated on 10 September 2017 for **Zambia** and the **Level 2** emergency on 16 February for **Uganda**, are ongoing.

FUNDING

- UNHCR received **\$148.5 million** for the DRC situation, representing **only 40 per cent** of the total requirements for 2018, which amount to \$368.7 million.
- The interagency Regional Refugee Response Plan (RRRP) for the DRC situation has received **\$76.9 million**, representing **only 14 per cent** of the total requirements for 2018, which amount to \$547 million.

Total of New Arrivals in Countries of Asylum in 2018
