CCCM Cluster
SOMALIA CAMP COORDINATION AND CAMP MANAGEMENT

General update

CCCM partners conducted a mapping of community governance structures and the formation of 20 camp management committees for targeted sites in Sool. Members of the committees were selected by the community to be representative of all aspects of the displaced population including women, elders, youth, traditional leaders and minority groups.
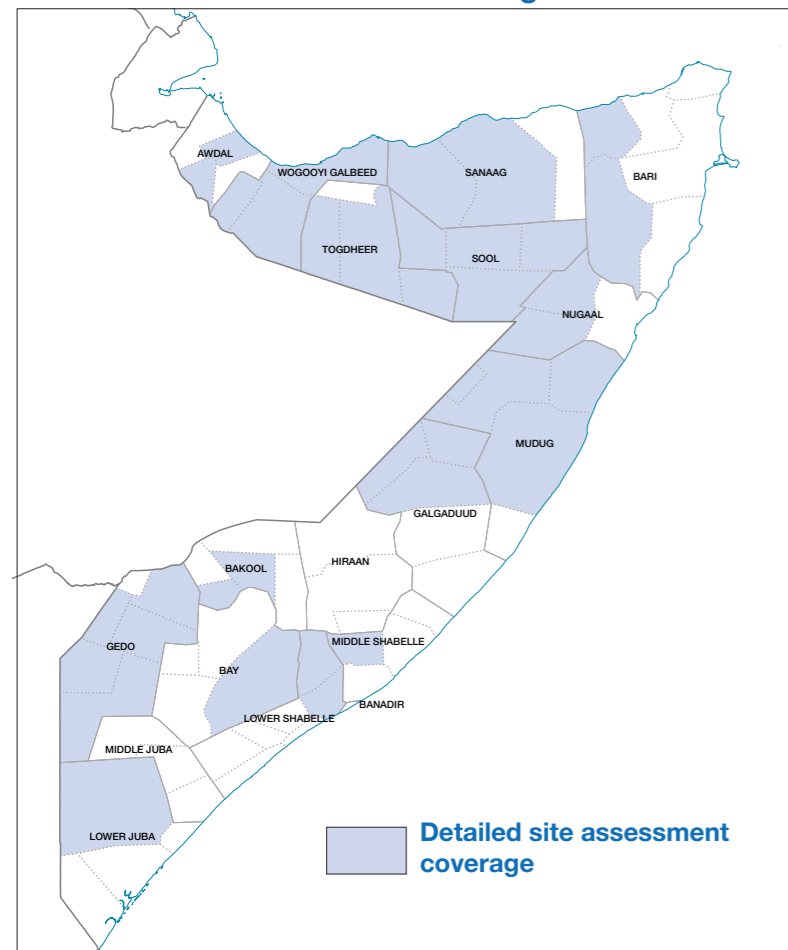

Three Community Centers were constructed in Baidoa and two in South Gaalkacyo. These centers will be multipurpose centers and will be used for meetings, recreation and other communal and cultural events.

Dollow site management team registered 250 new households and allocated the families plots in the contingency space of Qansaxlay site.
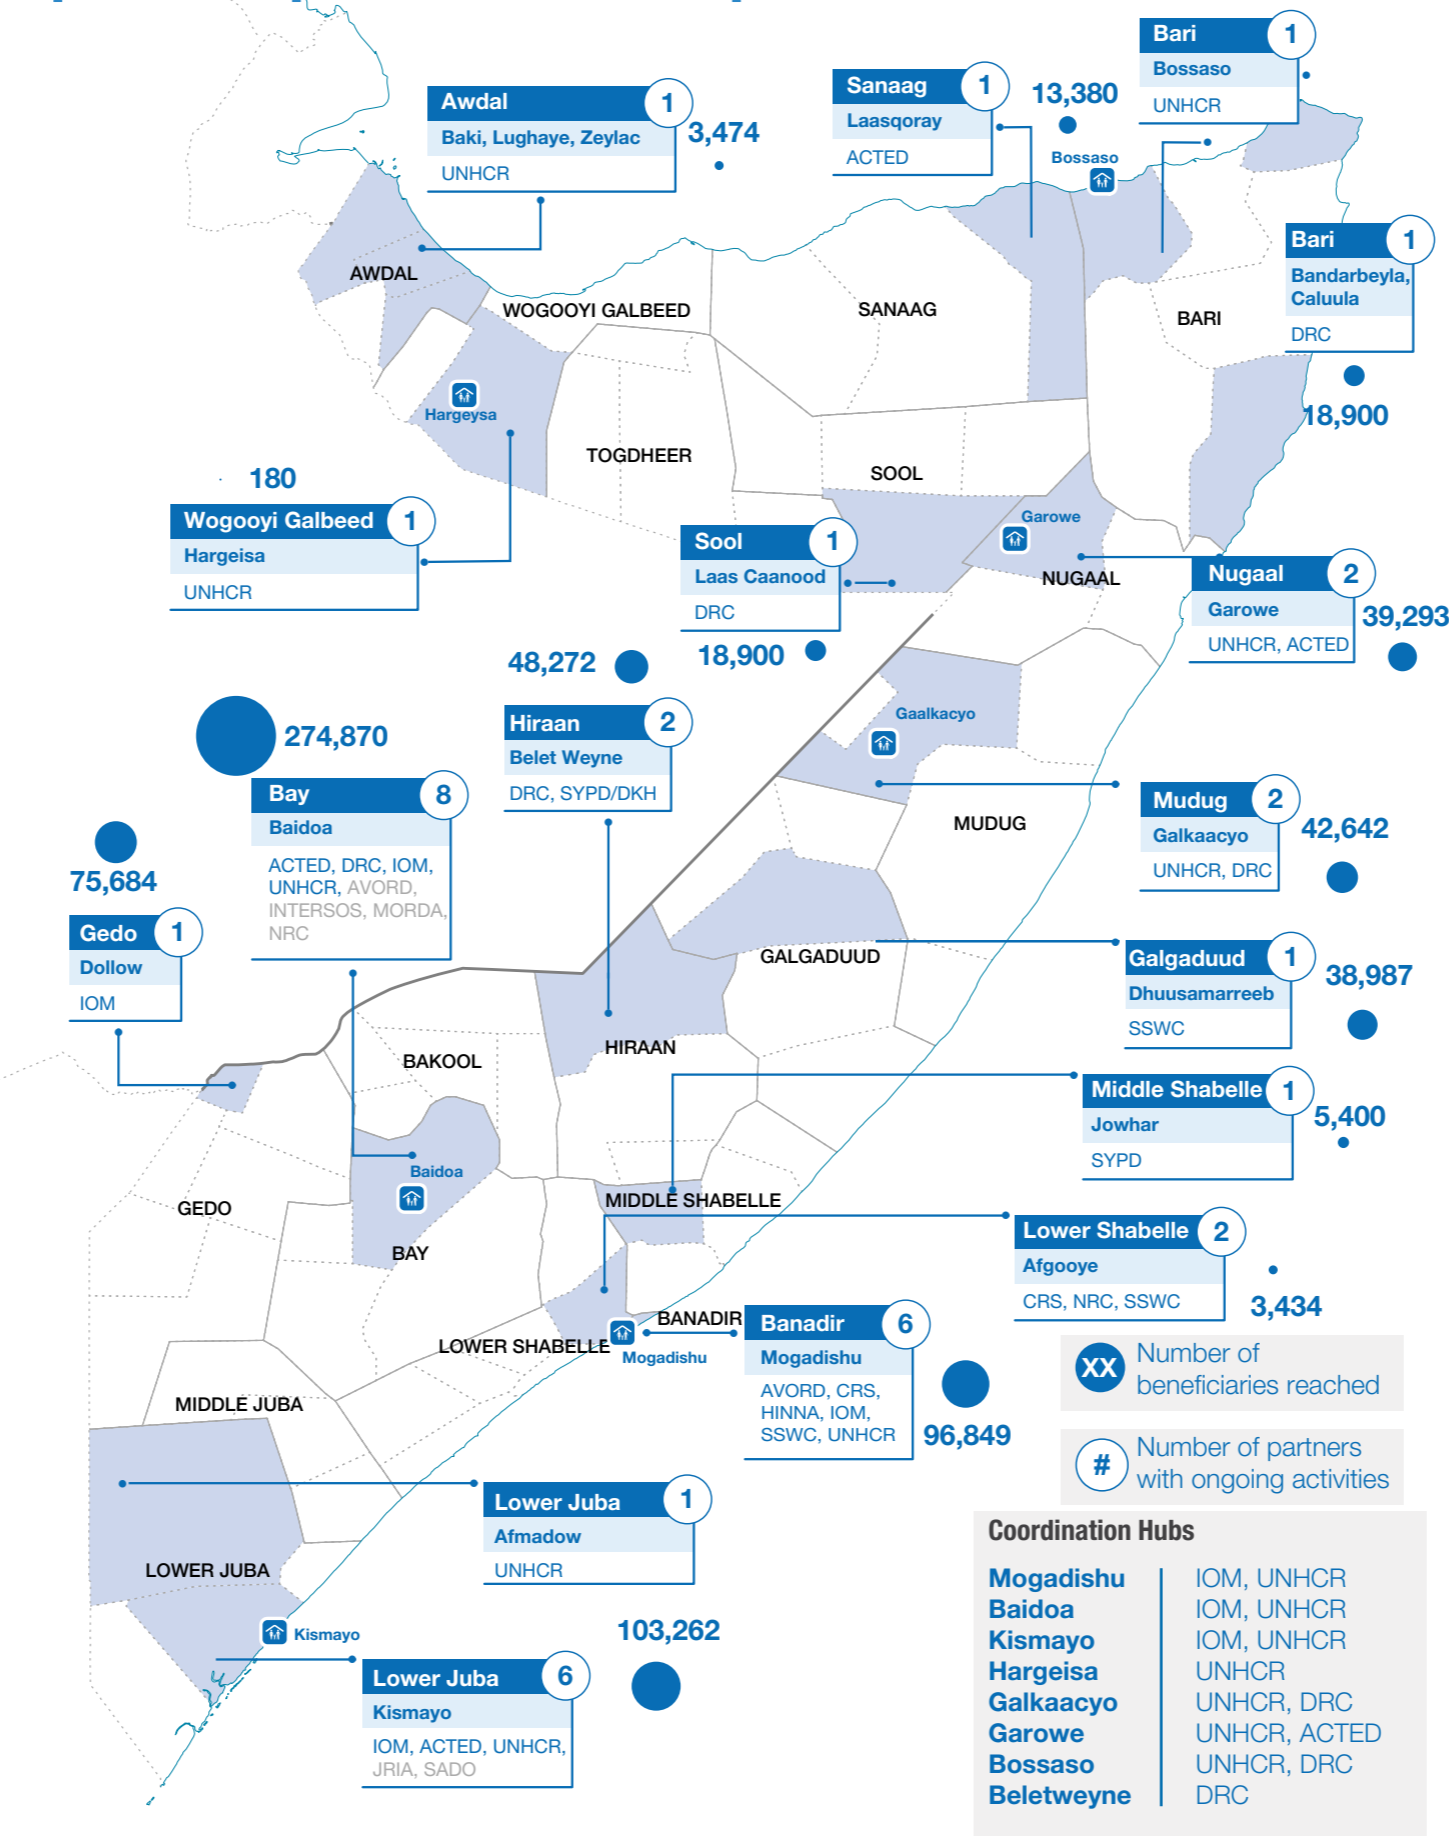

Eviction risk monitoring was conducted by CCCM, protection/HLP clusters in Kismayo. The assessment showed that 88% of sites are at high risk of eviction.

Data collection for the Detailed Site Assessment was conducted in 39 districts.

Overall Objective

To improve the living conditions and protection of IDPs in sites and settlements and ensure equitable access to services and assistance of all persons in need, with a clear focus on moving toward attaining durable solutions with full participation of the displaced and host communities.

Strategic indicators	Target **Achieved**
# of IDP reached by CCCM partners	1.5 million **783,527**
# of sites with established CCCM mechanisms	1,600 sites **797 sites**
# of sites covered by the Detailed Site Assessment	89 districts **39 districts**
# of sites with established community participation structures	1,600 sites **797 sites**
# of displaced people with access to information about humanitarian services	1.5 million **783,527**

Gaps

- Restricted humanitarian access in some parts of south and central Somalia

- Lack of information on service provision at site level

- Lack of land tenure and forced evictions inhibit the ability of partners to improve living conditions in sites

- Low levels of community participation and AAP inhibit ability to improve beneficiary targeting to include marginalized populations
