

# Serbia

Serbia hosts around **4,200** refugees and migrants who arrived during the European Refugee Situation. Additionally, there are over **26,500** refugees and **199,500** IDPs from the ex- Yugoslavia region, and some **2,100** persons at risk of statelessness.

Persons in need of international protection amongst newly arriving third country nationals (over **17,200** during the last twelve months) are supported in requesting and being granted asylum and local integration. Most displaced from the region have found solutions, while cases and threat of statelessness have been reduced.

UNHCR continues to support the Government in strengthening the national asylum system and in achieving sustainable developmental and institutional protection and solutions interventions.
