

CCCM Cluster Somalia Dashboard

as of October 2019

General update

The Hiran CCCM sub-national cluster conducted a rapid needs assessment of the floods that have affected thousands of families across Beletweyne IDP sites. It is estimated that rains and floods have affected close to 5,807HHs (34,842 individuals) of IDPs according to CCCM site verification IDPs done in October 2019.

Site maintenance activities were started in Dhusamareeb and Cadado. This include cash for work activities to improve sites as well as distribution of site maintenance tools.

CCCM partners in Banadir completed safety audits in 56 IDP sites in Kaxda and Deynille. Generally, the living condition in all sites were observed to be poor and pose risks to the well-being of populations living in these sites. The safety audit report include multisectoral recommendations to improve safety and living conditions in the sites

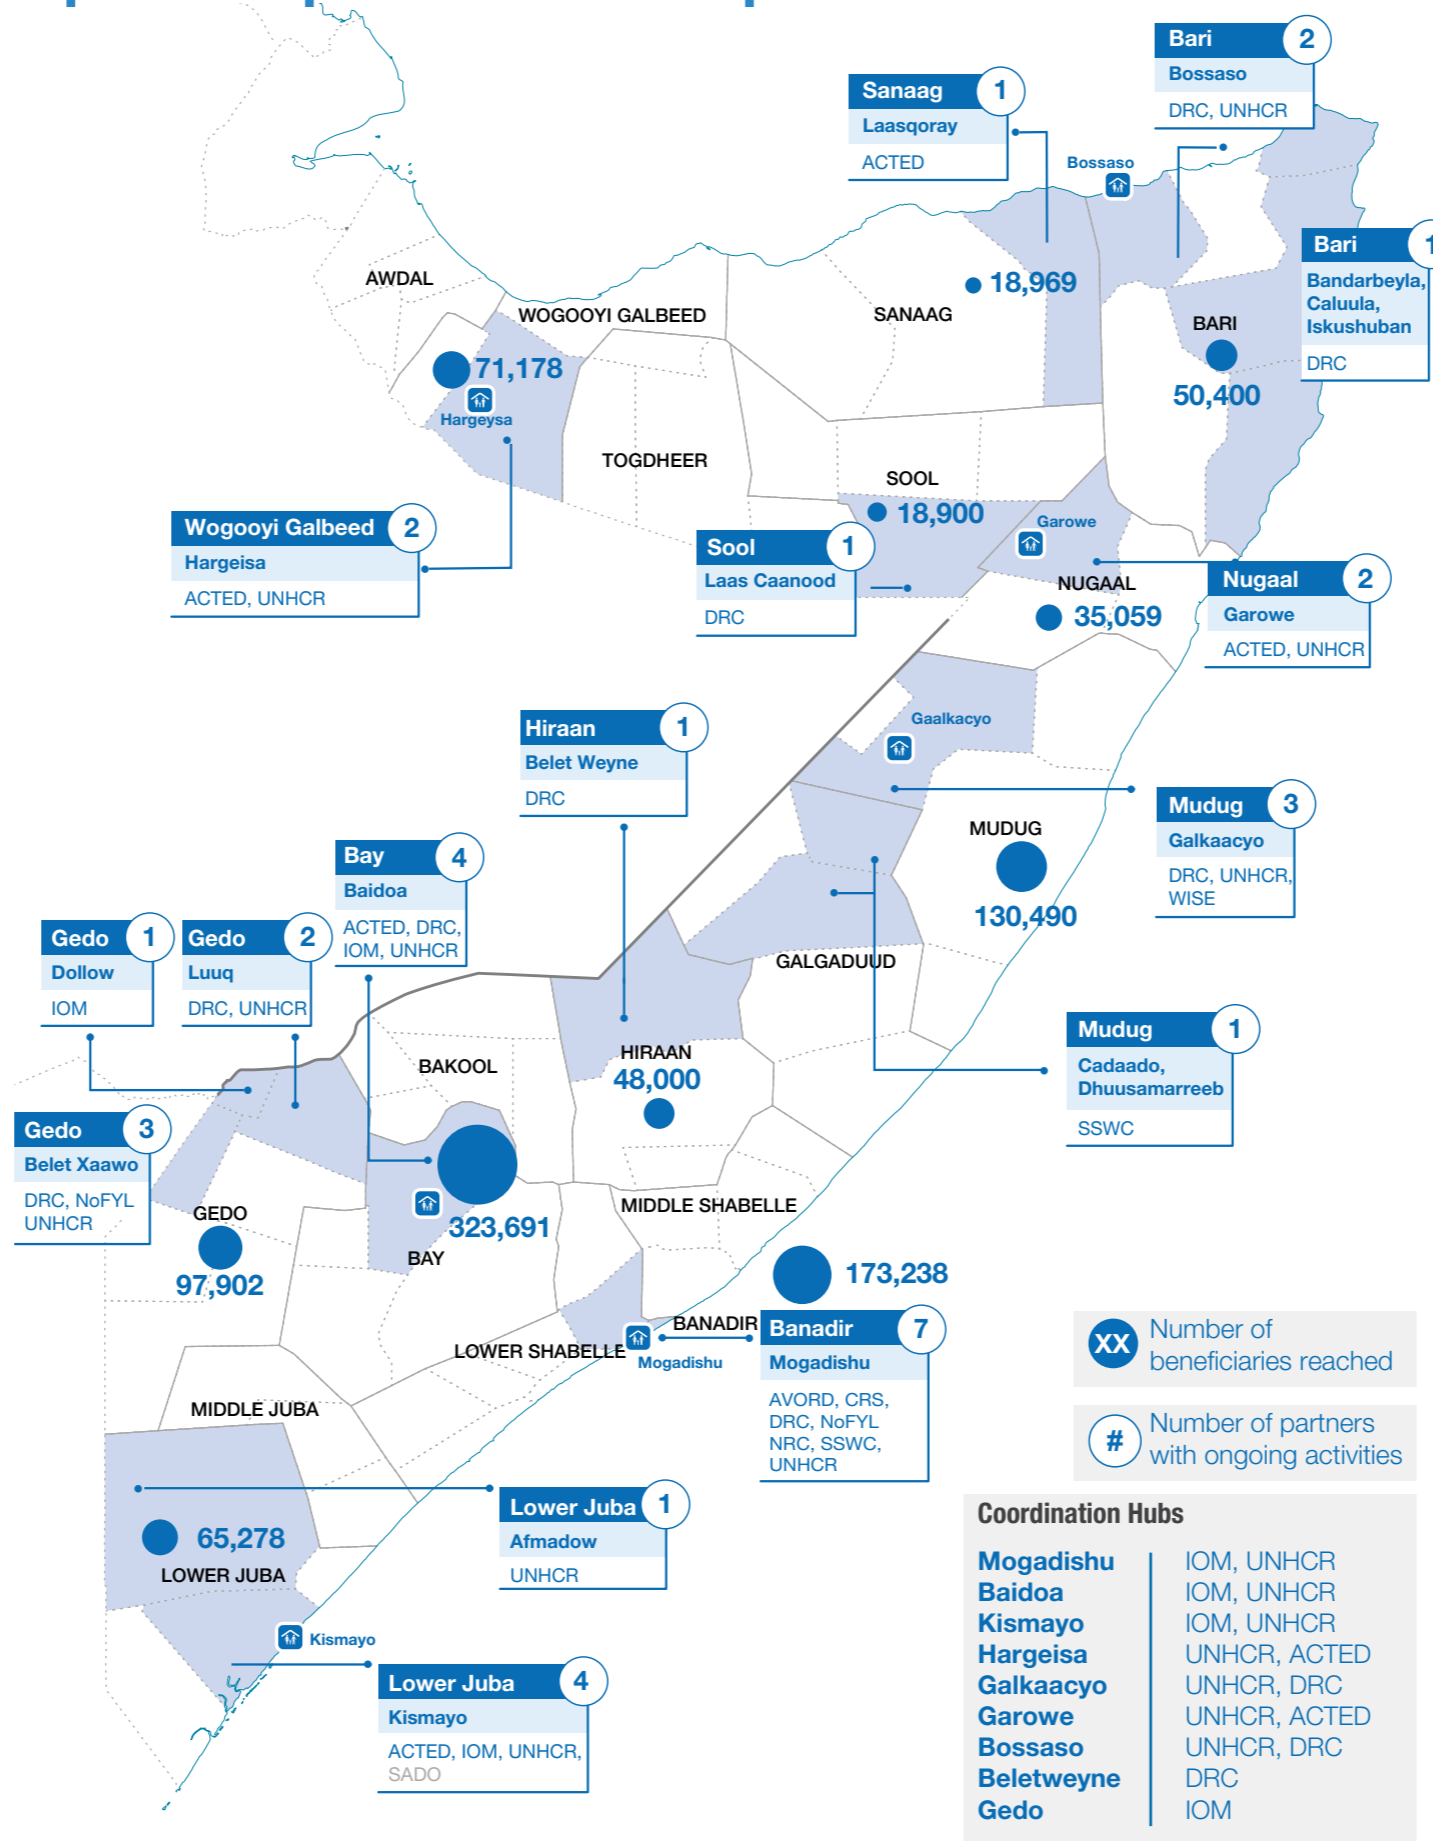

Flood assessments were carried out by CCCM partners in Baidoa, Kismayo, Dollow, Beletweyne, Mogadishu and Belet Xaawo. The assessments include multisectoral needs and damaged infrastructures which were circulated to partners to inform their responses.

CCCM Cluster subnational focal points in Baidoa presented on a panel discussion at the 2nd annual Evidence week, hosted by Regional Durable Solutions Secretariat (ReDSS). The CCCM cluster focal point presented on area based and settlement planning and the role of CCCM in Baidoa.

Operational presence of cluster partners

Overall Objective

To improve the living conditions and protection of IDPs in sites and settlements and ensure equitable access to services and assistance of all persons in need, with a clear focus on moving toward attaining durable solutions with full participation of the displaced and host communities.

Strategic indicators	Target	Achieved
# of IDP reached by CCCM partners	1.8 million	1,104,697
# of sites with established CCCM mechanisms	1,926 sites	842 sites
# of displaced people relocated to safe locations and supported with secure land tenure	2,000 families	1,102 families

Baseline data

2.6 million IDPs in Somalia
2,000+ IDP sites in Somalia

Gaps

- Restricted humanitarian access in some parts of south and central Somalia
- Lack of information on service provision at site level
- Lack of land tenure and forced evictions inhibit the ability of partners to improve living conditions in sites
- Low levels of community participation and AAP inhibit ability to improve beneficiary targeting to include marginalized populations
